Canadian Inshore Fisheries.

Department of Marine and Fisheries,
FISHERIES BRANCH,
OTTAWA, June 6th, 1879.

PUBLIC NOTICE, and particularly the attention of DEEP SEA and INSHORE FISHERMEN, is directed to the following provisions of the Statute 31 *Vic. Cap.* 60, known as the FISHERIES ACT, passed on the 22nd May, 1868:

1. *Section* 14: Prohibits the throwing overboard or leaving of dead or decaying fish, or remains of offals of fish, or other marine animals, within any water where fishing is carried on, or upon any fishing bank; also forbids leaving the same in any net or other fishing apparatus.

2. *Section* 14, *Sub-section* 2: Provides that dead or decaying fish, or any other deleterious substance, shall not be drawn into, or allowed to pass into, or be left, or remain in any water frequented by any kinds of fish mentioned in the fishery laws.

3. *Section* 13, *Sub-section* 7: Bag-nets and trap-nets and fish-pounds are prohibited, excepting under special licenses.

Besides the fines imposed by said Statute, any offender against the Fishery Laws is liable to the forfeiture of the nets, materials, implements or appliances used in connection with the offence.

Fishery Officers may seize upon their own view, or on complaint, any fishing gear subject to confiscation, and fine offenders forthwith.

British and foreign fishermen alike are required to conform to to the Canadian fishery laws.

It having been established in evidence that certain kinds of nets used for mackerel and other fish, are fished in contravention of the fishery laws, by destroying quantities of small fish, besides mature fishes which are thrown away dead or dying, or are left to decay on the fishing grounds, or within the inshore waters; the fishery officers are instructed to strictly enforce the fishery laws passed to prevent such illegal and injurious practices.

They are also instructed that British subjects, when fishing in British waters, are bound to conform in every respect to the Canadian fishery laws, and that foreigners fishing within three miles of the coasts of Canada, under treaties, in common with British subjects, are required to do so in conformity with the fishery laws which govern the operations of British fishermen.

By Order,

W. F. WHITCHER,
Commissioner of Fisheries.

Notice to Contractors.

SEALED TENDERS addressed to the Secretary of Public Works, and endorsed "Tender for Canal and Lock at St. Anne," will be received at this office until the arrival of the Eastern and Western mails on **Friday, the 10th day of October next,** for the construction of a Lock and the formation of approaches to it on the landward side of the present lock at St. Anne.

A map of the locality, together with plans and specification of the works to be done, can be seen at this office and at the Resident Engineer's office, at St. Anne, on and after Saturday, the 27th day of September next, at either of which places printed forms of Tender can be obtained.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance to the printed forms, and—in case of firms, except there are attached the actual signatures, the nature of the occupation and residence of each member of the same; and further, an accepted Bank cheque for the sum of $2,000 must accompany the Tender, which sum shall be forfeited if the party tendering declines entering into contract for the works, at the rates and on the terms stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

For the due fulfillment of the contract, satisfactory security will be required by the deposit of money to the amount of *five per cent.* on the bulk sum of the contract; of which the sum sent in with the Tender will be considered a part.

Ninety per cent. only of the progress estimates will be paid until the completion of the work.

To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the Contract.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

F. BRAUN,
Secretary.

Agricultural Statistics.

(Regular Correspondence.)

LONDON, Aug. 22nd, 1879.

In an official report to Sir E. Thornton, Mr. Victor Drummond stated that during the year ending June 30th, 1878, the value of cotton and breadstuffs exported to the United Kingdom exceeded the value of the total imports of merchandize from the United Kingdom into the United States. In a later report, dated Washington, April 8th, 1879, just published by the Foreign Office, Mr. Drummond says this short paragraph sums up the present commercial relations of the two countries. As some slight consolation to the English land-owners and farmers who are suffering from this competition, he remarks that American land-owners and farmers in the Eastern and North-Eastern States also complain of the competition of the Western and North-Western States in farming produce:—

"This condition of things arises from the low rates, both by rail and water, from the Western and North-Western States to the Atlantic ports, and from the development of the agricultural interests in those States, due to their practically illimitable capacity for agricultural production, to the fact that the cost of production is much less than in the more easterly States, and to the fact that the railroad system of the country has been widely extended throughout these States, thereby securing cheap, rapid, and regular transportation. During the year 1866 the average weight for the carriage of wheat from Chicago to New York by Lake and Erie Canal was a little over 27 cents per bushel, but during the year 1878, by the same route, the average rate was 7½ cents, and by rail 12 cents. During the present year the average cost of transporting wheat from the region of the Red River of the North, in the northern part of the State of Minnesota to the city of New York, has been only 26 cents per bushel. This is a marvel of cheap freight.

During the last 21 years the exports of breadstuffs from the United States have increased enormously. In 1860 they were valued at $24,420,000; in 1878 the bread and breadstuffs exported were valued at $181,777,000. In 1877 the total production of wheat was 364,194,000 bushels, produced on an area of 26,277,000 acres, an average yield per acre of 13.9 bushels. This was the highest average yield during ten years, the annual average yield of the years 1868 77 being 12.12 bushels per acre. The average value per bushel in 1877 was 108.2 cents. In 1868 the average per bushel was 142.4 cents, but this seems to have been an exceptional year. The diminished value per bushel of the other cereals in the United States is shown still more forcibly than in the wheat crops. Corn, for instance—the total production of which in 1877 amounted to the prodigious quantity of 1,342,558,000 bushels, grown on an area of 50,369,113 acres—fell in average value per bushel from 62.8 cents in 1868 to 35.8 cents in 1877; the annual average being 49.1 cents. Rye in like manner fell in value from 127.4 cents per bushel in 1868 to 59.2 cents in 1877, the annual average in the decennial period being 83.7 cents. Oats, which were valued at 55.9 cents per bushel in 1868, fell to 29.2 cents in 1877, with an annual average in the 10 years of 40.1 cents. Barley was valued at 130.2 cents per bushel in 1868, and only 63.9 in 1877, with an annual average in the like period of 89.9 cents.

From statistics it appears that the exports of bacon and hams were fifteen times as great in 1878 as in 1870; beef three times and a half as great; cheese twice as great; lard nearly ten times as great; and preserved meats more than sixteen times as great. The average export price of bacon and hams in the United States fell from 15.7 cents in 1870 to 8.7 cents in 1878; of lard from 16.16 cents in 1870 to 8.8 cents in 1878; and of pork from 13.2 cents in 1870 to 6.8 cents in 1878; while, on the other hand, the price of salted beef increased from 7.3 cents per pound; in 1870 to 7.6 cents per pound in 1878. The rapid extension of corn culture has increased the pork supply very much beyond the requirements for home consumption, thus leaving a yearly increased surplus for exportation to foreign countries. The falling price of corn seems to have corresponded nearly with that of pork and pork products, the export price of the former having fallen from 93 cents per bushel in 1870 to 56.2 cents in 1878. It is estimated that the total product of butter in the United States during the year 1877 amounted to 950,000,000 lb. It would appear, therefore, that the exports of butter during the year 1878 amounting to 21,837,117 lb., constituted about 2.3 per cent. of the total production in the country. The total production of cheese in the United States during 1877 is estimated at 310,000,000 lb., of which 123,783,736 lb., constituting about 40 per cent. of the entire product, was exported."

The value of exports of live animals from the United States during the last fiscal year was eight times the value of such exports during the year ended the 30th June, 1868. About 55 per cent. of the entire exports of live animals was to Great Britain and Ireland, about 15 per cent. to Cuba, and about 12 per cent. to British Possessions in North America.

AN old Irish soldier, who prided himself on his bravery, said he had fought in the battle of Bull Run. When asked if he skeddadled as others did on that occasion, he replied: "Be jabbers, those that didn't run are there yit!"

Dr. Slade, the Famous Medium, is Discovered to be a Woman.

The Pittsburgh *Telegraph* informs us that Dr. Slade, the noted medium, is a woman, and, after giving a history of the person, gives this as a proof of its assertion; "Slade recently came from Australia to San Francisco. While in the steamer he was stricken with paralysis. His room-mate—who told the story—came in, and finding Slade ill and probably unconscious, he began to remove Slade's clothing and his (her) sides and chest to bring back the circulation of the blood. It was then that the discovery of Slade's sex was made. When Slade recovered sufficiently to talk she begged that the gentleman would not expose her. He said that he would not do so publicly if she would acknowledge the truth to the physician of the steamer. Slade at last consented, and told the doctor all about it. He made an examination, which proved beyond doubt that she was a perfectly developed woman. One of the queerest parts of the story is that Slade wears a heavy mustache. She said that she had always wanted to be taken for a man, and had shaved her face daily when very young, and had kept the practice up until she had a long, heavy mustache, of which she was very proud, and which she took great care of, and could have had a beard and whiskers if she dressed them. The physician is a man who is well known in San Francisco, and stands well among his professional brethren." As corroborative of the above, the *Telegraph* tells us of a young Pittsburgher who went to New York for the purpose of seeing Slade and having a talk. This was just before Slade started for England. What took place in the interview was never fully known, but enough was said by the young gentleman to show that Slade had said or done something which was not to her credit, and which partly exposed her sex. The young man returned to Pittsburgh thoroughly cured of his attack of Spiritualism. We should now like to hear the other side.

The Most Valuable Gift—Restoration of the Health.

During the past ten years the Great Shoshonees Remedy has faithfully redeemed every promise and guarantee made to the public. Alarming and apparently hop less cases of Lung Diseases, Dyspepsia, Liver Complaints, Afflictions of the Kidney and Chronic Complaints of every description, including Scrofula and Skin Diseases of life-long duration, have been permanently removed and eradicated. Those who volunteered their testimony to the efficacy of the Remedy are not bogus people in unheard-of localities of foreign states, but respectable citizens of this Dominion, easy of access and open to question, upon whose verbal recommendations we are willing to rest the reputation of the Great Shoshonees Remedy. If you are afflicted do not delay until medicine may be powerless to aid you. No injurious effects can possibly follow the use of these Indian Remedies, as they contain no minerals, by which the fate of the invalid is so often sealed under the form of some temporary sedative or stimulant. These Indian Remedies are widely known and still possess the public confidence after the lapse of sufficient time to test their efficacy.

The Shoshonees Vegetable Sugar Coated Pills have won for themselves the most favorable reputation of any pill before the public. Their efficacy has been fully proved as a remedy for Biliousness, Sick Headache, and inactivities of the stomach. Price of the Remedy in pint bottles $1; Pills 25 cts. a box.

An Undeniable Truth.

You deserve to suffer, and if you lead a miserable, unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you,—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning will soon show you that "Green's August Flower" will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual costiveness, dizziness of the head, nervous prostration, low spirits, &c. Its sales now reach every town on the Western Continent and not a Druggist but will tell you of its wonderful cures. You can buy a Sample Bottle for 10 cents. Three doses will relieve you. For sale by Amasa Dixon.

Cure Your Horses.

It is the interest of all who own horses to keep them in a healthy and sound condition; experience has proved that "Darley's Condition Powders and Arabian Heave Remedy" is the most efficacious, and has been used by thousands who will cheerfully confirm this statement. For Heaves, Coughs, Colds, and all diseases which affect the wind of horses it has no equal, nor is it equalled as a condition medicine; it purifies the blood, corrects and improves the appetite, and softens the skin; in fact, so great is the improvement in the condition and appearance of the animal as to have led many to doubt if it could be the same horse. Remember the name and see that the signature of Hurd & Co., is on each package. Northop & Lyman, Toronto, Ont., is on each package. Sold by all medicine dealers.

In this Present Age, when the life-battle is so fiercely fought, and when even upon the strongest the tug and stress of it tell so heavily, how necessary it becomes for us to provide for the keeping up of our reserve stock of *mental and physical stamina* by the use of such a *nerve-tonic and vitalizing agent* as ROBINSON'S PHOSPHORIZED EMULSION OF COD LIVER OIL WITH LACTO-PHOSPATE OF LIME! Its gently stimulating and nutritive-tonic properties supply the materials, and assist Nature in her efforts to keep up with the exhaustive demands upon her reserves. Prepared solely by J. H. Robinson, Pharmaceutical Chemist, St. John, N. B., and for sale by Druggists and General Dealers. Price $1.00 per bottle; six bottles for $5.00.

50 cents and $1 a bottle. Sold by dealers generally.

HEALTH IS STRENGTH.—To prevent or conquer disease is one of the grandest attainments ever aimed at by man; and Bryan's Pulmonic Wafers will as sure cure coughs, colds, tickling in the throat and pulmonary complaints, as war and pestilence will destroy. Severe colds if not attended to sooner or later lead to incurable consumption, and the strength of the strongest soon fails if neglected. The readiest and best means known for the cure of these complaints is "Bryan's Pulmonic Wafers," which have been thoroughly tried for the last twenty years, and have never been known to fail. Singers and public speakers will also derive great benefit from the use of them Sold by all medicine dealers at 25cts. per box.

Ayer's Cherry Pectoral

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

The reputation it has attained, in consequence of the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it, acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as the more formidable diseases of the lungs.

As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health.

This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will.

Eminent Physicians throughout the country prescribe it, and Clergymen often recommend it from their knowledge of its effects.

"THE GREAT CAUSE OF HUMAN MISERY."

We have recently published a New Edition of Dr. Culverwell's Celebrated Essay on the *radical and permanent cure* (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and *radually*.

This Lecture should be in the hands of every youth and every man in the land. Address
