

St. Mary's Young Peoples' Bible Class

On Sunday, October 25th, both the Young Men's and Young Women's Bible Classes of St. Mary's Parish began their meetings for another year in their respective rooms. The members in attendance at both of these classes last Sunday were very encouraging indeed to all interested, and all are optimistic enough to look forward to this year's work as a banner year.

An especially pleasing feature about both classes at the opening was the good sprinkling of new faces in these classes. The new ones were welcomed by the respective leaders and encouraged to attend the sessions regularly. If these Bible classes increase this year, as we are earnestly hoping they will, we shall soon find ourselves faced with the question as to how to secure more spacious rooms to accommodate them.

A very enthusiastic and largely attended business meeting of the young men's class was held on Monday evening. It was without doubt the best meeting of its kind held since the class first came into being over five years ago.

The treasurer's report was a splendid showing of the earnings of the class last year. After paying for over fifty books in the library and all accounts up to date there was still a balance of nearly \$50 on hand. Besides paying the running expenses of the class and leaving such a splendid balance on hand, further evidence of the giving powers of the class is seen by the contributions made to support outside funds. Two donations were made to the Permanent Marine Disasters' Fund last year, and through the medium of the class missionary box the sum of twenty dollars was collected and given to Queen's College as the first contribution to what in future is to be known as "St. Mary's Men's Bible Class Studentship." The Self-Denial offering of the class presented last Easter amounted to \$136.00 which went to the Diocesan Mission Fund.

The Secretary's Report showed an increase of thirty members last year. The total number on the roll last year was over seventy. The following is the result of the election of officers on the executive for the ensuing year:— President—Mr. K. Payne, re-elected. Vice-Pres.—Mr. H. Skirving. Treasurer—Mr. J. R. Badcock, re-elected. Secretary—Mr. G. Stone. Librarian—Mr. R. G. Stirling, re-elected. Mr. Mac Collton was appointed organist and Mr. Ed. Cranford, assistant organist.

Members to the following committees were then appointed: Look Out, Debating, Social, and Sports committees. The meeting decided to purchase new hymn books, A. & M. for the class, and to provide more seating accommodation to meet the immediate need. Gifts to the class of a table, a dozen bibles, three electric bulbs, were made by individual members of the class and were acknowledged with thanks. The question of purchasing a magic lantern for the class was introduced by the leader, Mr. Goodland. The majority of those present were in favour of doing this, but it was left over for awhile before making a final decision.

The meeting was brought to a close with the Benediction pronounced by Rev. J. Goodland.

For each conversation of five minutes or less, where the length of line does not exceed— 5 miles 5 cents 10 miles 10 cents 15 miles 15 cents 20 miles 20 cents 25 miles 25 cents and so on at the rate of 5 cents extra for each additional ten miles or part thereof.

From enquiries made at the Toll Station we are told that the rate to Topsail is 20 cents. Why the difference?

A Soulless Calumny

The letter which appears in another column from the Minister of Agriculture and Mines is a prompt refutation of the baseless charges made yesterday in the Globe with reference to the loss of the schooner Eliza.

Were it the case that no reference had been made to the action of the Government in instituting a search, or if the information had not been forthcoming after proper enquiry, there might have been justification for publishing a calumny that could have no other effect than to harrow the feelings of the bereaved, but under the circumstances the conduct of the writer can only be described as feelingless, and he has shown himself devoid of any feeling in his anxious desire to bring the Government into disrepute.

PEPYS BEHIND THE SCENES

Oct. 27th.—Talking this day with my wife, she would have me go to the Eastern Dance, but complains that she knows not what costume to wear. At this, I did tell her that if she would put a little more on with it, that she might be accepted in the best costume circles, which must be her so madd that she throws a hair brush at me which do miss me by but the mere fraction of an inch. So abroad and to the office where busy all the morning save that I did take a little time to have my daily cake of yeast, which I do not excel for my liver. Tonight my wife insists that I accompany her to the meeting that the Women's Suffrage League holds this night, which I was loath to do, but little sympathy with the cause nor am I yet convinced that all the women of the country desire. Nevertheless, the discourse mainly good, and in particular, Mr. Paton gives a fine address, nor indeed, could he do otherwise. Coming home, meet with Foley, who in his mind about the coming elections, being that he is persuaded to come out as a councillor, yet has little taste for it. But Lord, what knowing you will come, and indeed time for pronouncements with the election but six evenings distant.

Magistrate's Court

Two drunks were discharged. A charge of the Gouley was charged with being drunk and disorderly in the settlement on the night of Oct. 7th, and a second charge of maliciously breaking a window in the house of Dr. Stauberman. After the facts of the case had been heard, the accused was convicted and fined \$10 on the first charge and \$5 on the second.

A Daring Hold-Up

A daring hold-up occurred on New Gower Street this morning when a lady that vicinity proceeding home from one of the banks had her hand bag torn from her grasp by an unknown man. The footpad tore the bag from her grasp by the handle. Fortunately there was only a small sum in coin in the bag as she had taken the precaution to put a sixty dollar cheque which she had cashed, in the pocket.

Winsor, aged 50, married, was accidentally shot dead at the home of Abram Rideout last night. Rideout was repairing a gun, which accidentally went off.

Prompt Refutation of Globe's Charges

Editor Evening Telegram. Dear Sir.—Would you be good enough to publish the enclosed copy of letter sent by me to-day to the Globe. I showed your Mr. O'Reilly all the correspondence in reference to this matter. Yours very truly, W. J. WALSH.

WHY THE NEGLECT?

Editor, Daily Globe. Dear Sir.—In your issue of yesterday's date occurs an article in your editorial columns bearing the above caption—"Why the neglect?" I beg to ask the same question but applying it in another direction, would you say why you neglected to get proper information before committing yourself to print on a matter of such grave concern? Your ill-advised writing is well calculated to add a grievous sense of injury to hearts already sadly afflicted through loss of loved ones, for you caused them to feel that in the midst of their distress and anguish they were neglected by those whom they trusted to come to their assistance.

Your writing also in a very reprehensible manner is to do injury to the reputations of responsible public men including my humble self.

You plainly insinuate, nay, not insinuate, you boldly say that the Government neglected to take measures for the rescue of those driven off to sea in the schooner "Eliza" during the gale of last week. Far from being the case, every active measure that could be taken to effect a possible rescue was at once set in motion on that information being received that the "Eliza" had been driven off or lost track of.

On receipt of message from the father of two of the men on the Eliza if immediately got in touch with Mr. Saunders of the Anglo Office, asking him to service all offices to discover if possible any trace of missing vessel. Postal Telegraphs were also requisitioned and the office of Marine and Fisheries and Colonial Secretary were communicated with. Messages were at once sent to the Captains of the Caribou and Portia asking them to make a diligent search for the vessel. This action was noted in the public Press of the time, and it is surprising you failed to take notice of this.

Copies of all correspondence between the different offices and parties involved—both telegraphic and in writing—are on my desk for your inspection should you wish to confirm my statements that everything humanly possible was done to effect a rescue.

I would ask you to give this the same prominence you gave the article complained of.

Yours truly, W. J. WALSH. St. John's, Oct. 28th, 1925.

Conviction by Judge Morris Sustained

IN INCOME TAX CASE. The application on the part of Sir Richard A. Squires for a Writ of Certiorari to bring up and quash a conviction for a breach of section 7 of the Income Tax Act of 1918, for which he was fined on September 16th by Judge Morris the sum of \$1,000.00, was dismissed in a judgment handed down to-day by the Chief Justice and Mr. Justice Kent, which reads as follows:—

SUPREME COURT. In the matter of an application by Sir R. A. Squires for a Writ of Certiorari to be directed to the Hon. F. J. Morris, Stipendiary Magistrate.

This is an order Nisi, granted upon the application of Sir Richard A. Squires, calling upon the Hon. Frank J. Morris, K.C., one of His Majesty's Stipendiary Magistrates for Newfoundland, to show cause why a Writ of Certiorari should not issue to remove into the Supreme Court for judgment or record of conviction made by him on the 30th day of September last past, whereby the said Sir R. A. Squires was fined the sum of \$1,000, imposed upon him in respect of a breach of section 7 of the Income Tax Act, 1918, and a fine of \$1,000 was imposed upon him in respect of a breach of section 7 of the Income Tax Act, 1918.

The ground upon which the application is made is that the Magistrate had no jurisdiction to entertain the summons issued to the said Sir R. A. Squires, and that the conviction was a nullity. Upon the argument, counsel for the applicant drew the attention of the Court to the language of the statute and contended that section 18 and section 9, and he argued that section 18 must prevail to the exclusion of section 9. Section 18 is as follows:—

"Except as hereinafter expressly provided, the Court shall have exclusive jurisdiction to hear and determine all questions that may arise in connection with any proceeding taken under this Act, and may award costs in connection therewith." Section 9 is as follows:— "The ground upon which the application is made is that the Magistrate had no jurisdiction to entertain the summons issued to the said Sir R. A. Squires, and that the conviction was a nullity.
