

## HIS WIFE'S LUNGS BOTH AFFECTED

But the Great Consumptive Preventative brought Health and Happiness to his Home

"Our doctor said there was no cure for my wife as both her lungs were affected," says Mr. L. H. Walter, of Pearl Street, Brockville, Ont. "It was a sad disappointment to us both, just starting out in life, only married a short time. But before she had finished the first bottle of Psychine the pain in her lungs quickly went away, and after taking six bottles Mrs. Walter was a new creature and perfectly well again."

That is just one of the many families into which Psychine has brought hope, health and happiness. It is a living proof that Psychine cures Consumption. But don't wait for Consumption. Cure your LaGrippe, your Cough, your Bronchitis, your Catarrh, or your Pneumonia with the remedy that never fails—

## GLOUCESTER COUNTY

An Interesting History of Methodism.

## THE EARLY SETTLERS.

## A Bird's Eye View of the County—Interesting Facts.

By Rev Dr. Wilson in St John Sun.

Gloucester is one of the northern counties of New Brunswick, has an area of 1,950,000 acres, of which 706,337 acres are still owned by the government. It has a coast line of 150 miles on the Bay Chaleur and Gulf of St. Lawrence, has immense water power, has numerous rivers, and it is traversed by the Intercolonial railway from north to south, while the Carleton and Gulf Shore lines give ready access to particularly attractive sporting grounds, and to a number of delightful summer resorts. The woods are full of deer, moose, and feathered game the rivers and streams teem with the finest varieties of the finny tribe, while the coast is alive with geese, brant, duck and other aquatic fowl. It has large resources in lumber, various minerals have been found in considerable quantities, a large business is done in fish, and wheat and other agricultural products are successfully cultivated. The population of the county according to the last census, was 27,935, of whom 21,599 were French Acadians, 1,335 English, 2,775 Irish, 1,071 Scotch and the balance of various nationalities. Their church relationships are as follows: Roman Catholics, 25,301; Presbyterians, 1,093; Anglicans, 886; Methodists, 274; Baptists, 33; Protestants, 28; the Lutheran, Congregational Brethren, Adventist and Jewish faiths having one or more representatives, with three persons who were reported as "non-specified." Among the institutions of the county is the lazaretto at Tracadie, in which a number of persons afflicted with leprosy are cared for by the dominion government.

## THE PHANTOM SHIPS OF THE BAY CHALEUR

Have been heard of by all. The story is not an apocryphal one as its correctness is vouched for by thousands, therefore, whatever may be the explanation, the apparition is no mere fancy. During heavy eastern gales, shortly after dark, what looks like two small square-rigged vessels of old fashioned design are seen locked together, both on fire, and being driven before the gale. Figures of men are seen struggling in the rigging and the sea around is lit up by the fire, then when the excitement of the beholder is wrought up to fever heat, the whole thing suddenly disappears. The Acadians say that a French merchantman, laden with provisions and ammunition for the St. Lawrence, was chased by pirates, and during the chase an eastern storm arose. The Frenchman ran into Chaleur Bay and crippled by a shot from the pirate and unable to escape, he set fire to his ship before the pirates boarded her, and succeeded in holding

## A TRULY IDEAL WIFE

HER HUSBAND'S BEST HELPER  
Vigorous Health is the Great Source of Power to Inspire and Encourage  
—All Women Should Seek It.

One of the most noted, successful and richest men of this century, in a recent article, has said, "Whatever I am and whatever success I have attained is due to the fact that I owe all to my wife. From the day I first knew her she has been an inspiration, and the greatest helpmate of my life."

Mrs. Bessie Ansley

To be such a successful wife, to retain the love and admiration of her husband, to inspire him to make the most of himself, should be a woman's constant study. A woman finds that her energies are flagging, that she gets easily tired, that shadows appear under her eyes, she has backache, headaches, bearing-down pains, nervousness, irregularities or the blues, she should start at once to build up her system by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound. Following we publish by request a letter from a young wife:

Dear Mrs. Pinkham: "Ever since my child was born I have suffered, as I hope few women ever have, with indigestion, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so I could not enjoy my meals, and half my time was spent in bed."

"Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality."—Mrs. Bessie Ansley, 611 South 10th Street, Tacoma, Wash.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ansley it will do for every sick and ailing woman.

If you have symptoms you don't understand write to Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, at Lynn, Mass. Her advice is free and always helpful.

them at bay until the fire reached the powder room when both ships were blown up. Such is the explanation, whether or not satisfactory, the reader may decide for himself.

## CAME FROM IRELAND.

Methodism was brought to the county of Gloucester by a little band of Irish immigrants about the year 1820. With them religion was more than a mere belief, it was an experience, they "knew whereof they did affirm," and made use of the means within their reach to keep the holy fire burning. They had no minister, could get none, but they held meetings, had sermons read by some of their number on the Lord's Day, and established a Sabbath School. This was kept up for some nine years, and while "hope deferred had often made their hearts sad, yet as 'all things come to those who wait,' what they had so long and patiently waited for came at last. The first Methodist preacher to visit Bathurst was Michael Pickles and the time the month of August, 1830. The population of the place numbered about 150 persons, nearly all of whom were Presbyterians. Although it was after nine o'clock of a Saturday night when the preacher arrived in the village, so anxious were the people to hear the word of life, he preached again the following morning, after which he was driven to New Bandon by one Richard Dawson. The Dawson had come with the original immigrants from the town of Bandon, and had given the name with the prefix New to their home on this side the ocean. The preacher received a right royal reception, and the delight of the people at hearing one of their own ministers manifest itself in ways out of the ordinary although quite in accord with the letter of Scripture and the manner of the early Christians. One good sister was so overjoyed that she threw her arms around the neck of the young and beautiful preacher and kissed him again and again.

This visit was followed by others by Enoch Wood and Arthur McNutt during the next two years, and in 1832 Joseph F. Bent was sent to care for these interesting people. Under his earnest and devoted efforts the good work was greatly promoted and the need of suitable places in which to hold the services became pressing. A church was begun to be erected in 1834, of the dedication of which no record is available, but on March 24, 1834, there was a sale of the pews, at which the highest price, the pews brought the purchasers being Benjamin Dawson, £10; and William Stevens, £9. Dawson subsequently sold his pew to the Hon. Joseph Campbell.

That church was replaced by a more modern and commodious one which was dedicated about the year 1878. A Church was dedicated by William Allen on New Years Day, 1841, a preliminary service being held the previous night in watching the old year out and the new one in.

Other houses for the worship of God have been erected in other parts of the district during the passing years and to-day there is a large and up-to-date church at New Bandon, in place of the old one; and one at Salmon Beach in course of erection, which promises to be a fine structure. In the matter of church accommodation, the circuit is well provided for, the minister receives a salary of over \$800, the congregational funds are cared for to the amount of \$2,400, and for circuit purposes the figures are \$495. Bathurst has also ranked among our best county circuits, and under its present pastor, Richard Opie, continues to sustain its well earned reputation in loyally supporting the various institutions of the church. Among the most prominent men of the earlier days were Richard and Benjamin Dawson, William Stevens and William Duncan, and in more recent times and at the present the names of Windsor, Buttner, Branch, Kent, Johnson, Gammon, Branch, Kent, Rennie, Sutherland, Smith, Vance, Stephen, Jennings, Dempsey and others, whose contributions run from \$10 to over \$50. This generous spirit is not confined to Bathurst, but manifests itself at New Bandon, Tetagouche, Salmon Beach, Miscou and Canobie. During the twenty-four years that have elapsed away since the work was entered upon there have been appointed thereto

- Of the above thirteen died in harness three are superannuated, three were transferred to other conferences, two re-entered secular life, three left the

rank under unhappy circumstances, and the remaining ones are still with us bearing the burdens and seeking to make "full proof of their ministry."

The work on this circuit has had a very variable history, if the conference records are to be regarded as reliable. Between the years 1832 and 1855 it had the usual ups and downs, times of religious depression followed by seasons of growth and expansion. One of the latter kind took place during the pastorate of William Allen, who in the days of his physical vigor and strength was a very popular preacher, and successful revivalist. In the British North American Wesleyan Magazine for 1840 we read of a very powerful revival at the Cape, and which began at the first meeting held in the new chapel. The altar, the space around the altar, and the aisles were crowded with weeping penitents, and at one of the meetings the entire audience, with a single exception, knelt while prayer was being offered on behalf of the weeping ones. Account for it as we may there was a power, an unction, a sense of the sinfulness of sin and a consciousness of the Divine Presence in these old time revival meetings, of which there is now but little known since 1855. There are no records of anything special in the revival lines, and the only sources of information available are the minutes of the conference. From these we learn that the lowest number reported as members during the last half century was in 1866, when the figures given are 38—a drop of 39 out of 77. This was probably due to some circumstances of which it is not necessary now to speak, or possibly there was an error in the returns. In 1863, during the pastorate of William W. Perkins, the numbers rose to 143; for several years the figures ranged from 86 to 108; Howard Sprague reported 116, Wm. Harrison 104, Joseph Sellar 200, Richard Opie 205, and John Gaudin 224. These figures furnish food for thought and may be studied with profit by both preachers and people, and whose appeal was to the reason and conscience; the man whose impassioned exhortations stirred the soul and touched the heart and led the hearer to feel that man that; the man whose strength lay in gentle and genial demeanor in his intercourse with his people—a friend to all, an enemy to none; the man of brusque and vigorous style, pushing, energetic and eminently practical, who never overlooked the financial while caring for the spiritual; and the man whose great theme was the higher life, and whose attention was given perhaps more to the church members than to the outside sinner. In make-up and methods they widely differed, but the results were much the same.

## General Unprising Advanced by Socialists

ST. PETERSBURG, March 22.—The agitation among the workmen's organizations involves a bold plan on the part of social democrats, revolutionists and other radical elements to send delegates elected secretly to a meeting to be called at some place in Finland early in April, at which an ultimate plan of operations will be decided upon. A division of sentiments exists among the leaders. Some of them favor calling a general strike in the middle of April for the purpose of forcing the Lower House of Parliament to demand the immediate convocation of a constituent assembly on the basis of universal suffrage, but the more audacious aim at setting up a provisional government. They believe the time is ripe to organize a general uprising, and that, if successful, their representatives could boldly contest the authority of the government. The authorities here have already gotten wind of what is going on.

## TROUBLE IN INDIA

Calcutta, March 24. In consequence of the repeated raids by bands of Waziris and other tribesmen occupying the wild independent territory on the northwest frontier of India, the military authorities in India contemplate sending a powerful expedition into the disturbed districts to convince the tribesmen that these attacks on British outposts and government agents must cease. It is not intended to make the expedition a punitive one, for, in the opinion of Lord Kitchener, the commander-in-chief, the occasional burning of a native village as a punishment for a raid is a temporary measure which merely results in reprisals by the tribesmen. Efforts recently have been made by sending a high official to interview the chiefs of the recalcitrant tribes to persuade them to keep their followers in order and abstain from the periodic attacks upon British posts. The expedition is designed to follow up these representations, and by a show of force to check the evil.

The commander-in-chief is of the opinion that the only way to prevent the recurrence of these troubles is to educate the tribesmen, as has been done in other parts of India, which are now quite peaceful. The employment of force is an extremely difficult matter on account of the terrible character of the country. To occupy the hills in sufficient force to overawe the tribesmen would require to use of the greater part of all of the troops in India.

During the last few months at least half a dozen instances have occurred of attacks by native raiders. In September last two Sepoys were killed and two others wounded by a party of raiders at Ilmdin and in the same week two men of the South Waziristan militia were ambushed and killed. In December a gang of tribesmen attacked the levy post at Gudwana, killing six men and wounding three others of the garrison.

A few days later a village was raided near Peshawar and a considerable quantity of property looted. Major Donaldson, of the Bannu Brigade, was murdered during the same month, and not long ago Lieut. Col. Harman, commanding the South Waziristan militia, was killed. These and similar acts of aggression have become alarmingly frequent of late, and the authorities hope by the methods which are now under consideration to bring the tribesmen into a more friendly attitude.

## WHAT CAUSES HEADACHES?

## Blood Poisoning, Always!

The blood is poisoned by retained tissue waste, due to defective action of the bowels, kidneys or skin. The tissue waste, or dead cells, circulating in the blood, irritates the nerves and brain, and headaches and neuralgia are bound to arise. Headache powders and opiates of any kind do harm, by adding the retention of the blood poison in the system. To cure headaches, purify the blood by opening the bowels, and by stimulating the kidneys and skin to increased action.

## Testimonial of Mr. Bert. Cornell, Taylorville, Ont.

Chronic Headaches Cured by Fruit-a-tives

To Fruit-a-tives Limited, OTTAWA, ONT.  
"I was a sufferer from four or five headaches for over two years, sometimes they were so bad I was unable to work for days at a time. I took all kinds of medicines, was treated by physicians, and my headaches persisted. A short time ago I was advised to try 'Fruit-a-tives' and I did so with I must confess, very little faith, but after I had taken them for three days my headaches were easier and in a week they left me. After I had taken a box of the tablets my headache was completely cured. My appetite was also improved and my stomach was better. I have been taking 'Fruit-a-tives' in all the cases of headache, and my digestive system is excellent. I have been taking 'Fruit-a-tives' and I give this unqualified testimonial with great pleasure."  
(Sgd.) BERT. CORNELL.

"Fruit-a-tives" cure headaches and neuralgia because they purify the blood by their splendid action on the liver, kidneys, bowels and skin, and thus remove all poisonous material from the system. With these eliminating organs all active and working as nature intends them to work, there can be no poisons in the blood, and there can be no headaches or neuralgia. A week's treatment will PROVE how thoroughly and quickly "Fruit-a-tives" cure. 50c. a box or 6 boxes for \$2.50. Sent prepaid on receipt of price if your druggist does not handle them.
