IDEAL - Arcola Radiator - Boiler

The ideal heat for small homes!

Gives even warmth in whole house—and at small cost

This hot-water heating plant gives healthful warmth to all rooms and requires no cellar or water pressure. Boiler serves as radiator for room in which it stands. Its surplus heat warms three or four other rooms through water circulating through inconspicuous pipes to radiators. Outfit of indestructible cast-iron requires little attention and coal. No danger of fire.

Estimate gladly made for you without obligation.
