## OYSTERS.

We have something new in the way of oysters—or rather in the way of handling. We have just received from Baltimore a large box of solid oysters. These are called

**Seal Shipped Oysters.**

The oysters are opened in Baltimore, put in a large box in their own juice, ice is placed in a separate compartment, they are then sealed and come direct to us. They are SOLID OYSTERS—no water or ice has ever touched them since being taken out of their shells in Baltimore. In this way they retain their flavor and are much superior to the ordinary oysters we are accustomed to here.

They cost more but are cheaper in the end as they are SOLID OYSTERS.

## Fur Announcement!

Furs are increasingly and deservedly popular as articles of dress. Some of the best fur-producing countries are unsettled, and the hunters' catch hindered or neglected, causing an advance in the price of raw furs, which we were sure would occur. To secure to our customers the very best of values, and equal or even lower prices than former years, we have secured the agency for this section of **The Celebrated Beaver Brand Furs.**

In the face of a steady advance in the price of furs, we want to show you what a saving you can accomplish by purchasing at **The Gordon Store.**

In the **Beaver Brand** you can rest assured you are getting honest manufactured furs, of good quality, the most careful workmanship and up-to-date models. We guarantee satisfaction in style, price and wear. To insure against ripping, wear and tear, especially in astrachan coats, ladies' coat leaders, we have ours reinforced by a new system of seaming and interlining, which shall be fully explained to every purchaser. If you are not already one of our regular fur customers, we ask the opportunity of making you one, and when you are in need of reliable furbgoods, and at lowest cash prices, be sure first of all to examine the reliable, the Beaver Brand Furs

**GROWING OLD WHILE YET YOUNG**

What a number of women there are who feel that these words exactly suit their case.

There are thousands of females all over our land, broken down in health and dragging out a miserable existence, overburdened with disease peculiar to their sex, apparently growing old while yet young.

Palpitation of the heart, nervous prostration, smothering and sinking spells, weakness, dizziness, sleeplessness and many other troubles follow. What a woman wants is something to build up the system and for this purpose you cannot equal
