# CARD

**Vote for New Valuation and Better Tax System, Decrease of Civic Debt, Honest Enforcement of Law, and Equal Opportunities for All.**

To the Electors of the Town of Newcastle, Ladies and Gentlemen,

Having been requested by a number of citizens to offer myself as a candidate for re-election to the office of ALDERMAN, I have decided to do so and I again respectfully solicit the hearty support and co-operation of all who are in accord with the principles for which I have stood in the Town Council during the past year. It you again honor me with your confidence I will, as in the past, faithfully work in what I believe to be the Town's best interests, continuing to do all that I can to secure:

1—Equal rights and opportunities to all classes of citizens, and impartial collection of taxes and enforcement of law.

2—A new and thorough valuation, by competent and disinterested men from outside, to rate separately all the land, improvements, income and personal property of each person and corporation at its exact value, with a view to the apportionment of taxation on much fairer principles than at present obtain. This should include the taxation of vacant or unimproved land, that is being held for purposes of speculation, at the selling price asked for it by the owners, with a view of compelling the owners either to improve such premises, by erecting dwellings or workshop thereon, and thus affording better means of livelihood or house hold accommodation at more reasonable rates for an increased population, or to sell their property, now idle, to those who are willing and anxious to put it to use. It should also include the lowering of poll and income taxes and tax on improvements, with the aim of ultimately placing the bulk of taxation upon land values. No bonuses should be granted and no special exemptions from taxation should be allowed, except to those who, through unavoidable misfortune, are really unable to pay.

3.—The preservation of the Sinking Fund to insure the payment in full of our bonded indebtedness as the Bonds become due, no further addition to be made to the public debt. By thus gradually paying off the principal, we shall bye and bye be relieved of the enormous charge for interest (now over \$10,000 a year) which wastes our revenues, consuming a third of the taxes but never decreasing the liability. Town affairs should continue, as in the past year, to be managed so that no further addition to the debt may be necessary.

Your obedient servant,

H. H. Stuart
