

Three Ages of Women--Third Stage

The menopause or climacteric is an epoch in the sexual life of woman defined by some authorities as *the* critical period. The secession of the menstrual flow should be normal but unfortunately most women suffer from circulatory, nervous, digestive and pelvic derangements.

Headache, Vertigo, Hysteria, Neuralgia, Melancholia, Hot Flashes with sensations of fullness or weight in the pelvis are the usual manifestations. In these cases a remedy which will tend to normalize the circulatory and nervous disturbance without creating a dangerous drug habit is the desideratum. Such a product is

HAYDEN'S VIBURNUM COMPOUND

which contains no narcotic nor habit forming drug.

For twenty-six years this remedy has stood the test of time in the treatment of diseases of women such as Amenorrhea, Dysmenorrhea, Menorrhagia, Metrorrhagia and the irregularities incident to the menopause.

It is the standard by which all other viburnum products would measure, therefore as an assurance of definite and satisfactory therapeutic results, it is necessary that you specify HAYDEN'S and that no substitute be given.

Literature upon request and Samples if express charges are paid.
