The Voice

ous, and should be strictly avoided until every symptom is removed. To effect a speedy cure no other medicine is equal to

Ayer's Cherry Pectoral

The best of anodynes, this preparation rapidly soothes irritation, strengthens the delicate organs of speech, and restores the voice to its tone and power. No singer or public speaker should be without it. Lydia Thompson, the famous actress, certifies: "Ayer's Cherry Pectoral has been of very great service to me. It improves and strengthens the voice, and is always effective for the cure of colds and coughs."

"Upon several occasions I have suffered from colds, causing hoarseness and entire loss of voice. In my profession of an austioneer any affection of the voice or throat is a serious matter, but at each attack, I is a serious matter, but at each attack, I have been relieved by a few doses of Ayer's Cherry Pectoral. This remedy, with ordinary care, has worked such a

Magical Effect

that I have suffered very little inconven-ience. I have also used it in my family, with excellent results, in coughs, colds, &c."— Wm. H. Quartly, Minlaton, Australia.
"In the spring of 1853, at Portsmouth, Va., I was prostrated by a severe attack of ty-phoid pneumonia. My physicians exhausted their remedies, and for one year I was not able to even articulate a word. By the ad-vice of Dr. Shaw I tried Ayer's Cherry Pec-toral and to my surprise and great joy. In toral, and to my surprise and great joy, in less than one month I could converse easily, in a natural tone of voice. I continued to improve and have become since a well man. I have often recommended the Pectoral, and have never known it to fail."—George R.

WALKING GAIT OF DRAUGHT. HORSES.

city. At 11 o'clock on Friday might the authorities abserved that an inundation opinion of M. Minot, the French was taking place; it being supposed that the dyke had given away, the police immediately began firing their rifles to walk is the most important gait of of the approaching danger. People at needs a limited observation to notice first thought a revolution had broken that before city lorries and in their out, but soon the waters began to spread proper spheres heavy draught horses Castoria is recommended by physicians for children teething. It is a pure ly vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhea and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

And rise, and what made matters worse are rarely, if ever,, urged faster than a walk, such being their common gait. Spooner, an authority, was so impressed with the desirability of cultivating this gait that in an essay published in the R. A. S. report for 1846, he wrote, that of all the sins of the cart-horse slow walking was sarely the greatest, and he went so far as to recommend the council of the Royal Agricultural Society to measure off a distance and test the and rise, and what made matters worse are rarely, if ever,, urged faster than walking pace of the cart-stallions. His reason in his own words was: BEARSE SUPPLIED " I hold it as a point of the utmost Let Canadians keep their eyes open to this fact and vote for their choice of importance that a prize should never when required be awarded to a bad or slow walker however great his strength or per fect his symmetry may otherwise be." While this is a strong statement yet there is wisdom in it. The draught horse that in approaching you carries his head well and places each of his feet deliberately, and takes a measured, even stride, is perfect from the front point of view. From the side it may be noted if he lifts his feet well off the ground, and if both fore and hird feet work in unison. Viewed from behind, the action should be straight, and there should be freeness and elasticity in movements. A horse with such a walk, that may be regulated in speed by the driver's word, possesses the best gait that a draught horse could have. Can Live Stock Journal.
