The Boxer Rising.

The Boxer rising was the movement of a Chinese society organized in 1900, directed again missionarie and other foreigners. The Manchus of the court and the empress at first opposed, but afterward encouraged the movement. This led to the murder of the German Minister at Peking, the destruction of several of the legations and the siege of about 200 refugees within the walls of the British legation at Peking. A relief expedition of about 18,000 soldiers made up of British. American made up of British, American French, German, Russian and Japa-nese, went to the rescue, which was accomplished after heavy fighting.

Nemesis was a goddess of justice and divine retribution. The work comes from a Greek verb meaning to deal out, distribute, dispense. If Greek mythology Nemesis was goddess personifying allotment, of the divine distribution to every may of his precise share of fortune, good and bad. It was her special function to see that the proper proportion of individual prosperity was preserved, and that any one who became too prosperous or was too much up lifted by his prosperity should be reduced or punished.

He Stayed at Home.

"Well—no," said the ancient Arkansawyer, "I hain't never did much of what you'd call traveling. I was 97 years old, last grass, born and raised right yur in Shagbark township, and hain't been outside of the county but once. That was when I was about thirty years old. I went over to Torpidville, and they lust nacher'ly took and started to lynch me the minute I got to town, for something or nuther, I never did fad out what. One foot was already in the air and the other parely touching the ground when some feller came running and hollered that they were making a mistake — I wasn't the guilty party a-tall. As soon as they turned me loose I lit out for home as the crow files, and I hain't done no traveling to speak of since. I always figgered that on the next occasion the feller that knowed it was a mistake might not get there in time to do me any good."
