

church, sufficient to accommodate 350 people. Subscriptions are accumulating, and a site will be at once granted by the Government. A grant by the Society of £50 will give very heartening encouragement, and will be of double value, since the Colonial Government will give an equivalent to what may be raised from other sources.

"The means also are available for the supply of one service every Sunday to about fifteen families resident in and near the village of Pamplémousses, about eight or ten miles from Port Louis, if a little chapel can be erected for their accommodation. They are very anxious to make the effort, and a small donation of £25 (with the Government aid) from the Society will help them on most cheerily."

The Board agreed to grant £50 for the church at Mahébourg, and £25 for Pamplémousses.

The Lord Bishop of Cape Town, in a letter dated P. Maritzburg, June 28th, 1850, wrote as follows:—

"At D'Urban, which is the port of the colony of Natal, a sum of £400 has been raised; and the inhabitants are anxious to proceed with the erection of a church to contain 250, as soon as ever they can obtain the requisite funds: but the people are poor, and the immigrants now flocking in, in considerable numbers, have scarcely sufficient means to supply their own immediate wants.

"The population of the place is rapidly increasing, and there will in all probability be, at no distant day, a large town there. I led the people to expect that the venerable Society would aid them in their exertions; and I should greatly rejoice to hear that such is the case. There is as yet no church in this whole colony, which is as large as Scotland, and the expense of building is very great. There are large tracts of unoccupied land between Natal and British Kaffaria, possessing many natural advantages, and well suited to the English agriculturist, which might easily be obtained. In fact, the Natal government has recently acquired a large tract of valuable land for one hundred oxen. At all events, it should be our endeavour to plant the Church in Natal, in the very infancy of the colony, that it may extend itself with the extension of British power and influence. There are not less than 115,000 heathens within this district alone, the greater number of whom have fled for protection from the cruelties of Paula, king of the Zulus. On each side of the district, beyond the British territory, there are perhaps 100,000 more. Scarcely any thing has yet been done for the conversion of these heathens. I am most anxious that the Church should at once found a Mission amongst them. Ere long I hope to propose a plan which will require some devoted men and additional means, if it is to be carried out. In a few days, I purpose starting in my cart for King William's Town, distant about 500 miles. I allow myself three weeks for my journey. If it please God to bring me to that place in safety, it will, I believe, be the first time that a cart and horses will ever have accomplished the expedition."

It was agreed to grant £40 towards the church at D'Urban.

Persons in that locality who are already subscribers, and have not received all their numbers, are requested to apply to Mr. Vincent.

CHURCH SOCIETY OF THE DIOCESE OF QUEBEC.

THE LAY COMMITTEE of this Society are prepared to pay half the cost of a few sets of ground-plans, elevations, working drawings and specifications, together with estimates according to the prices of labour and materials,—of Churches in brick and stone to contain not more than three hundred persons, provided that the plans &c., be approved by the Committee, and that they become the property of the Society: and the Committee hereby invite communications from Congregations wishing to build Churches of the description above mentioned.

THE CANADA LIFE ASSURANCE COMPANY.

INCORPORATED BY ACT OF PARLIAMENT.

HEAD OFFICE NO. 32, KING STREET, HAMILTON, C. W.

THIS COMPANY is prepared to grant ASSURANCES ON LIVES, whether single or joint, to sell Annuities, to purchase Reversions, and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data: and the Company is enabled, from its small expenditure, and the high rate of interest which money commands in Canada, to offer terms of assurance much more favorable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety permit.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its Funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which [and this is nearly a solitary instance] neither Great Britain nor the neighbouring States can fairly offer competition.

To parties who may at any time feel disinclined, or unable to continue the payment of their premiums, this Company will grant Policies payable at death fairly representative of the value of such payments as they may have made, and it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realised in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is that it is not desirous to make profits by lapsed Policies.
