Toronto, April 7th, 1910.

No change in prices of iron and steel goods can be announced as yet; but the dumping clause has been in operation in sheet steel since 4th April, and an advance may, therefore, be looked for in all black and galvanized sheets. A steady but not particularly brisk business is doing in metals; navigation being opened ten days hence, will likely cause greater activity. There is great movement in the States, for structural steel especially, the United States Steel Company being, it is said, behind in some of its contracts. There may, however, be a strategical reason for this.

this. The following are wholesale prices for Toronto, where not otherwise explained, although for broken quantities higher prices are quoted:
