DRESS AND FASHION.

FEMININE FRIPPERIES RULE IN THE SUMMER'S MODES.

Old Time Folly, Fluffy Tulle with a Wealth of Dainty Details—Natty Checked Designs—Veiled Popular. The Piquant Hat.

Fickle as fashion may be, it must be admitted that certain fancies hold their attention for a long time. This summer checks are welcomed with quite as great ardor as last year, when it seemed that they became almost too popular. Checked voile it is this season, checked taffeta it was last, but this is but a slight change. The checked voiles are charming, and there, again, one sees the extended popularity of a good material. Novelty it no longer possesses.

CHIC SUMMER SUIT.

resses, but it is so inexpensive, it drapes so well, it is so becoming, it wears almost like a tweed and it is so easy to make up in a variety of styles and with all sorts of trimming.

Cut, however, probably counts for more than material at present, especially in the lighter weight tweeds and cloths that are made up tailor-wise in convenient coats and skirt suits for traveling and general wear. Lines and curves right to a hair's breadth account for the indefinite touch of chic that may accompany the simplest design.

A successful model to be carried out in white, cream, turquoise, heliotrope, any of the pastel shades or in useful dark colors, such as violet, nut brown, olive green or navy, is shown in the first cut.

The broad shouldered girl, with strong arm and athletic stride, is rather out of it this season. Puffings, shirtings, ruchings, tuckings, frills and ribbons galore suit not her strenuous and muscular personality. The innumerable feminine fripperies introduced by the fashion makers have created an atmosphere in which the womanly woman, especially if of the petite style, may revel to her heart's content. The new hats as well as the frocks distinctly require the dainty dresser, the one who is willing and able to devote much time and thought to every detail in the putting on of garments and the dressing of the hair. This last must be perfection, the disheveled and wild-

NEW SMALL HATS.

ly straying locks of but a season ago being now quite beyond the pale of conventionality. The piquant hat and well groomed head effect is indicated in the second cut.

The "tailor made" no longer means the plainest of the plain, and its chief claim to the title appears to be that the body part of a costume takes the shape of a coat or bolero, while the "dress-maker's dress" exploits the belted bodice. The artists in each class employ all the trimmings and accessories of the season in perfecting their confections.

WOMEN WRITERS.

None Among Them Has Ever Attained Real Greatness in Poetry.

Though the quality and range of her genius were deep, generous and wide, Elizabeth Barrett Browning cannot be described, if language is to be used accurately, as occupying a place among the poets justly designated great.

In no tongue hitherto has any female writer attained to that supreme position, and were this the appropriate moment, which it is not, it would perhaps be possible to explain why no woman is likely ever to do so. Not a few female writers are in effect in the front rank of novelists. But prose-romance is one thing and poetry quite another, and there is a chasm between them; nor does the circumstance of novels being in this age more popular than poetry affect in any degree the inherent and immutable difference. Elizabeth Barrett Browning was "Aurora Leigh" notwithstanding, essentially and almost exclusively a lyrical poet. It would be easy to add almost indefinitely to illustrations of her being one of those who "learn in suffering what they teach in song," not one of the greater poets who pass through that experience but end by getting beyond it.—Alfred Austin at Unveiling of a Bust of Mrs. Browning.

\$500 Reward For Women Who Cannot Be Cured.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Profluvium or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I used four bottles of your 'Favorite Prescription' and one of Golden Medical Discovery," writes Mrs. Elmer D. Shearer, of Mount Hope, Lancaster Co., Pa. "and can say that I am cured of that dreaded disease, uterine trouble. Am in better health than ever before. Every one who knows me is surprised to see me look so well. In June I was so poor in health that at times I could not walk. Today I am cured. I tell everybody that Dr. Pierce's medicine cured me."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay customs and mailing only. Send to one-cent stamps for the cloth-bound volume. Address World's Dispensary Medical Association, Proprietors, Buffalo, N. Y.

International Bible Lesson for Tomorrow.

Hezekiah's Prayer—Isa. 38, 1-8.

Golden Text—"God is our refuge and strength, a very present help in trouble."

A fuller account of this incident is found in II Kings, 20, 1-19. Earliest plea, for King Hezekiah was a faithful servant of Jehovah who walked before Him in truth and with a perfect heart.

Lazarus, whom Jesus loved, was sick and died. Tabitha, a most devoted Christian, fell sick and died.

Elisha, when enjoying the fullest communion with God, was taken with sickness, whereof he died.

Epiphroditus was in high unto death, not because of sin, but caused by overwork in our Lord's service. See Phil. 2, 27-30.

These cases confute Christian skepticism, and corrects a modern and religious teaching that sickness is a sign of unjudged sin in a believer's life. Again, Isaiah the prophet and the king are shown to be on most intimate terms of friendship. The king is warned of God through His servant Isaiah of his danger of death—to make his will, two things every faithful pastor would do to-day. Of course, the king had to die sooner or later, but only found in II Kings, 20, 1-19.

Hezekiah prays and weeps; God hears and answers. Isaiah returns quickly to say he shall live yet 15 years. Many of us would live longer and far better lives if we did more praying. "Call upon me in the day of trouble; I will deliver thee, and thou shalt glorify me."—Psalm 50, 15.

There is more divine healing power in answer to prayer than in any other drug. Hezekiah remembered God's sustaining grace, which enabled him to live right and called upon God. "Remember now, O Lord, I beseech Thee, how I have walked before Thee in truth and with a perfect heart." God, ere He answers, requires of all men wholly surrendered hearts, not divided ones.

The remarkable sign—Verse 8—given the King was proclaimed far and wide, and reached the ears of the King of Babylon, who sent ambassadors to congratulate the king on his recovery and to make particular enquiry about this wonder done in the land—II Chron., 2, 31.

We need not wonder, as these Babylonian idolaters did, for our Lord tells us "All things are possible with God."—Matt., 19, 26.

Governor of Alabama Commends Pe-ru-na.
 In a letter dated July 23, 1899, written from Montgomery, Ala., Governor Joseph J. Johnston, says: "I join Congressman Brewer in commending Pe-ru-na."—Joseph J. Johnston.

One of the most wonderful events in the history of medicine is the multitude of endorsements which Pe-ru-na is receiving as a catarrh cure from men of national importance.

The most distinguished men of the United States have no hesitation in lending their influence to assist in letting the public know of the merits of Pe-ru-na.

Nearly one-half the people are in some way affected by catarrh. Therefore it is almost a national curse, and it is of national import that the people should know of Pe-ru-na.

Catarrh is an American disease. Pe-ru-na is an American remedy. Catarrh is a result of changeable climate. Pe-ru-na is a result of long and careful experimentation.

Catarrh enters the system through the nerve centers and affects the mucous membranes. Pe-ru-na enables the nerve centers to repel and expel the catarrh from the system.

Catarrh is a systemic disease and curable only by systemic treatment. The remedy that cures catarrh must aim directly at the depressed nerve centers. This is what Pe-ru-na does.
