DR. HOOPLAND'S CELEBRATED GERMAN BITTERS. Prepared by Dr. C. M. JACKSON, No. 120 Arch street, Philadelphia.

Their power over the above diseases is not exceeded, if equalled, by any other preparation in the United States, as the cases attest, in many cases after skilled physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of disease of the Liver and lesser glands, exerting the most searching power in weakness and affections of the digestive organs, they are, without safe, certain and pleasant.

Read and be Convinced. The "Philadelphia Saturday Gazette," says of Dr. Hoopland's German Bitters.

It is seldom that we recommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hoopland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrum of the day, that are soiled about for a brief period and then forgotten after they have done their petty work of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself.

Dr. Hoopland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of such efficacy in cases of female weakness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon a weak system.

MORE EVIDENCE. J. G. Moore, Esq., of the Daily News said, October 31st:—"DR. HOOPLAND'S GERMAN BITTERS.—We are trying this renowned medicine for a stubborn disease of the bowels, and can with truth testify to its efficacy. We have taken the contents of two bottles, and we have derived more benefit from the experiment than we derived previously from years of allopathic treatment at the hands of our first physicians."

Hon. C. D. Hineline, Mayor of the City of Camden, N. J., says:—"HOOPLAND'S GERMAN BITTERS.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon disease of the liver and digestive organ, and the powerful influence it exerts upon nervous prostration, is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing. If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver and nervous system, the great majority of real and imaginary diseases emanate. Have these a healthy condition and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce evidences of the same merit."

For sale wholesale and retail at THE GERMAN MEDICINE STORE, No. 120 Arch street, next door below Sixth Philadelphia, and by respectable dealers generally throughout the country.

In this mannerous scribbling Age, it is rare to find a man place his usefulness to the public, before his interest. During a late visit to the "City of Spindus," we were presented by a professional friend, to the celebrated Chemist, Dr. J. C. AYER, whose name is now perhaps, more familiar than any other, at the bedside of sickness, in this country. Knowing the unprecedented popularity of his medicines, and the immense sale of them, we had expected to find him a millionaire, and rolling in wealth. But we found him in his laboratory, busy with his laborers, among his crucibles, alembics, and retorts—giving his then personal care to the compounds, on the virtues of which, thousands hang for health. We learned, that notwithstanding his vast business, and its prompt returns in cash, the Doctor is not rich. The reason assigned is, that the material is costly, and he persists in making his preparations so expensively, that the net profit is small.—American Farmer, Phil.
