Thanksgiving Day as a rule opens out the winter season of fashon. We have always had a busy day in Millinery and Mantles the day pre-vious. To-day will we are sure be no exception. We've made great preparations for a large output of trimmed goods.our workroom being as busy a hive as you could see anywhere. The reason why we do so large a millinery trade is found in the fact that we've pulled down the prices to about one-half what other people used to charge before we opened in 202. We never use inferior trimmings, employ none but competent workers and yet sell you a hat or bonnet at an or-dinary everyday drygoods price. That's common sense applied to millinery. **MAYOR**, 1892 ECONOMY AND EFFICIENCY

land, Ohio, says: I was treated by Prof. Dr. Vance in the St. Alexis Hospital; he removed several enlarged glands that were breaking down in my neck. But the disease went on, more glands were at-tacked, till had a string of them extending down my neck into my armpit and into my left breast. They told mb it was cancer and once more pro-posed to cut them out. I got frightened and went to Dr. McCully. He injected those glands, gave me medicine and restored me to health and strength in five months. Here is a case of glandular tubercle. We have another now similar to this one but much worse. It too, was called sarcome or cancer by a man that is a dean of one of the medical faculties of this city. We aspirated this so-called cancer four days after he pronounced it sarcoma and found the matter filled with myriads of tubercular bacilitand we wrote him and suggested his use-funess as a doctor and feacher was gone.
