WALL STREET GOSSIP.

Robert Cochran received the followg despatch from New York to-duy:
Traders were mixed last nightbut the general
sposition was to sell anything, it being agreed,
at all the hammering failed to bring out any
ng stock. There was some disappointment
it that Londen did not take more kindly to
se improvement here, but those who are best
formed say Europe is all right, and the daily
notations from I ondon mean nothing. The
tet is, Europe has recently been buying our
ands heavily; these transactions do not appear
the tape because the securities have not yet
sen felt, but the people who have sold securites are in a stronger position than ever before,
hey have the means to buy other mortgages is are in a stronger position than ever before, are have the means to buy other mortgages of properties. These are conditions which ust tell. The market may halt until people do out what Congress will do, but just soon as the first gun is fired at ashington look for a big speculation. Let e people know that Congress is inclined to be endly, and they will await no second invitant to go shead. A glance at the official list of e stock exchange for three months past will ow that the bears have not made any money.
