

Mexican Revolters Secure Juarez Without a Fight and Plan Advance to Chihuahua

The Revolutionists Have Obtained Possession of Many of the Customs Houses Along the U. S. Border and are Collecting the Revenues—Many Desertions.

(Associated Press by Leased Wire.) Juarez, Mex., May 4.—Through the bloodless revolt of Juarez and capitulation of General Francisco Urbalejo and his Yaqui Indians at Casas Grandes, the Sonora revolutionists today claimed control of the state of Chihuahua and that the way was paved for an unobstructed advance against Torreón, from where a campaign is to be launched against Mexico City.

General Urbalejo, commanding the last large body of Carranza troops in the state, joined the revolt and plans were made for an immediate advance through Chihuahua upon the interior strongholds of the Carranza government still holds.

With the capitulation of Juarez, the revolutionists obtained control of the majority of customs houses through which hundreds of thousands of dollars in revenue has been developed for the Mexican government.

Comparatively small bodies of troops remained loyal to Carranza at other border towns east of here. The Ojinaga garrison, opposite Presidio, Texas, was expected by Mexican officials here to join the revolutionists.

Protection Assured Foreigners. At Chihuahua City, state capital, order is being preserved, political prisoners have been freed and protection has been assured Americans and other foreigners.

Despatches last night said they were continuing at work as usual. Similar guarantees were made by authorities in a formal statement to American representatives.

Tentative plans of the revolutionists, according to Arturo M. Elias, brother of General P. Elias, call for the entrance into Chihuahua, via Pulpito Pass, with six thousand Sonora troops, who will try to proceed to Torreón and then to Mexico City, where they would cooperate with forces sent through Simlaola.

Washington Authorities Relieved. Mexican agents here reported in their assertions that further cases of government troops declining battle will hasten the end of their struggle.

DISPOSAL OF THE NAVAL TRAWLERS

Syndicate Formed for Purpose of Purchasing Entire Fleet of Canadian Vessels

(By Canadian Associated Press.) Halifax, N. S., May 4.—Negotiations involving a big money turnover, and which may result in the disposal of the entire fleet of Canadian Naval trawlers, are now in progress with a British syndicate. The syndicate has been formed, it is understood, for the purpose of purchasing the fleet of trawlers in the North Sea. This information was given out by L. W. Parsons, representative of the Anderson Company of Montreal, now in the city in connection with the sale of a number of boats to other interests. The number named in the negotiations with the British syndicate is forty, and these in addition to the number which have already been sold, will practically clean up the fleet of ships of this type, which have been quartered in this harbor since the close of the war, and which rendered efficient coast service in its closing years.

PLEA OF CRUELTY TO GRASSHOPPERS

The Winnipeg Humane Society Objects to Use of Gas for Their Destruction

(Associated Press by Leased Wire.) Winnipeg, May 4.—Grasshoppers are not animals, they are vermin, said C. D. Burnham, a prominent member of the Winnipeg Humane Society, when shown a copy of a despatch from Montreal, quoting the Secretary of the Montreal Society for the Prevention of Cruelty to Animals, that they should not be destroyed by gas because it might result in suffering to the dumb creatures, as gas is not always fatal in its results. "It is nonsense to become sentimental about grasshoppers," he said. "We do not overtake them, they are sensitive feelings, and, anyway, I think the poison gas method of killing them would be too costly for the majority of the farmers."
