Do you have pains about the chest and sides, and sometimes in the back? Do you feel dull and sleepy? Do your mouth have a bad taste, especially in the morning? Is your appetite poor? Is there a feeling like a heavy lead upon the stomach? Is there a feeling of fullness, which food does not satisfy? Are your eyes misty? Do your hands and feet become cold and clammy? Is there a giddiness, a sort of whirling sensation in the head when rising up suddenly? Are the whites of your eyes tinged with yellow? Is your urine scanty and high colored?
