A BRIDE'S CONFESSION

"Yes, dear, I am married now, and George and I are keeping house in the loveliest flat on 6th St. Well, yes, we did get married somewhat suddenly. My health, you know, had for some time been very delicate, and Dr. Heavyfoot told mamma that he feared I would follow poor, dear sister Belle, who died three years ago from a wasting disease. Dear George was almost 'hateful Nelly Parker' say to her mother, 'I think that George Blauvelt is just too lovely for anything, and when the girl he's engaged to dies, I can't see why he is dying of a galloping consumption. I'm going to step into her shoes and become Mrs. George Blauvelt; now just you wait and see.' This spring I noticed George seemed to be almost resigned to the idea that we should never be married, and the thought that that devilish hussy might get him after all nearly drove me crazy. One day I read the testimony of Lawyers Howe and Hummel as to the wonderfully invigorating effect of DR. CAMPBELL'S ARSENIC WAFERS, and I resolved to try what they would do for me. I commenced their use on the 4th of July. George had just sailed for Europe on business for his firm. On Sept. 18 he returned. I was, from the use of the Wafers, by that time again a well woman, and so enraptured was he with my healthy and robust appearance that he insisted we get married the very next day. I could not say 'I do,' and, as you will see by my card, I am now Mrs. George Blauvelt. Do call soon and let me introduce George to you; I am sure you will like him, he is so handsome, and as good as he is handsome. Good-by; be sure not to forget."

THE DEY OF ALGIERS!
THE SHAH OF PERSIA and the SULTANS of TURKEY and MOROCCO now FATTEN and BEAUTIFY their harem exclusively on DR. CAMPBELL'S ARSENIC COMPLEXION WAFERS. So great is the demand for these marvellous Wafers that their manufacture is continued day and night.
"The Shah found his harem in a state of disorder on his return to Persia."—N. Y. World, Oct. 12, 1889. Reason—Their supply of CAMPBELL'S WAFERS was exhausted.
ILLUSTRATIVE of the desirability of a certain amount of Plumpness, rumour has it that the above distinguished Oriental Potentates make it a practice to WEIGH their wives regularly once a month, precedence in rank and imperial favour being accorded to the wife possessed of the greatest number of pounds avoirdupois.

After suffering with chronic rheumatism for several years, I was induced to try Paine's Celery Compound, and after using two bottles found myself greatly improved. In fact, after using three bottles, have not felt any rheumatism. Can conscientiously recommend it. Yours very truly,

CATARRH.
A New Home Treatment for the Cure of Catarrh, Catarrhal Deafness, and Hay Fever.

The microscope has proved that these diseases are contagious, and that they are due to the presence of living parasites in the lining membrane of the upper air passages and eustachian tubes. The eminent scientists—Tyndall, Huxley and Beck—endorse this, and these authorities cannot be disputed. The regular method of treating these diseases is to apply an irritant remedy weekly and even daily, thus keeping the delicate membrane in a constant state of irritation, accompanied by violent sneezing, allowing it no chance to heal and as a natural consequence of such treatment not one permanent cure has ever been recorded.—It is an absolute fact that these diseases cannot be cured by an application made oftener than once in two weeks, for the membrane must get a chance to heal before any application is repeated. It is now seven years since Mr. Dixon discovered the parasite in catarrh and formulated his new treatment, and since then his remedy has become a household word in every country where the English language is spoken. Cures effected by him seven years ago are cures still, there having been no return of the disease.—So high are these remedies valued, and so great is the demand for them, that ignorant imitators have started up everywhere, pretending to destroy a parasite—of which they know nothing—by remedies the results of the application of which they are equally ignorant. Mr. Dixon's remedy is applied only once in two weeks, and from one to three applications effect a permanent cure in the most aggravated cases. N.B.—For catarrhal troubles peculiar to females this remedy is a specific. Mr. Dixon sends a pamphlet describing his new treatment on the receipt of ten cents in stamps. The address is A. H. Dixon & Son, 303 King Street West, Toronto, Canada.—Scientific American.

Sufferers from catarrhal troubles should carefully read the above.

This patient's stomach was in such an irritable condition that he could not bear liquid or solid food.
