Politics On Exhibition.

This morning the Government commenced jading the public with the publication of the speech which the Premier, Sir Edward Morris, got off on his last picnic. When he took in the Burin Agricultural Exhibition last Wednesday, it is mostly a rehash of what he has hashed up many times before in the House of Assembly, on the hustings, and in the press. There however is an absence of some of the more familiar phrases. He apparently forgot to promise to make "two blades of grass" grow in Burin District "where only one grew before." Nor did he picture the hills of Burin "whitened with sheep," although he was intent on shearing political lambs, as the whole speech proves. He had his eyes on the next General Election, as will be seen by a perusal of the following quotation:-

"And when we again seek for a renewal of our term of office, we shall be able to lay before you an attractive programme, which will be your vindication for again entrusting the care of the country to our control and guidance."

From beginning to end the speech was a political speech, and proves that the Burin Agricultural Exhibition might more aptly be termed the Burin Political Exhibition, with the three Picknickers as its chief exhibits. The Picnic Chief sung poems of praise on his political policy and prejudiced the policy of his opponents. The whole show was nothing but a political engine, meant to catch the unwary, and ignorant, but the speech itself gave the whole show away. More than that, he has brazenly made a matter of record of what was before only in the memory of his hearers.

A WARM FLAW!

It is a very desirable thing and unfortunately the period for such is all too short in this country. But you can have a warm flaw all the winter if you invest in a pair of our HEAVY WOOLLEN BLANKETS.

Prices from \$3.50 to \$8.00 pair.

J. M. DEVINE, 167 Water St.

The publication, the letter-press, the make-up, all goes to show to those who have eyes to see that it is the intention of the Picnic Provider to launch in pamphlet form the printed speech and distribute it in thousands to the electorate. This conclusively proves that the Premier has cast caution to the winds of heaven, that he is intent on sowing the wind, and we have no doubt the whirlwind will sweep away himself and all his works. In the past we have seen the Model Farm Grant used by the present Government to provide fodder for certain supporters; now we find Agricultural Exhibitions being run to catch votes and to provide campaign documents.

Now that the Premier has thrown off the mask he discreetly wore at the St. John's exhibition, the people will know how to treat these shows.

You should let us have your order for Van der Scoots prime Dutch Bulbs at once, for they are going. The great point about the famous Bulbs is that being carefully selected they give healthy, robust, full-sized flowers, that give the characteristic odors in the case of those bulbs that yield a scented flower. Cheap bulbs are dear at any price.

The Improved Blue Jay Corn Planter is much quicker and more effective as a corn extractor than the original ones sold under that name. We have lately opened a full stock of these useful articles. Price, 15 and 25c. a pk.

Had Hard Time.

Passengers Leave Her in Fear.
The schr. Queen of Avon arrived here yesterday after a hard time in the gale of Thursday and Friday. She left Lower Island Cove Thursday with a full cargo of fish and 12 passengers on board. Shortly after she put out she met a gale of S.S.W. wind with heavy seas and had to run to Pinch Gut Island, where for 24 hours she rode out the gale with two anchors out. Momentarily the captain thought she would drag and run ashore against a straight up and down cliff, 200 feet high, which, had such occurred, not a soul on board but would have been lost. The vessel then ran for Caplin Cove, where there was comparatively smooth water, and fearing for their lives the 12 passengers on board landed there and will proceed here by other conveyance. The vessel remained there until Saturday evening, and the skipper says it was the worst weather he ever experienced. Some damage was done to the sails, etc.

Takes Command of the Tritonia.

Capt. Henry Dawe will take command of the s.s. Tritonia, of the Donaldson Line, again next winter. He leaves here for Botwood early in December to join the ship, taking with him a number of men. The Tritonia is under charter to the Anglo-Newfoundland Development Co. to carry paper from Botwood to England, and it is the company's intention to keep the communication open between Botwood and a port in the Old Country. We have no doubt but that Capt. Dawe will be able to accomplish this, as he has had lots of experience in dealing with the ice.—The Guardian.

Boy Ran Over.

A boy named Dillon, 14 years old, was run over by an automobile near his home on the South Side Road last evening. Mr. Job, who owned the auto, was very much concerned over the affair. He picked up the boy and brought him to his house and then drove to town and got Dr. Anderson, who on examining the lad said that no bones were broken.

Train Notes.

The 8.45 train this morning took out Capt. Wyse, Messrs. Hearn, Donnelly, Munn, Hickey, Lawlor, March, Mrs. Hickey and 40 others.

Aunt Sarah is a suffrage dame, and she walks much like a grenadier, and wears a pair of breeches around like THE TWO AUNTS walkin' round. Should be Stopped.

There is nuisance in this city which is known as the Saturday night express nuisance. It is especially annoying to the people of the higher levels, notably on LeMarchant Road, Cabot Street, Monroe Street, Barter's Hill and many other sections. These drivers—especially when out late at their work—go sometimes at a high rate of speed, and on some of the thoroughfares which are dark, people, especially old people, must dodge these vehicles quickly to avoid being run over. Nor is the nuisance confined to the higher streets; it is often noticed in the lower sections, especi-
