RELIGIOUS CEREMONY AT ST. JOSEPH'S CONVENT, TORONTO

No matter how often one witnesses a religious ceremony one is always impressed by it Perhaps it is the air of lieppy quet which pervades the sr. oundings and forms such a contrast to that spirit of restlessness so characteristic of this twentieth century; perhaps it is that the happiness of those who give themselves to God is reflected in the onlloker so that he feels himself strangely affected and and he is alomst led to envy the spirit which prompted the self-sacrifice of those young virgins in consecrating themselves entirely to the service of their Creator Such a spectator might well be impressed by the quiet ceremony which took place in St Joseph's Chapel ou Aug 15th, and at which only the immediate friends of the young ladies taking part were present. One young lady received the religious habit with the name Sister Mary Anicetus, and No matter how often one witnesses

After all had taken their places, His Grace, Archbishop O'Conner, addressed to the candidates an eloquent and instructive sermon on the obligations of the religious life.

After the habit was blessed and while the beautiful and touching words of the profession hymn fell on the cars of the listeners, the new sister left the chapel to be divested of her worldly attine and clothed in the some garb of the Sisters of St. Joseph.

When the Novices had made their profession in the hands of His Grace the Archbishop, Mass was celebrated and thore who had taken part in the ceremony scaled their offering by the reception of that Divine Spouse, to Whom they had just given themselves.

At the conclusion of the Holy Sacrifice the "Te Deum" was intoned, and although only the choir gave utterance to the words, every heart joined in the sentiments of praise to God for the wonders He had wrought in His Chosen souls.

THOSE CONCENTRATION CAMPS.

London, Aug 31—(I. N. Ford cable.)—A painful report is published by Th. Standard, from its special correspondent at Pretoria, on the subject of the health of the refugee camps in the Transport Of 62 to them. respondent at Pretoria, on the adject of the health of the refugee camps in the Transvaal. Of 62,479 men, women and children, collected under British supervision, 1,067 died in July, and 860 of these were below the age of twelve. The Standard report, as a matter of fact, largely bears out Miss Hobbouse in her contention that the terrible death rate among the Boer children has been in a measure due to the aggregation of great numbers in camps. The insanitary habits of the Boers are probably comparatively harm'ess to a scattered pastoral population, but when refugees are c Judded together under entirely new conditions the difficulties of indusing mothers to observe the ordinary rules of hygiene may well lead to disaster.

CARDINAL SATOLLI AND THE PLAIN CHANT.

The Rome correspondent of The New York Freeman's Journal says: The question of plain chant is attracting a great deal of attention in the Catholic press and in ecclesiastical circles ever since the Holy Father wrote his brief to the Abbot of Solesmes, approving of the labors of the French Benedictines in restoring the Gregorian Chant to its primitive purity and beauty. It is one of the most important questions before the religious world today, and another great impetus has been given to the work of reform during the last couple of weeks by a very weighty document, which Cardinal Satolli, Prefect of the Congregation of Studies, has addressed to the professor of the history of sacred music at the International University of Freiburg. Prof. Wagner has asked permission of the Holy Father to have the new Academy of Gregorain Chant, about to be established in the above

mentioned university, known as the Leo XIII. Academy. His Eminence, replying in the name of the Sovereign Pontiff, declares that the Holy Father has received the request with much pleasure, inasmuch as the proposed institute "will be the means of adorning the divine worship and inspiring priests and clerics with a greater love for the sacred liturgy which is so closely connected with the venerable chant of the Roman Church."

Cardinal Satolli then proceeds to remind Prof. Wagner of the brief recently addressed by the Holy Father to the Benedictines of Solesmes in favor of the Gregorian melodies, after which he makes the following significant statement: "I can assure you that highly pleased as the Holy Father has been with the restoration of the philosophy of St. Thomas, to which the faculty of Freiburg has so splendidly contributed, he is equally rejoiced at the prospect of the restoration to its primitive purity of the liturgical chant — that important part of the discipline of the Roman Church." cently addressed by the Holy Father
