Mayoralty, Water Commissioners and Aldermanic Candidates Address Gathering in City Hall Last Night. Ald. Judd Evades Some Important Explanations. that if he was elected mayor he could not vote for any measure in favor of the company, the municipal act preventing him, while a shareholder, from the same ago that the Ontario Government has promised to pay part of the cost of

COUNCIL'S OVERDRAFT OF 1904 papers that had been attacking him had no more reason to charge him

Figures in the Discussion-Mr. W. H. Bartram Declares the Election Is a Fraud.

The first meeting of the municipal campaign was held in the city hall said: last night, and proved a rather tame affair. It was nearly 8:30 o'clock before Mayor Beck called the meeting to about myself. About 20 years ago, or order, the electors being in no hurry to make their appearance in the hall. Mr. Henry Macklin was chosen chairman, and when he arose to announce the first speaker there were not over fifty people in the room. Mr. Macklin suggested that the mayoralty candidates be given 15 minutes each, the of the city council, and have served water commissioners 10 minutes, and the aldermen 5 minutes each.

mayoralty candidates, whereupon Mr. Macklin, grandiosely addressing himself to the people, declared that any man who could not tell the people all into the high school they had to put man who could not tell the people all he wanted to tell them in 15 minutes, must be boring in poor ground, or he to my efforts put forth in the interests must have a bad auger. But when Ald. Judd took the platform, the chairman sible for the pupils to be trained in was compelled to give him over half nearly all the schools of the city so an hour. Mr. Macklin didn't tell the that they may try the high school electors, however, whether it was Mr. examination without being huddled to-Judd's auger or the ground that was to

The meeting was a very quiet one, solution framed by me on this sub-but for a few minutes Mr. W. H. ject that the present rules of the Pro-Bartram, of West London, added spice to the proceedings by an attempt to I was also instrumental in causing the head off Ald. Matthews, who got in mayor and aldermen some years ago ahead of the other aldermanic candidates by speaking as a mayoralty though he had no intention of running for mayor. As the evening wore on, the crowd increased materially, and there was a fair-sized gathering in the hall by 9 o'clock. When the aldermanic candidates got a chance simply to show you that I have all to speak it was well on to 11 o'clock, and by this time half of the people had gone home.

The feature of the meeting was the studied manner in which Ald. Judd was born here and hope to die here. avoided any explanation regarding his No Rash Promises. attempts in 1902, as solicitor for the London Electrical Company, of which company he is also a shareholder and director, to deprive the people of the benefits of electrical competition. Ald. Wyatt, though he, too, addressed the electors, said nothing of the macadam roadway put down in front of his residence on St. James street, out of the general funds.

Chairman Macklin took a godfatherly interest in the Conservative nominees, and introduced them to the crowd with a series of complimentary refer-With the Liberal candidates. however, he did not appear to be very

well acquainted. Ald Juda Speaks.

Ald. Judd was the first of the mayoralty candidates called upon, and in his opening remarks he drew attention to his municipal record as alderman, water commissioner and member of the public library board, covering a period of thirteen years. It was upon his record during these years that he asked the people to say if he should be their representative in the mayor's chair. He showed that owing to the heavy, uncontrollable expenditures of the city, the council this year had only 5.35 mills of a 23-mill rate, or from \$70,000 to \$75,000, at its disposal, with which all departments had to be manoverdrafts, and in connection therewith Ald, Judd said that since the first of the year, when the committee's estimates were prepared, unexpected expenditures had been incurred, and Nos. 2 and 3 committees had spent more than had been placed at their disposal. The fire and light commit--No. 3-had to rewire the fire alarm system—an outlay not anticipated early in the year-and No. 2 committee had been compelled to replace decayed sewers, hence it was overdrawn in its

Detended Committees.

Ald. Judd defended both committees for their actions. Turning to the work of should know it." the finance committee, of which he is chairman, during the year, he referred to the agreements made with the county council and the street railway, and in the latter connection, he said, that he had voted to make the railway relay what Dr. Campbell, had voted to allow it to take up-the Rectory street line. He also took some share of the credit for the agreement with the Bell does not provide a certain amount for un-Telephone Company, whereby the latter pays the city \$2,500 cash and gives free telephones to the extent of nearly \$400, in return for an exclusive fran-chise for five years Ald Ludd do chise for five years. Ald, Judd dethe old breakwater in repair.

Is a Corporation Solicitor.

he was interested in several corporations, and he said he aiways was in favor of municipal ownership, and whether solicitor for the corporations or not, had voted in that direction. He quoted from the council reports to show that he bad area of the council reports to show that he had a council reports to show the council report show that he had moved to have the city hear its share of the cost of a report on the possibility of bringing Niagara power to London. He had honds: but with the road wormer. done so in face of the fact that he was a shareholder of the London Electric Company and was also solicitor for the company, which would be affected if Then there are London and Southwestern the kind of a man needed for the a shareholder of the London Electric Niagara power was transmited to London. Ald. Judd said if he was smart enough to act as solicitor for the corporations, the people should be glad to get him in the mayor's chair. He denied, however, that he was solicitor for the C. P. R., the Barber Company or the Grand Trunk, although he had acted as agent for the G. T. R. solicitor in some cages. He was solicitor for the Telephcee Company when it se-cured two franchises from the city,

under one of which the city received Piea for the Breakwater. \$500 a year, and under the other \$1,000 a year, and he was chairman of the finance committee when the last agreement was made, and the city secured \$2,900 a year. Ald, Judd acknowledged that he was a shareholder in the London Electric Company, and he added

Dr. Camphell then put in a strong plea for the garbage system bylaw and for the West London breakwater bylaw. The garbage system is badly needed in London, he declared, and it will check the works matters, saying that he did not consider it right to make the people pay more for water than it cost. Neither

venting him, while a shareholder, from doing so. So har as the corporations were concerned, Ald. Judd said the

time ago that the Ontario Government has promised to pay part of the cost of a permanent breakwater for West London, Dr. Campbell read a letter from Dr. Routledge, former member for East Middlesex, stating in the plainest terms that the Government had promised Dr. Routledge to pay 25 per cent of the cost of any permanent breakwater erected. Turning his attention to the water commission, Dr. Campbell said he was strongly in favor of collecting all the spring water available and turning it into the mains. This will give the city spring spring water available and turning it into the mains. This will give the city spring water for many years to come. Though it would be an advantage to have the meter system, it would undoubtedly prove a hardship to many people. The city should not be dependent upon a single main, as a break might occur any day. Just imagine the condition this city would be in if the main were to break Institute. will have to start out with a little be in if the main were to break. Just imagine what would happen if a fire were to break out under these conditions!

ancient history, and tell you something "If elected to the mayoralty, and con-sequently ex-officio member of the board of water commissioners, I will do all in probably 23 years ago, I was elected a public school trustee and had the honor to be elected by my colleagues of water commissioners, I will do all in my power to increase the spring water supply and to give the city ample fire protection," concluded Dr. Campbell. "If after going over my record you think I have gained sufficient experience to warrant your placing the reins of office in my hands, I shall be very much pleased to accept the high honor." (Applause.)

One of the first water of the council. What was wanted now, he said, was more honest men, more independent men, who are not tied too much to partisanship.

It was 11:15 o'clock, and the hall was pretty well deserted when Mr. R. A. to the chairmanship of the board of education. For 15 or 16 years I have and have also been honored with the chairmanship of this civic body. For several years I have been a member to the best of my ability on every

Opposed to River Water.

committee. On all these bodies I have Mr. Donald Ferguson, candidate for Ex-Ald. Campbell asked the chairman to make it 20 minutes for the man to m so, I might tiell you that years ago, in the course of my public duties, it ed to run only at the solicitation of many friends. He promised if elected to give the city the time necessary to properly perform the duties of the office. Mr. Ferguson expressed opposition to the use of river water. "I think," he said, "we have water at Springbank, of which we should be proud. I think we should protect that supply of water. I also think there is plenty of water yet to be had at Springbank. There are numerous springs around the city, and I think we should collect them as required to supply the city."

Mr. Fred J. Darch was not prepared o say what course the commissioners should take to increase the supply, but he was an opponent of the use of river water by the citizens. He favored a careful consideration of the various re-ports and schemes already before the system—a system which removed the board, and then submitting them to the people to be voted upon. He was also in favor of a reduction of the causes of many lawsuits in the past, water rates, which he thought could be accomplished in a short time. Mr. spect, as well as a splendid sanitary condition. I am not bragging of what Darch denied that he was the nominee of the Socialist Labor or any political party, as he was running as the representative of the working classes. He also charged that in his contest against ex-Mayor Rumball, the ballot boxes had been played and the best labor by in any and every position in which I have been placed. Like Ald, Judd I have lived all my life in London, had been plugged, and the wishes of the people defeated.

A Little Diversion.

As to what I intend to do if elected to the mayor's chair, I will make no he was introduced as a mayoralty canrash promises. It is not safe to do didate, whereupon Mr. W. H. Bartram so. But if you elect me to the mayor's arose and remarked: chair, I promise you that I will do in the future as I have done in the past mayor we want to hear him. If he "If Ald. Matthews is going to run for

isn't, let him sit down and wait his citizens, irrespective of class or creed. and in doing this I will not be doing "If Mr. Bartram waits long enough any more by you than I believe Mr. he'll hear whether I am going to run,"

Judd will do by you if ne is elected. "Ald. Judd has told you something said Ald. Matthews. Mr. Bartram again arose to speak, about the finances of the city," conbut there were shouts of "Sit down, tinued Dr. Campbell, "but I have my Bartram! Don't butt in! ness was restored, Ald. Matthews got very successful. It has been said that an audience. He spoke of the overdraft tigures will not lie, but a later version of his committee and its causes, and declares they will lie any way you finally passed a bunch of fire alarm want them to lie. They look different wire around the room to show that as you look at them from different it was worn out, and had to be restandpoints. As you all know, it is placed. This expenditure, more than the duty of the council to prepare any other, he blamed for the overdraft. careful estimates of what it will cost Ald. Wyatt.

Carson appealed for supwe must spend for current expendi. port, and intimated that if elected he tures, and strike the rate in accord. would exercise care in the management of the city's affairs, while not being at ent improvements, I would submit all the same time penurious. Such proposals to the people, and if

the electors are favorable to the expenditure, I would issue debentures,

Ald. Forristal, who was chairman of spreading the cost over a term of years. the breakwater committee, appealed to I maintain this is the proper way to the electors to support the bylaw prorun the city. And I repeat that no committee or no council should for the viding for a new protecting wall for West London. He considered the bylaw to be in the interest not only of purpose of gaining a little reputation, try to cut down the tax rate below the people of West London, what is really absolutely necessary to every other section of the city, as it run the city for the year. If they would mean the saving of several hundred dollars a year — the difference between the sinking fund and interest, and the yearly outlay for repairs-besides effecting a large increase in the Dr. Campbell then quoted figures from assessment of the suburb.

the treasurer's onice, which showed that the city council of 1504 has expended about Election a Fraud.

Mr. W. H. Bartram, of West London, followed Ald. Forristal, branding the "But what firm or corporation is there present election as a perfect fraud, the eered things in such a way as to insure their re-election. He charged the council with submitting the garbage and breakwater bylaws to the people, merely to give 160 scrutineers a day's work at \$2 apiece, and thus secure fended the breakwater bylaw, and asked the ratepayers to support it at the polls, maintaining that it would not cost as much annually for the debenture issue, as it now does to keep the old breakwater in repair.

In going over the items of No. 3 committee's expenditures, Dr. Campbell came their support. The expenditure of the money under the bylaws, he said, was illegal. Mr. Bartram strongly opposed this excount," he said; "but if it has been paid to those brave fellows, I am not the breakwater bylaw on the ground that what was needed was a gate in the dam (not a new wall around the the dam (not a new wall around the suburb), as it would be sufficient to protect West London, and also to give Ald. Judd dealt with the charge that the was interested in several corporations, and he said he always was in city might give the widow more than position for many years and did not one month's salary. (Cheers.)

he did the did the sterning life, the city engineer, who, he said, herd his position for many years and did not know his business. He (the speaker) did not expect to be elected, but he was going to stay in the field, and he would consider the votes given him as the votes of people who could think for

"God help the city of London if it had men in the council like the one who has just left the platform," said the kind of a man needed for the council." Ald.
