TRADE MARK.

ENGLISH MANUFACTURE.

Guaranteed to answer the strictest tests of the British Pharmacopœia.

IN 1 LB. BOTTLES.

NOTE.—The Medical Faculty may rely with confidence on our chloroform, which has never failed to give the utmost satisfaction.

EVANS' LIQUOR SANTAL FLAV. CO.

DOSE.—One to two drachms in water.

THE now well-known valuable and almost specific properties of OL. SANTAL FLAV. in the treatment of those diseases for which Copaiba was so long held supreme, are in this elegant combination with CUBEBS and BUCHU greatly enhanced, while the generally experienced difficulty of administering it, except in the form of Capsules, is overcome by a novel pharmaceutical process which renders

EVANS' LIQ. SANTAL. FLAV. COMP.

perfectly miscible with water, pleasant to the palate and easy to take, as it causes no disagreeable eructations like Copaiba. This preparation has proved, when administered in severe cases of Gonorrhœa, and especially in obstinate Gleet, invaluable as a remedy for those tedious complaints; while in advanced stages of chronic Gleet it is especially indicated as a curative agent.

EVANS' FLUID EXTRACTS

PREPARED BY

REPERCOLATION.

In the preparation of these FLUID EXTRACTS by REPERCOLATION with Menstrua at the normal temperature, any injurious action on the active principles existing in the crude drugs is entirely avoided, and a more uniform and active preparation is obtained than is possible by the official process where evaporation by heat is necessary. Each drug is treated with the menstruum, found by experience most suitable for extracting the whole of its active and valuable matter, so that 16 fluid ounces of our Fluid Extracts fully equal in medicinal value 1 pound of crude drug.

EVANS' EXTRACT ERGOTÆ FLUID.

This important Fluid Extract is prepared by us from the finest selected Ergotæ. As the latter keeps better as Fluid Extract than in any other form, we feel confident, that with the care and attention bestowed on it, this preparation will be found equal in activity with the fresh powder.
