A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poisoning! Not one species of microbe has been found that Zam-Buk does not kill!

Then again. As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue, above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Co., and told them that for over twenty-five years he has been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c box, or we will send free trial box if you send this advertisement and a 1c stamp (to pay return postage). Address Zam-Buk Co., Toronto.

CANADA'S AUTHORESSSES.

Lethbridge Women Get Together to Improve Their City.

There is not a town or city in Canada that does not boast of some sort of woman's club. In some cities the Dominion women's organizations outnumber the clubs and associations where the sterner sex reign supreme. But to Lethbridge, Alberta, is given the credit for the first Woman's Civic Club in Canada. This club, "The Woman's Civic Club of the Lethbridge Board of Trade," held its initial meeting, with a charter membership of one hundred and forty names, and since that time scores of new names have been added. Every member of the club is a booster for Lethbridge, and the members of the club, which is an auxiliary to the Board of Trade, are working with their husbands, brothers, fathers and sweethearts in making a greater and better city.

The Lethbridge Board of Trade secured twenty-five thousand dollars to be used for publicly purposes for the year beginning May 1st, 1911, and a portion of this amount was given the new club to use as they deem to the best advantage.

Lethbridge is endeavoring to secure for 1912 the International Dry Farming Congress, which is the largest agricultural organization in the world. As this would mean thousands of visitors to the city, and the hotels could not begin to accommodate the crowds of delegates and visitors, the women of the club will, if the congress convenes in Lethbridge, open their homes to the visitors and persuade as many of their friends as possible to do likewise.

The day the initial meeting of the club was held, a petition was circulated and signed by 200 prominent merchants and business men of the city, asking the mayor to grant a half holiday, and those who signed the petition further agreed, if necessary, to go home and care for their children, so that their wives might attend the meeting. So great an interest was taken by the members of the Board of Trade that the officers and a number of the members of that organization showed their approval by attending the meeting.

The first thing the club decided to do after its organization was to wage a "Buy at Home" campaign. Each member pledged herself to buy her wearing apparel and family needs from the merchants of the city, who in turn promised to secure for the women of the city the smallest and cheapest article at the lowest possible price, and as quickly as possible, if they did not have in stock what was required.

The officers of the club are all representative women of the city, who are energetic and keen workers, alive to every opportunity given to help make a greater, larger and better city. The club's motto is, "Make Lethbridge a Spotless City." Several committees each under the supervision of a member of the executive committee carry on the various branches of the work of the club, which are Publicity, Buy at Home, Information, Moral Reform, City Beautiful, Welcome, Entertainment, Amusement, Finance, Departmental, Membership and Charity. These committees are being carried on along broad lines, and each committee is composed of several eager workers.

One of the principal aims of the club is a hearty greeting to every woman who comes to the city to reside. Realizing that women coming to a new city find it difficult to make acquaintances readily, and soon become discontented with their surroundings unless they make congenial friends, the club observes a "Strangers' Day" each month, when all newcomers are invited to come and have a cup of tea and become acquainted with the members.

Mr. Borden Kissed Her.

On her own admission, Miss Adrienne Beaudet, of 535 St. Patrick street, Ottawa, is the proudest girl in Canada since she was kissed on the cheek by Mr. B. L. Borden, the new Prime Minister of Canada, after she presented him with a bouquet of flowers on the night of the recent demonstration of welcome given him by the people of Ottawa.

The procession was passing Miss Beaudet's home when she stepped out to the side of the carriage in which Mr. Borden was riding and speaking in French, said: "I feel greatly honored to present to the new Prime Minister of Canada this bouquet of flowers. Will you please accept it with my best wishes?"

It was impossible for Mr. Borden to make himself heard above the clamor of cheering which the incident occasioned, so he did something more gallant when he leaned over and kissed her.

It was a pretty, chivalrous act, that immensely pleased the thousands who saw it.

Miss Beaudet is a young French-Canadian lady, 18 years of age. Her father is Mr. D. L. Beaudet, a contractor.

Sir Wilfrid as Historian.

London Daily Chronicle: Literature may be the gainer by the surprising result of the Canadian general election. Sir Wilfrid, such a long time Prime Minister for such a long time—a decade and a half—that many of us have forgotten that he was leader of the Opposition for nine years. Sir Wilfrid devoted his leisure to writing a "History of Canada" and the work was well advanced when he was called to power. Some years ago Sir Wilfrid stated that he had not been able to add a line since he became Prime Minister, that the manuscript was locked up in a cupboard, and that he reserved its completion for the "occupation of his old age." Some enterprising publisher might possibly persuade Sir Wilfrid to finish it now.

The Sagacious Wolf.

In the school of woodcraft and knowledge of how to keep out of danger wolves have no four-footed equals. The fox is a dunce in comparison, the coyote, prairie wolf, a fool, and the rest nowhere. The giant moose, king of the Canadian woods, is the most difficult of all the deer species to stalk in the fall months, but nevertheless it is often stalked successfully and shot by amateurs. Not so the wolf.—Wide World Magazine.
