

PASS ON EMBARGO BILL SECOND TIME

British Members Approve Removal of Restrictions On Canadian Cattle.

London, Dec. 8. — The House of Commons Thursday passed the second reading of the bill designed to remove the embargo on the importation of Canadian cattle by an overwhelming majority.

In moving the second reading of the bill, Sir Robert Sanders, minister of agriculture, said the measure was necessary in order to carry out the agreement reached with Canada. There was, however, the question of animals landed from Ireland, which he explained.

Due To System. Sir Robert said it was a fact that in considering possible causes for the widespread nature of the foot and mouth disease among cattle in the early part of this year, the veterinary officers of the ministry of agriculture had come to the conclusion that the spread of infection was largely due to the system under which consignments of Irish store cattle were imported by cattle dealers and put on the market in the course of a few days after arrival. The result was that if there was any infection among the cattle it was quickly distributed over a wide area.

A departmental committee which had been appointed to look into the matter had recommended that certain restrictions which had been imposed should be made permanent. The order carrying out this recommendation had met with a good deal of criticism in Ireland, the minister continued, but the government was of the opinion that the regulations in question provided the minimum of the safeguards necessary in the case. The bill that has been introduced for the removal of the cattle embargo, Sir Robert Sanders continued, would meet the strong expressed wishes of the representatives of Canada. They attached enormous importance not only to the bill being passed, but they desired that it be placed on the statute book as quickly as possible. This was being done, he said, because one of the great dominions had asked for it, and it was for that reason, and that alone, that he asked the house to accede to a degree of haste, which he certainly would have joined in deprecating on most occasions.

Irish Cattle Question. The only point now at issue is the question of application of the regulation under the bill to Irish cattle. Ulster members complain that while the embargo is being removed from Canadian store cattle, a new embargo is being placed on Irish cattle. The question of the bill will be fought out in the committee stage next week.

T. S. J. Harrison (Fermanagh and Tyrone) moved the rejection of the bill. The motion for the rejection of the importation of animals bill was defeated by a vote of 379 to 27. The bill was then read a second time. Premier Bonar Law stated that the report stage and the third reading would be taken up on Tuesday next.

3 ESCAPE DEATH AS ICE SINKS BOAT

Passengers Rescued From Freezing Waters of St. Marys River.

Sault Ste Marie, Dec. 8. — The passenger launch Mopica, running between this city and Neebish Island, sank in the St. Marys River Wednesday night when its hull was crushed by striking an ice cake. Its three occupants Mr. and Mrs. Guy McIntyre and their baby, narrowly escaped death. Mrs. McIntyre is in a hospital suffering from exposure. Her legs were frozen.

When the boat sank, the occupants jumped into the river and clung to cakes of ice. McIntyre struggled to save the baby as well as himself. He managed to get onto a fairly safe sheet of ice. His wife climbed onto a floating piece, which constantly tipped and rolled, keeping her drenched. For three hours they floated with the current in near zero weather.

Their screams finally were heard by a coastguard at Oak Ridge Park, a mile and a half away, and he came to the rescue.

The Majestic Theatre attraction of "Mem-o-rea" is proving quite a sensation to patrons who attend. Not alone are the revelations made by him wonderful, but he reads the mind without the exchange of words or writing.

Have you any mystery? Have you lost a valued article? Has someone near and dear to you disappeared? Ask Mem-o-rea; he'll answer you; he'll tell you. People have been astounded and amazed. Many are attending and many more will come, so it will be advisable to secure seats early. —Advt.

PRAISE FOR GRAND TRUNK.
In the Grand Trunk Railway System, employers and employees work together to reach the highest possible standard of efficiency. The result of this splendid spirit of co-operation is a railway service as near perfection as modern methods can make it. That the travelling public appreciates this effort on their behalf is shown by numerous letters to the G.T.R. officials, expressive of their pleasure and approbation. Here is an extract from an unsolicited letter written to the management by a prominent New Yorker: "Had a most comfortable ride from Montreal to Toronto. The train went at a uniform speed and the roadbed was better, it seems to me, than any road I have been on of late, and you know I travel more or less on the crack roads of this country. What was most noticeable was the braking—the absence of awful shocks and jars, and the smooth running of the train. You are to be congratulated on the manner in which passenger trains are handled—seemingly a distinctive feature with you."
