

fall. This is very grieving to the true Missionary, as you will well understand. I know you will not forget Hazelton in your prayers during the coming winter. I have been alone during the last twelve days, but expect Mr. Field home towards Tuesday morning. He has gone to a village sixty miles higher up, to visit Mr. Stephenson, who took charge of Hazelton three years ago. Mr. Field has been very poorly of late, so we thought perhaps the tramp and change might do him good. I have felt very lonely, yet have been busy from morning till night. There are so many things to see to before the cold comes. We are hoping that we may not get a severe winter, and not much snow, as we have had such constant rain for weeks now. We are fondly hoping that a mid-winter mail may be given us by the Government.

E. FIELD.

INDIA.

This poor plague, famine, and war stricken country is so much before our members daily, that we feel sure no words of ours are needed to incite them to earnest prayer for its millions of people, Christian and heathen. God grant that ere long that latter title may no longer be needed to be used, but that all will be His in name, and heart and life.

MOOSONEE—Ven. Archdeacon Vincent writes, "I had to pay a once for the building at Montizambert we are going to convert into a chapel. The owner could not wait, and I had to appeal to Bishop Newnham for the money. Fortunately he was in a position to grant it to me. I am still battling to get up my other churches, 4 in number. I am going to make a greater effort this summer to push them forward. Last autumn, after returning home, I went to work and renewed the foundation, lower beams, floor and tower, of my own church. This was done with my own hands; my only helper was a young lad whom I am training. I have another, but he was suffering from hemorrhage at the time, and was quite unfit to do much work. We had to work hard, and as far as my experience goes I never worked harder in my life—\$150 would not pay for the work we did apart from the cost of material. Well, I have no money to spare for such work at Albany, but I did have what was next best, the will and power to do it myself. I secured a carpenter to go to Osnaburgh next summer, and build the church there. I am trying to get one for English River, and, God helping me, I shall do what I can for Martin's Falls and Fort Hope. I want, if possible, to raise one hundred dollars in England, heading the list by giving, myself, £20. In Canada I want to raise \$500, and want to take the lead again by giving \$50 out of my salary. What will come "to the help of the Lord against the mighty." [It will be remembered that Archdeacon Vincent began these Churches at his own expense, but the bank in which his money was, failed just after they were started, and he lost the \$1000 intended for them.—ED.]
