#### END OF ROTATION

37. Some people say that even if all the governments and people do everything they can, the situation in Africa may not improve because the climate of that part of the world is changing and there may never be enough water there.	DROUGHT WILL NEVER END .....	1	(26%)
	DROUGHT WILL EVENTUALLY END .....	2	(73%)
	NO OPINION (VOLUNTEERED) .....	3	( 1%)

Others says that this drought, like others in the past, will eventually end and Africa's prospects will be good if the governments and people of the world do everything they can to help.

Thinking of these two points of view, which one of them best reflects your own?
