#### JURY WANTS BOAT TAKEN FROM LAKE FOR INSPECTION

Ill-Fated Swan Craft Will Be Thoroughly Inspected Before Thursday.

AGAIN ADJOURNED

Witnesses Tell Similar Stories of Water Rushing in and Boat Tipping.

Special to The Advertiser by a Staff Reporter.

St. Thomas, July 14 .- A second adjournment to next Thursday at 8:30 o'clock was taken this evening by tario Miss Gaiser taught in the public the coroner's jury investigating the schools for two years. In the United swan boat tragedy on Lake Pinafore, States she was connected with the which cost the lives of a woman and July 6.

Miss Galser is the first woman to be appointed to the staff of Mc-Master. She was highly recommended by heads of departments in Columbia. Her specialty is research work.

At a special meeting of the senate and the board of governors yesterday the appointment was ratified. James Stevenson, B.A. was made lecturer in classics.

July 9.

For nearly three hours the jury head vidence of witnesses of the accident. There was remarkable unanimity as to details, and little evidence of a new character was brought out. The story of Mrs. Robert Hayes, wife of the previous witness, was next called to the stand. She was with her husband and children and other relatives in a rowboat about 30 feet from the swan boat when she suddenly noticed the latter craft was listing. A moment later the children were on their feet screaming. A few which again filled the council chambers the purple of two of the victims.

Mrs. Robert Hayes, wife of the previous witness, was next called to the stand. She was with her husband and children and other relatives in a rowboat about 30 feet from the stand in grant at dragging, and was suddently and the previous witness, was next called to the stand. #### JUNE BUILDING IN DOMINION BEATS 1924 BY \$7,000,000

Survey Shows Encouraging Industrial Conditions in Canada.

BIG FIRMS LOCATE

Twine Factory at Hamilton Will Employ Several Hundred People

Conditions generally throughout Canada are very encouraging, according to a survey completed by G. H. Rogers, general commercial engineer of the Bell Telephone Company. The report, which covers the month of June, follows: Business reports in general are en-

couraging for the month of June. In the west the prospects are for bumper crop, and according to reports the wheat fields at this stage look more promising than they did in the famous crop year of 1915. The Dominion Bureau of Statistics estimates a yield of 350,000,000 bushels, which would be 10,000,000 bushels over the average of the last five

There is a marked decrease in failures, which is always a good sign. The number of assignments for April total 162, as contrasted with 198 in March, and 180 in April, 1924.

Building.

There has been an improvement in the amount of construction, the total for six months aggregating \$125,544,-100, as compared with \$128,723,100 for the same period in 1924. For the month of June, as compiled by the MacLean Building Reports. Limited, the total construction awards were the total construction awards were department, and H. H. Angus, Toronto,

building accounted for 33.1 per cent, business building 28.9 per cent, industrial building 4.6 per cent, and public works and utilities 33.4 per cent. The building was distributed among the provinces as follows: Ontario, 41.1 per cent; Quebec, 31.7 per cent; prairie provinces, 8.9 per cent. British Columbia, 11.8 per cent, and British Columbia, 11.8 per cent, and the maritime provinces, 6.5 per cent.

There is a decrease in the contemplated new work this June compared to June last year of \$3,733,100, but when comparing the new work for the first six months, this year

shows \$312,406,100 against \$192,055. 700 of last year. This outlook is very promising.

The value of the building permits for June, 1925, for Toronto, was \$3.225,000 and Montreal \$2,916,555, show the property of t both of which show an increase ove

the same period last year.

The outstanding features of Can-ada's external trade in the fiscal year ending March 31, last, were the in imports. The exports rose from \$1,045,351,000 in the fiscal year ending March 31, 1924, to \$1,069,067.000 in the fiscal year ending March 31, 1925, an increase of \$23,716,000; the imports at the same time fell from increase in exports and the decrease

crease of \$96,433,463.

Grain shipments for the port of Montreal point to another record season if the present trade continues, as the traffic figures exceed those of last year by about 40 per cent. Deliveries to date are 32,353,407 bushels and receipts 30,230,367 bushels. Corresponding figures for last year are: Deliveries 22,649,366 bushels, receipts 24,851,123 bushels.

The baled hay industry is becoming more important every year, last year

more important every year; last year Canada exported 332,293 tons as against 58,300 tons in 1923 and 31,287 tons in 1922. Of this, the States took nearly 90 per cent of

Wholesale and Hardware. There is a slight but gradual improvement in the wholesale trade and also in the hardware trade. Merchants apparently have been allowing their stocks to any low but the ing their stocks to run low, but the prospect of a good grain crop has added a stimulus to buying in nearly all wholesale lines. The same pros-pect has affected the hardware trade.

Iron and Steel. A statement issued by the Dominion Bureau of Statistics shows that 1,004 concerns are engaged in the

Mining.

According to an agricultural and industrial bulletin issued by the Canadian Pacific Railway, the gold mines of Northern Ontario again broke all records for the monthly output of gold when in May they turned out aggregate of approximately

\$2,600,000. Miscellaneous. The International Harvester Com pany of Canada has practically completed a factory in Hamilton occupy ing approximately eight acres, which will employ several hundred people. This factory will manufacture twine. The Singer Sewing Machine Company is erecting a plant at Thurso, Que., and when finally completed will comprise woodworking, veneer and cabinet factories.

The Wayagamack Pulp and Paper Company at Three Rivers is en-gaged on a swsprint mill expected open this year.

International Paper Company is taking preparatory steps for the erection of a large paper mill at Chelsea, near Ottawa.

Chief Birrell Advises Immediate Action on Defective Headlights.

Warning of a comprehensive police drive on the glaring headlight menace is contained in the admonition given this morning by Chief of Police Robert Birrell to all motorists who have yet failed to comply with provincial auto light laws.

Attempts to enforce the glars measure were not made until recently, though the law has been on the statutes for more than two years, "There are four stations in the

city where headlights may ba ada justed," Chief Birrell pointed out. "and unless negligent motorists take warning, the consequences they will have to take will be entirely their own fault.

"All car owners who have so fa failed to have their lights tested should do so at once."

The London Motor club will give the police every aid in stamping out the danger to life and property re-sulting from glaring lights on autos, Alterations at Victoria Are

Secretary Ed. Bernard said this worning.

"City motorists are lather about correcting their lights," the secretary asserted, "but I am confident that the warning of the chief of police will have its effect and that

no extensive enforcement drive will be necessary." Besides the facilities offered by ing of the trust last night. Tentative adjustment stations at garages, inplans include the placing of the mains

The increase over the corresponding period last year was comprised of contracts for buildings of ordinary size and engineering work without any exceptionally large orders.

Of the June total, residential building accounted for 33.1 per cent, building accounted for 33.1 per cent, in-Has Asked To Be Relieved of Duties.

> that 118,429 pieces were handled during Laboratory examinations for the month totaled 1,585, and for the first six months of the year 11,802.
