Facts About McClary's "Sunshine" Furnace

-The Understudy of the Sun--

of Semi-Steel -that of the ordinary furnace is made of Grey Iron. Here's the difference — Destructive sul-

phur fumes penetrate Grey Iron easily because it is porous. Semisteel is not porous-it is a close-grained material with a smooth surface secretly processed by McClary's. Gas fumes cannot penetrate Semi-Steel therefore it lasts longer. The "Sunshine" Firepot is built in two sections joined together with our famous cup joint. The shape of this joint, combined with a layer of McClary's asbestos cement. makes it absolutely gas, smoke and dust-proof.

Clearly, the "Sunshine" is the premier furnace as far as the Fire-pot is concerned.

The Grates of the "Sunshine" Furnace have three sides each. Plainly, they have three times the endurance of one-sided grates. Every time you rock down the ashes of the "Sunshine" you can expose a fresh side of the grate to the fierce heat of the fire-lengthen the life of

And the short, scrong teeth of "Sunshine" grates simply grind up clinkers. The "Sunshine" Furnace is the best as far as grate construction goes.

Shaking an ordinary furnace is hard, back-breaking labor. You don't need to shake the "Sunshine"—you simply rock

The Fire-pot of the "Sunshine" is made it and the ashes drop into the ash-pan. A child can easily rock the grates of a "Sunshine" - merely another reason why you should buy a "Sunshine" Furn-

Ordinary furnaces are called coal gluttons. There may be good reasons for that—we don't know. But—we have built the "Sunshine" Furnace so that it is very easy on coal. Hundreds of people now using the "Sunshine," and having used ordinary furnaces, declare that the "Sunshine" makes two tons of coal do the work of three. Evidently, the "Sunshine" Furnace saves coal and

The ordinary furnace has a water-pan hidden somewhere about the base. There, it cannot carry out the purpose for which the water-pan was devised The water-pan of the "Sunshine" Furnace is placed scientifically above the

radiator near the dome-the heat lans up the water, before being diffused all over the house. It contains the same amount of moisture as the air of a balmy June day. Plainly, as far as the water-pan is concerned, the "Sunshine" is the furnace you should buy.

There are many more reasons why you should invest your money in "The Understudy of the Sun"-McClary's shine" Furnace. Call on the McClary agent and ask him to show you all the mechanical reasons and exclusive devices which go to make the "Sunshine the best and therefore the cheapest furnace you can buy.
