THE SILVER MOVEMENT AND MR WEIR.

WE regret to have to announce that owing to several circumstances the movement inaugurated by Mr. Weir for the exportation of \$2,000,000 of silver coin from Canada, after proceeding satisfactorily up to the end of March, with much benefit to those interested in it, has come to an untimely end. The principal cause of this has been the failure of a great number of the subscribers to the guarantee fund to pay up their subscriptions, and the consequent inability of Mr. Weir to meet the necessary losses involved in the shipment of the large amounts which have been already sent out of Canada.

Had Mr. Weir received the support to which he was entitled not merely morally, but legally under the contracts which he had made, this failure to carry out the scheme would hardly have taken place. It now remains to wind up the unsettled accounts, and it will be the least that ought to be done by those through whose carelessness in paying their subscriptions the scheme has miscarried, that they remit to Mr. Weir the amounts of those subscriptions for the eight weeks during which the shipments were going on, to help to cover his losses and enable him to repay to those who have paid in advance what has been overpaid to him.

We also regret to have to announce that in consequence of the failure of several houses here in which he was interested, Mr. Weir has been obliged to make an assignment for the benefit of his creditors. His liabilities, however, are small, and confined almost entirely to a few friends who advanced money to assist him to carry out the silver movement.

As soon as it became generally known that Mr. Weir had ceased to receive silver for shipment, the rate of discount went up nearly one per cent in one day, and brokers bought at 4 to 4½ instead of 3½ to 3, making it very evident that it was to his scheme the previous high value of silver was owing. There is at present little demand for coin, and the rate will probably go to 4½ or 4.

We may mention that it is the opinion of well informed brokers and men in business that but for the shipments, silver would have sold this winter at 6 per cent. discount.
