

History of the Huguenots.

The Huguenots: their Settlements, Churches, and Industries in England and Ireland. With an Appendix relating to the Huguenots in America. Crown 8vo, Cloth, Beveled, \$1 75.

The author has given his subject the most thorough investigation. Drawing his material only from the best authenticated historic sources, he has followed the accounts of the most impartial writers in regard to the persecutions of the Huguenots on the Continent of Europe. Respecting their sojourn in England Mr. Smiles narrates much that is entirely new and of great interest.—*Philadelphia Inquirer*.

The wonderful story is told with spirit and accuracy, and in a better manner than ever before it was told. The reader is enabled to follow the course of events with pleasure, so lively and effective is the style of the exciting narrative. Seldom has so much valuable matter been placed between the covers of a single volume as we find in this; and the opinions of the author are as sound as his statements are trustworthy. The work is written in a philosophical spirit, and helps the reader to a just understanding of the bearing of the great events the history of which is told on other and later events that are even more important. As an instructive work, it would be difficult to name the equal of this.—*Boston Traveller*.

Mr. Smiles has never had a subject more intimately connecting what is greatest in the stir of mind with the establishment of new forms of industry than in this account of the settlement of the Huguenots, who left France after the Revocation of the Edict of Nantes, costing her, it is said, a million of her best subjects.—*Examiner*.

Round the World.

Round the World; including a Residence in Victoria, and a Journey by Rail across North America. By a Boy. Edited by SAMUEL SMILES. With Illustrations. 12mo, Cloth, \$1 50.

How the book came to be written is as follows: The boy, whose two years' narrative forms the subject of these pages, was at the age of sixteen seized with inflammation of the lungs, from which he was recovering so slowly and unsatisfactorily that I was advised by London physicians to take him from business and send him on a long sea voyage. He was accordingly sent out to Melbourne. It will be found from his own narrative that for a period of about eighteen months he resided at Majorca, an up-country township situated in the gold-mining district of Victoria.

When his health had become re-established he was directed to return home; and he decided to make the return voyage by the Pacific route, via Honolulu and San Francisco, and from thence to proceed by railway across the Rocky Mountains to New York.

While at sea the boy kept a full log, intended for the perusal of his relatives at home. He had not the remotest idea that any thing which he saw and described during his absence would ever appear in a book. But since his return it has occurred to the Editor of these pages that the information they contain will probably be found of interest to a wider circle of readers than that to which the letters were originally addressed; and, in that belief, the substance of them is here reproduced, the Editor's work having consisted mainly in arranging the materials, leaving the writer to tell his own story as much as possible in his own way, and in his own words.—*Extract from Preface*.
