# THE CANADIAN PACIFIC TRACKS

Interswitching Arrangements Between Railroads in This City Are Now an Assured Thing==Grand Trunk Will Build the Connecting Line at Once.

MR. HYMAN, M. P., DOES A GOOD DAY'S WORK FOR THE CITY OF LONDON

Due to His Efforts That the Grand Trunk Waived All Objections—A Boom for the Manufacturers and Shippers of London-Prominent Citizens Express Their Views on the Ouestion—Should Attract New Industries.

from Mr. C. S. Hyman, M.P., at Ot-

tawa, says: immediately construct a connecting ed easterly, and then across to the would be good for the next generation, as they were for the promotion of the line with the Canadian Pacific, and to enter into negotiations with other rail- R., C. P. R., L. E. and D. R. R. and the they wanted the interswitching now, ways for general interswitching ar- M. C. rangements. The proposed spur will afford to established industries switching arrangements common to all railways, and provide ample accommodation for new industries. This is one of the most gratifying

pieces of information to reach the manufacturers of London in many a day or it means the attainment of an object cherished by them for some years. The idea of having interswitching arrangements among the roads entering the city originated during the term of Mr. F. G. Rumball as mayor, but as all questions of such importance are advanced slowly, it had not made much

before Mr. Rumball retired The board of trade took the matter and manufacturers generally strongly advocated it. The greatest objection the move, however, was offered by the Grand Trunk Railway, which touching almost every point of importance, did not relish the thought of nauling freight to London and handing

it over to the other roads here.
When the term of Mr. Rumball closed. and Mayor Beck stepped in, the latter took the question up, but it cannot be said that he made much headway. To Mr. Hyman belongs the credit of having the Grand Trunk consent to

on one road to a firm whose factory is no doubt but that they would do so. located on another line, it will be handed over to the latter, obviating the necessity of having it carted any distance
