PARIS, Nov. 16 .- The situation revealed by the extraordinary case of a family named Unlaud who are unable to find a lanctiord to let an apartment in Paris to a family of eleven persons, was the of the chief subjects of discussion of the cabinet council meeting at the Elysee this week. The privilege that Paris possesses places the responsibility of settling the difficulties hands of the municipality, but the Cabinet also accepts it as the duty to treat the question in its national aspect. Accordingly, M. LOS ANGELES, Nov. 14 .-- Galbraith P. Rodgers, trans-continental aviator, who had such a narrow estape from death on Sunday evening when he fell into a newly ploughed field south of Compton, announced through his manager, H. Sanger, tonight, that he would finish his flight Tuesday afternoon.

"The injuries Rodgers sustained," continued Mr. Sanger, "are not so serious as we first thought. Three ribs on his left side were broken, the left side of his face was badly cut, and both and bruised. There was no internal injury, and none to the skull.

"Rodgers was at least 150 feet in the air when his engine stopped. H told me so. He said that in the darkness he could not see whether he was falling, and knew nothing a moment after he heard his engine stop until he awoke in the hospital yesterday.

Vessels to be Allowed to Pass Through Panama Canal Before Date Fixed for Formal Opening

NEW ORLEANS, Novi 14 .- Vessels will be allowed to pass through the Panama canal before the official date of the opening, which has been set for Jan. 1, 1915. This information is contained in a letter received today by L.

war to inform you that while the official date of the opening of the canal has been set for Jan. 1, 1915, it is the intention to allow vessels to utilize the

canal just as soon as practicable. Present indications seem to bear out the opinion previously expressed by the chairman and chief engineer of the Isthmian canal commission that this can be accomplished during the latter half of 1913, although it is too far in advance at this time to fix any definite date.
