

# THE ACADIAN

(Established 1883)

Published at Wolfville, N. S., every Friday by  
**DAVIDSON BROS., Printers and Publishers**  
Members of the Canadian Weekly Newspaper Association.

**Subscription Rates**—In British Empire, in advance, \$2.00 per year. To U. S. A and other countries \$2.50 per year.

**Advertising Rate Cards** and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

**Correspondence**—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

## A GROWING INDUSTRY

Visitors to Wolfville—and there are many at this season of the year—frequently ask information regarding the industries of this section. Those who come from cities often wonder at the signs of prosperity and affluence which abound on every hand in the absence of tall smoke-stacks and manufacturing institutions. In the Annapolis Valley we possess an industry which is a real source of wealth and is growing in magnitude every year. Too little has been written and spoken regarding the apple-growing industry of which Wolfville is a natural centre. This industry involves a great amount of labor for practically all the year and its influence is felt on every hand. Only a few years ago a quarter of a million of barrels was regarded a big yield, but the growth has been so rapid that last year over two millions of barrels were produced. Apple-growing has become a big industry and it has by no means been overdone. The splendid quality of our fruit and our advantageous position regarding world markets gives Nova Scotia an advantage over any other country producing apples for export, and new home markets are being developed and extended year by year. The amount of labor involved in the care of the orchards and the picking, packing and shipping of the fruit has already reached vast proportions and as new orchards come into bearing and present orchards are extended will proportionately increase. No part of Canada has come through the depression following the great war so well as has this section and a bright and prosperous future is assured.

## DEMANDS PUBLIC ACTION

THE ACADIAN some time ago made reference to the unsanitary and disgraceful conditions prevailing at the government wharf, where decayed fish and other refuse matter produces a stench that is most disagreeable. At this season of the year the wharf is a common place of resort by visitors who find it a favorable place to observe the phenomenon of our tides. The "Prince Albert" also carries passengers daily to and from this place and these must form a very unfavorable opinion of the way in which Wolfville handles its public affairs. It is certainly up to the authorities to see that these conditions are bettered, and with the least possible delay. If our people were but alive to their best interests instead of permitting the present very untidy and unsanitary conditions to continue—as they have already done too long—they would insist that this place of public resort should be made a real attraction such as visitors might be referred to with pride. The present neglect is a reflection not only upon our civic respect but also upon our business acumen.

## "SWAT THE FLY"

During recent years the danger of the presence of the housefly has been brought frequently to the attention of the public and the admonition to "swat the fly" has been a common one. The time for the greatest menace from this nuisance—for a nuisance it is to public safety—is near at hand and citizens if they are wise will prepare for it by guarding their households so far as may be possible from its intrusion. There is no more effective method of "swatting" the fly than by removing the conditions that make for its prevalence and perpetuation. At this season great care should be taken in the matter of the removal of all garbage and refuse matter of every description as quickly as is possible. The presence of the fly is a sure indication that conditions are not what they should be and from the standpoint of correct sanitation and for the sake of the public safety the lesson they teach is one that deserves recognition.

## PUTTING CANADA IN THE MOVIES

Mr. Ernest Shipman, a prominent motion picture producer, who is soon to pay a visit to Nova Scotia in the interest of securing a proper and artistic portrayal of this province in the sphere of the movies, passed through Wolfville on Monday afternoon on his way to Newfoundland where he is to discuss with members of the government the possibility of that country in relation to the silver sheet. The editor of THE ACADIAN had the pleasure of meeting Mr. Shipman at the railway station and in the very few minutes made possible for the interview secured considerable interesting information with reference to what is being done to provide pictures that are truly Canadian.

The first Canadian picture was "Back to God's Country", from the story by James Oliver Curwood. This was made by a company formed of business men of Calgary, and it has already made \$80,000 over and above the cost of production and it has still two years to run. Next came the "Sky Pilot", "Cameron of the Royal Mounted", and "The Crucible," the latter from Ralph Connor's "Foreigner". These were made by the Winnipeg Productions Ltd.

The latest picture to be completed is "The Man from Glengarry", made in Ottawa. This picture was made for about \$20,000 under the estimate, and the Company were so well pleased that they immediately started on a new picture "Glengarry's School Days". "The Rapids" is also now being made at Sault Ste. Marie. Other cities which have interested themselves in the idea, and which have invited Mr. Shipman to come and explain things to them are Vancouver, Toronto, Quebec, Kingston, Halifax and St. John's, Nfld.

On his return from Newfoundland Mr. Shipman will stop at Halifax in order to make arrangements for the formation of a company for the production of films of especial interest to the people of Nova Scotia.

Minard's Liniment for sale everywhere.

BOB DIBBLE

Former senior singles champion amateur sculler of Canada who will try to regain from Hilton Belyea at the Canadian Henley this year; the honors which Belyea took from him.

Owing to the failure of the "Prince Albert" to make her trip from Parrsboro on Monday evening it was necessary to send a motor-boat to bring the film for "The Three Musketeers", which was presented at the Opera House on that evening. In consequence of the delay the show did not begin until nearly 9 o'clock. There was a large number present and the picture, which is one of the strongest ever shown here, was greatly enjoyed. The matinee on Tuesday afternoon and the second performance on Tuesday evening were also well attended.

There has been quite a number of American tourists in town this week.

## HOME WEDDING

LIGHTFOOT—LEVY

A quiet but pretty home wedding took place on Wednesday, July 12th, at the home of Mr. and Mrs. Eliphlet Levy, Greenfield, when their youngest daughter, Emily Maria, was united in marriage to Archibald Lightfoot, of Wolfville. The bride, who was given away by her father, looked exceedingly attractive in a sheer white voile dress. She was attended by Miss Hilda Lightfoot as bridesmaid, while little Merle Levy and Grace Jodrey acted as ring-bearer and flower-girl. The ceremony was performed by Rev. Dr. Bennett, pastor of the Gaspereau Baptist Church, in the presence of fifty guests. After a short honeymoon Mr. and Mrs. Lightfoot will reside in Wolfville. THE ACADIAN tenders congratulations.
