*A Pocket Text-Book of Chemistry and Physics.* By WALTON MARTIN, M.D., and WILLIAM H. ROCKWELL, JR., A.B., M.D., of the College of Physicians and Surgeons, New York. In one 12mo. volume of 366 pages, with 137 illustrations. Just ready. Philadelphia and New York: Lea Brothers & Co. Cloth, \$1.50, net. Flexible red leather, \$2.00, net.

This very compendious volume contains everything in Chemistry and Physics necessary for the medical student, and therefore more than covers the requirements of the practitioner who may wish to look up forgotten points without the labor of searching through larger works. It is all meat, unencumbered with matters not germane to medical purposes. Not only has a wise judgment been exercised as to the subjects admitted, but also as to the extent to which they are treated. Specially full consideration is accorded to those compounds which are of medical interest either therapeutically or physiologically. The volume is amply illustrated and is issued at an exceptionally low price, characteristic of the Series of Pocket Text-Books, in which it is the eighth already published of the sixteen which are to cover medical science.

*A Text-Book of Practical Therapeutics:* With especial Reference to the Application of Remedial Measures to Disease and their Employment upon a Rational Basis. By HOBART AMORY HARE, M.D., Professor of Therapeutics and Materia Medica in the Jefferson Medical College of Philadelphia. With special chapters by DRs. G. E. DESCHWEINITZ, EDWARD MARTIN and BARTON C. HIRST. New (8th) edition. In one octavo volume of 796 pages, with 37 engravings and 3 colored plates. Cloth, \$4.00; leather, \$5.00, net. Lea Brothers & Co., Philadelphia and New York.

Practitioners as well as students will be interested to hear that still another edition of *Hare's Practical Therapeutics* is at their service. Eight large editions have been demanded in a little over nine years and as the author has utilized each opportunity to the full, his book has become synonymous with up-to-date knowledge
