Hartland to Moncton it would strike the Nashwaak above McBean's brook and follow it to Cross Creek, then it would take the Northern and Western Railway to Penniac and then strike east for the head of Grand Lake. Thus it is not improbable that while the people of Stanley have lost the main line of the Northern and Western they may have Short Line passing their doors. If this he had gone to St. John yesterday, and en-Hartland route should be chosen, the part which the Northern and Western would play

## Would be very Important.

From Cross Creek to Chatham is eighty-five niles, or over two hundred m less than it is to Halifax, so that if Ouches and Halifax can have what they seem to think now is what they want, Chatham can, for a part of the year at least, make a strong bid for ugh freight over the Short Line by offering two hundred miles less railway carriage. course this is all speculation merely, it is one of the things which may come about. and it will do no harm make the facts pub-lic, especially as the way e Short Line business is yet an open question, and is to rem an open one until Parliament meets.

# THE MARYSVILLE COTTON MILL. What is Being Done at this Establish-ment Just N v, and What the Pros-pects are fo ting to Work. Every day ags things into a more fin-ished state at the Marysville cotton mill. The heaviest portions of the engine are in their places, and the superintendent of this work says he hopes to be able to have the engine

ready to start in four weeks time. He cculd be ready sooner, but there will be some delay necessary to procure the con pipes after the engine is in place. The put ng up of this engine has been a heavy piec of work. In all there are about 135 tons of iron in it. The great driving wheel is 25 feet in diameter and has a face 10 feet wide. This

ittings weighs over 22 tons. The wheel is place, and so are both cylinders and girders. The men in charge of the different departments all make about the same report and they think that the mill will be.

#### Ready to Begin Operations

about the first of the new year. All the orkmen express their high opinion of the maracter of the work done, and indeed all experienced men, who have examined the workmanship either in the building or machinery, pronounce it of the first class. About one quarter of the machinery, which there is for is now in the mill and will be ready to begin work with. This will require the es of between 250 and 300 people, inclading the manager and the foremen of the different departments. The arrangements for fire protection are very good, not only being provided by a full system of automatic sprinklers through the building, but by a system of hydrants all aroun the mill' connected with a force pump to be there by the great engine

He is said to belong to Maine. satisfactory accounted for; and the existence of traditional records of an annihilating catastrophe. It has already been shown Murray was about 25 years of age and un married and belonged to this city. He ha that the latter exists, and it is urged that been away from here about 5 years and lived what the geologists call "drift," that is, the in Allston and during that time was in th clays and loose stones covering portions of the surface of the earth supply the former. We employ of Mr. Hicks. His brother Harry who worked in South Boston at carriage have not space to give the ingenious argu-ment made in support of this theory; but we may add that it is as well supported as any painting brought the remains on which arriv ed on Thursday. A bruise on the left side

of the face is the only mark visible other upon this much vexed subject. One Deceased in conversation with his brother a short time ago stated that if he was ever thing every reader of sacred or profame history will admit, and that is that long struck by a railroad train he wanted to b ago at least one event occurred so utinstantly killed. The poor fellow's wish terly stupendous, so far beyond anything was realized.

fects, and incomprehensible in its origin, that it has been the foundation of every system of The friends of Hon, Isaac Burpee will very much pleased to learn that his health is considerably improved. It is understood that Rev. A. J. Mowatt this city, is to preach in the Erskin Church, Montreal, at an early date.

Mr. Jas. S. Neill has removed to his new nd spacious residence on Charlotte street. Curling.

#### At a meeting of the Fredericton Curling Club held on Tuesday night a committee was appointed to make arrangemenis for a

our advertisment. But what do you want grand bonspeil. The committee is to report on Wednesday evening next. Thirty-fourth Anniversary.

> Tuesday last was the thirty-fourth annirsary of the big fire here, when half the city was laid in ruins.

### Holiness

The Holiness Band propose visiting Fred-ericton after the close of their session in St. John.

on a firm basis the Halifax Steam Navi-gation Company, which has been inactive for some time. The new provisional directors are John F. Stairs, M. P., Mayor Mackintosh, William Roche, E. P. Archbold, Wm. Gossip, John White and Joseph Wood. The original enterprise had to be given up because the company found it would not pay without calling at Boston and the Douminon Government Boston, and the Dominion Government notified them of the withdrawal of its \$1,500 per voyage subsidy as being voted for traffic confined to Canadian ports. arrived from St. John, with a very large freight. The "Fawn" arrived at six o'clock The Furness line offered to accept a sub-sidy involving calling at St. John, besides Halifax, and the Halifax company with-drew. Since then the company has got heavily laden, both encountered no ice on the way up until the Short Ferry was reached when they had to steam through two miles drew. Since then the company has got an act of Dominion incorporation, and a promise from the Government of a sub-sidy of \$50,000 per annum, equal to \$2,-000 per voyage for a line to Havre, to be run fortnightly in summer from the St. Lawrence and Halifax alternately, and from Halifax in the winter, with liberty of calling at the United States port, the subsidy being guaranteed for five veges of it. The "Weston" after discharg-ing her cargo, left for St. John at midnight, the "Fawn" yesterday at 8 o'clock. The "Star" arrived last night at 9 o'clock with a large cargo, and left again about midnight. The ladies of the Roman Catholic Churc subsidy being guaranteed for five years from the 1st of April, 1885. The con-ditions require at least two steamers of publish an advertisement elsewhere, of a Bazaar for such a laudable object that it should receive encouragement from the citi-

fering from the commercial trouble the Island of Java. Cotton on Fire. [Special to Glea NEW ORLEANS; Nov. 13 .- Fire was

covered last night in cotton stored amid ship on the British steamship "Rhodora" loading for Havre. About 1500 bales vere aboard and much of it was badly

damaged. The vessel was from Penarth, Wales. The extent of damage to the vessel and cargo will be known to-day.

cordance with the resolution of the Council, the committee have sought legal advice, as to the method of precedure in the case. As soon as this is obtained, a special meeting of the Council will be called to deal with Arthur D Mahee, a fireman on board the steamer Novelty, was tried before Geo Barnes J P, for using a pistol too freely, and was fined \$20 and cost. It appears that Mabee and a few of his comrades were passing from Hampton Station to Hampton Villiage. One of his comrades, named Thomas Todd, had donned an old beaver hat and was cutting shines, when Mabee said, "I will show you some fun," and shoving his revolver close to the hat above the head, discharge

ed it, the ball passing through the hat. Todd, who is a soft young fellow, took no further notice of it till his father heard of it and compelled him to enter complaint, with the above result, the magistrate also taking the pistol

WASHINGTON, NOV. 18.—Fair weather, in the Southern portion partly cloudy weatwer and local showers, in northern portion slight rise in temperature, north-west to south-west winds. **POLITICAL PASSION. To What it is Sure to Lead.** Grom an American Politician.) " Liberty in some countries is a kind of charade word, an anagram, a symbol re-presenting an imaginary quantity. a puss-word invented by unhappy men to ex-press all that they do not posses, a term meaning in 'the minds of slaves a com glomerate of conditions so absurd, of as pirations so futile, of imaginary delight is is clease with laughter at the folly of the delude fellows. In most countries where liberty is talked of it is but a dream and such a dream as could only occur to bondsmen. But it means something else. fatted oxen before Christmas of what likely to befall them.—London Truth.

where liberty is talked of it is but a dream and such a dream as could only occur to the sickened fancy of a generation of bondsmen. But it means something else with us. It is here, in this country, in this capital, in this hall, it is in the air we breathe, in the light we see, in the strong, force pulses of our blood; it is the heritage of men whose sires died for it whose fathers laid down all they had for t, of men whose own veins have bled for t—and not in vain. In these United States liberty is a fact. "We must decide quickly, then, be-tween the condition of our liberty and The crown of England is believed to be the finest piece of regalia in the world. The lower part of the band is a row of 29 pearls, the upper part of 112; between them, in front, is a large sapphire; behind is a smaller sapphire, with six others and eight emeralds. Between the two great sapphires are ornaments containing diamonds. Above the band are ei "We must decide quickly, then, be-tween the condition of our liberty and the requirements of frantic political pas-sion. We must decide between peace and war, for that is where the issue will come in the end. Between freedom, prosperity and peace on the one side, and civil war on the other; an alternative so horrible and inhuman and hideous sapphires, surmounted by eight and eight festoons, containing monds. In the front of the cro monds. In the front of the crown is the ruby given to the Black Prince by Pedro, King of Castile. This is set in a Maltese cross and forming the cross are seventy-five large diamonds. Three other crosses are around the upper part of the crown, containing altogether 386 diamonds Between the four crosses are four orma-ments with four rubies in their centres

that the very mention of it makes brave men shiver in disgust at the memories the word recalls. Do you think we are much farther from it now than we were in 1860? Do you think we were far from it in 1876? It is a short step from the threat to the deed, when political passion
