### EXTRACT OF SARSAPARILLA.

The WONDER and BLESSING of the AGE! The most EXTRAORDINARY MEDICINE in the WORLD

THIS EXTRACT is put up in Quart Bottles. It is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening, or debilitating the patient.

We have manufactured 1,500,000 Bottles of this Sarsaparilla during the past year, and are now putting up 5,000 Bottles per Day; using more of the Sarsaparilla Root in one month than all the other manufacturers of Sarsaparilla in one year.

This Extract has cured all more of the following diseases than all the other advertised medicines together have done:—

Scurful, or King's Evil. Scrofula, or Cutaneous Eruptions. Pimples or Pustules on the Face. Blotches, Riles, Chronic Sore Eyes. Ring Worm or Tetter. Scald Head. Enlargement and Pain of the Bones and Joints. Stubborn Ulcers. Syphilitic Disorders. Lumbago. Salt Rheum, and all diseases arising from an impure blood. Eruptions of Mercury. Aches, or Dropsy. Exposure, or Impudence in Life. It invariably cures Rheumatism, Indigestion or Dyspepsia. Neuralgia, General and Nervous Debility. Palpitation of the Heart. Liver Complaint and Inflammation of the Kidneys.

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigor.

THE NUMBER OF DISEASES mentioned above, as cured by this preparation of Sarsaparilla, may seem large; but we are, nevertheless, prepared to prove, by an EXTENSIVE ARRAY OF CERTIFICATES, that such is the FACT. A fraction of the evidence which we possess concerning each disease, would be received before any respectable tribunal, as complete demonstration. It must be remembered that all this frightful array of maladies, though appearing in an endless variety of forms, are yet similar in their origin and causes; for they all spring directly or indirectly from a corrupt fountain. If the blood were in a pure, healthy, and active state, it would drive all these complaints from the system, and chronic disease would be impossible.

Agent S. P. Townsend's Sarsaparilla.

Sir,—Having been afflicted for the last twelve months, with an affection on the lungs, which prevented me attending to my work as well as I could wish, during which time I was under three Doctors' hands, and must say, I derived no benefit whatever, and began to despair of ever getting better. I was induced to try S. P. Townsend's Sarsaparilla, that you are agent for, by seeing it advertised, and after using 2 bottles, found immediate relief, and am now able to attend to my work as usual. I sincerely believe it has been the means of restoring me. I have also been afflicted with the Piles for the last seven years, and when I began using your valuable Sarsaparilla, to my astonishment, I was cured.

### THE SUBSCRIBER.

BEING acquainted with the construction of Chest Expanding BRACES, recommended as a principal means of the prevention and cure of Consumption, by Dr. Fitch of Philadelphia, a physician celebrated for his success in the cure of that disease,—and being urged by several of his friends whom he furnished with them, to make it known to the public, he therefore takes this opportunity of complying with their wishes.

These BRACES are recommended to all slightly made or narrow chested persons; also for Round Shoulders or Disordered Spine, as a means of expanding the Chest, so as to give full play to the Lungs, straightening and strengthening the Back, and giving uprightness and symmetry to the body.

They will be found beneficial to all ages,—but especially to youth. They may be worn without the least inconvenience, precluding the necessity of Stay,—for which Ladies would find it greatly to their advantage, as regards health and beauty, to substitute them.

The Subscriber will furnish the Braces wholesale or retail, at prices as moderate as possible.

MICHAEL HERBERT,

Halifax, Feb. 16. No. 6 Argyle Street.

N. B.—The above Braces are not only designed for those who may be suffering from disease, but for both Ladies and Gentlemen as a preventive, and in all cases where there is a delicacy of constitution, or predisposition to consumption. ## STAR LIFE ASSURANCE SOCIETY, OF LONDON.

Capital Stock £100,000 Sterling.

Chief Office, 44 Moorgate Street.

### TRUSTEES.

James Hunter, Esq., Compton Terrace, Islington. Fredk. Mildred, Esq., Banker, Nicholas Lane. Thomas Sanda, Esq., Liverpool.

Chairman of Directors, Charles Harwood, Esq., F. R. S. Recorder of Shrewsbury.

Dy. Chairman, John Josiah Buttress, Esq. Agent for Nova Scotia, DANIEL STARR.

Medical Examiner, R. S. Black, Esq., M. D.

THE Agency of the above Company has been in operation in this Province about 4 years, and has made considerable progress, without yet having a claim, the rates are generally lower than any other London or Scotch Company, and the proportion of profit divided among the assured greater by far than any other, being 50 per cent, 10 per cent only to the Stockholders, rendering it at once both a Stock and mutual Society without any risk to the assured; their first Bonuses declared in May last were in some cases over three per cent amount on the amount of Policy. And on two Policies at this agency on which three annual premiums only had been paid, the Bonus added was over 65 per cent, on the amount paid in, the mortality among the lives assured by this Society were found to be 21 per cent, less than had been calculated for. The above are facts in favour of the "Star" which cannot be controverted, and should recommend it to the favourable consideration of all parties intending to insure. Policies effected on the participating principle allowed, to come in on the payment of 3 annual premiums. Thirty days allowed for the renewal of Policies after becoming due, and Policies expired can be renewed within six months, if the parties health is not impaired and the payment of a small fine—a credit of one half the premium when amounting to a certain sum, may be obtained for the first five years. No extra charge made for crossing to and from England in Steamers or first class sailing vessels at any season, by advising the Agent of the parties intention. Policies are sent out by next steamer after arrival of Proposals. The attention of the Public of this Province generally and of Wesleys in particular, is requested to the favourable terms and privileges offered by the "Star" as above enumerated. It is admitted by all that it is the duty of every person having others dependent on them to provide for them while they have it in their power so to do, and in no way can this be done so effectually or cheaply as by paying according to their means a sum annually on a Life Policy. It has often been proved even here to be of much benefit to widows and orphans, and so very uncertain as both life and health, of which we have recently had many sad proofs, that delay in these matters is exceedingly dangerous, the only time to apply is while in Health. Applicants will receive every information and attention to their requests by the Agent in Halifax, who furnishes all necessary blanks, and Medical Examiner attends free of expense to the applicant. All communications by mail must be prepaid.

## Life and Fire Insurance.

THE Undersigned has been appointed AGENT for the

## "Trenton Mutual Life and Fire Insurance Company of Trenton,"

United States, and having previously to taking the Agency, received satisfactory proof of the good standing and respectability of the Institution, he begs to inform the public generally that he is now prepared to issue Policies for eligible fire risks at moderate rates of premium, and to receive proposals for Life Policies, which will be forwarded to the Directors, and if accepted, Policies will be immediately returned.

The Capital Stock of the Trenton Mutual is now \$205,000,

well secured in good productive Stocks, Mortgages on Real Estate, and Cash in Banks—and doing a very large and as yet from its commencement in 1847, a very successful business.

In the Life Department they issued the first year, ending 1st October, 1849, 957 Policies—a number which very few Companies of long standing ever reached in the same time. The benefit of the mutual system in Life Assurance is very apparent, and is most favourable to all Policy holders in this Society, inasmuch as they receive a portion of each year's profits yearly, being deducted from the Premiums then payable, which are lower than any of the English Companies and not subject to stamp duty—all the particulars of which are fully set forth in the Pamphlets which the Agent has for distribution, who furnishes all Blanks and every necessary information, together with the Medical Examiner's Certificate gratis. All persons intending to insure are invited to call on the Agent, who will give them every information.

## MOTT'S BROMA.

THE following observations having reference to the preparation of BROMA, appeared in a late number of the Boston Medical Journal:—

"A few years since a great manufacturer of Broma sought the opinions of many medical gentlemen of distinction, for the purpose of having an unobjectionable food for invalids, and was assured that he had fully succeeded. Hospitals, infirmaries, and households generally, should always be provided with it. When gruel, arrowroot, groats, barley, starch, rice, farina, and many other things ordinarily resorted to for patients are of no utility, the Broma is sometimes resorted to. It is believed that those who use it as a beverage will have manifest diastolic advantages over the consumers of tea and coffee. We are stated that during the last summer those individuals who were continually using Chlorella or Broma neither had attacks of cholera or dysenteric affections, while others of the same families, taking their daily potatoes in tea, coffee, or simple cold water, were the sufferers, if any. We cannot vouch for the truth of this, but it has recurred to mind the statement that the oil dealers in London have been free from cholera or the cholera symptoms. And it has been for their observed, that persons who were taking cod liver oil for chronic difficulties, during the prevalence of the late epidemic, were not affected by it. Vegetable oil in the first instance, and animal oil in the last, taken internally, would appear, by these statements, to have secured those who took them from the shafts of the pestilence. It is certainly a point well worth while to determine, whether the chocolate drinkers have been secure in other infected cases."

MOTT'S BROMA has now been before the public for a considerable period, and, along with the commendations of the Medical Faculty of this and the neighbouring Provinces, it has received the approbation of all classes of consumers. It is held to be an article of standard reputation, and the demand for it is constantly increasing.

## You May be Cured Yet!

### HOLLOWAY'S OINTMENT. CURE OF RHEUMATISM AND RHEUMATIC GOUT.

Extract of a Letter from Mr. Thomas Brunton, Landlord of the Waterloo Tavern, Contham, Yorkshire, late of the Life Guards, dated September 28th, 1848.

To Professor Holloway.

Sir,—For a long time I was a martyr to Rheumatism and Rheumatic Gout, and for ten weeks previous to using your medicines, I was so bad as not to be able to walk. I had tried doctoring and medicines of every kind, but all to no avail, indeed I daily got worse, and felt that I must shortly die. From seeing your remedies advertised in the paper I take in, I thought I would give them a trial. I did so. I rubbed the Ointment in as directed, and kept cabbage leaves to the parts thickly spread with it, and took the Pills night and morning. In three weeks I was enabled to walk about for an hour or two in the day with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been attending to my business more than seven months, without any symptoms of the return of my old complaint.

Besides my case of Rheumatic Gout, I have lately had proof that your Pills and Ointment will heal any old wound or ulcer, as a married woman, living near me, had had a bad leg for four years, which no one could cure, and I gave her some of your Pills and Ointment, which speedily healed it when nothing else would do it. For your information I had the honour to serve my Country for twenty five years in the first regiment of Life Guards, and was eighteen years a corporal. I was two years in the Peninsula War, and was at the Battle of Waterloo. I was discharged with a pension on the 2nd September, 1833. The Commanding Officer at the time, was Colonel Lygon, who is now a General. I belonged to the troop of Captain the Honorable Henry Baring. (Signed) THOMAS BRUNTON.

### Cure of a Bad Leg of Twenty-one Years' Standing!

Extract of a Letter from Mr. Andrew Brock, Blacksmith, Eymouth, near Berwick, dated the 10th of August, 1848.

To Professor Holloway.

Sir,—With pleasure and gratitude I have to inform you that after suffering for 21 years with a bad leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of eminence in this part of the country, but all to no purpose. I was frequently unable to work; and the pain and agony I often endured no one can tell. My leg is now as sound as ever it was in my life by means of your Pills and Ointment, which I purchased from Mr. I. Davidson, Druggist, Berwick-upon-Tweed, who knows my case well, and will, I am sure, be happy to certify such, if necessary, as to the truth of this wonderful cure. (Signed) ANDREW BROCK.

### AMPUTATION OF TWO TOES PREVENTED.

Extract of a Letter from Mr. Oliver Smith Jenkins, dated Fairbairn August 18th, 1848.

To Professor Holloway.

Sir,—I was superintending about six months ago, the erection of one of our Railway Bridges, and by the fall of a large stone my right foot was seriously bruised, which ultimately got so bad, that I was advised to go to Edinburgh to consult some of the eminent Surgeons, which I did, and was told that in order to save my foot, two of my toes must be taken off. In despair, I returned home to impart the melancholy news to my wife, intending to submit to the operation, it was then a thought struck me to try your valuable Ointment and Pills, which I did, and was by their means in three weeks enabled to resume my usual occupation, and at the time my toes are perfectly cured. (Signed) OLIVER SMITH JENKINS.

### An Extraordinary Cure of a Desperate Skin Disease.

On the 21st July, 1848, the Editor of the "Manchester" Newspaper, published in India, inserted the following Editorial article in his paper. "We know for a fact, that Holloway's Pills and Ointment set in a most wonderful manner upon the constitution, as an eccentric Coelie, called Elina, employed in our Establishment, was afflicted with myriads of Kingworms, which defiled all the Mercat Doctors, and promised to devour the poor man before he was under ground; we tried 'Holloway' upon him, and in a month he was perfectly restored to his former condition and cleanliness of skin. The effect was marvellous."

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Corns (Soft)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff-joints	Sore Nipples
Bleasoms	Elephantiasis	Sore Throats
Bite of Mosquitoes & Bees	Fistulas	Skin Diseases
Blisters	Glandular swellings	Scurvy
Coco-Bay	Lungs	Sore-heads
Chiege-foot	Lumbago	Tumours
Chilblains	Piles	Ulcers
Chapped-hands		Wounds
		Yaws
