—Main Floor.

FEWER ALDERMEN UNDER THIS PLAN

Controller O'Neill Would Elect Civic Representatives at Large.

ABOLISH COMMITTEES

And Do Away With Sectional Representation in Council.

Controller John O'Neill has a plan to reform the civic government. He would reduce the number of aldermen to 12 or 15 and have them elected at large by the whole body of ratepayers. He would abolish committees and have all petitions addressed direct to the secretary of the board of control in order that the incessant "footling" of all such matters between committees, commissioners and other civic bodies would be stopped.

"There are a number of reasons why reform in the civic government is necessary," said the controller. "Some people say there is patronage and favoritism at the city hall. There is also a clamoring in both the east end and the west end for additional representation. Ward seven wants another alderman and ward one wants to be divided so that it can have three additional representatives."
"I feel that to add more aldermen to the already cumbersome government of the city would not be as effective as to reduce the number of aldermen to 12 or 15, instead of the 24 suggested.

I would have both the controllers and the aldermen elected at large. This would do away with sectionalism and independent legislation and would also simplify the civic procedure. All deputations would appear before the board of control and all petitions would be sent to the secretary of that body. He would send them on to the heads of the departments for the report, and when the city council deals with them they would have all the necessary information at hand. We could thus dispense with standing committees. It would not be necessary, as at present, for applicants to appear before a committee, then before the council and finally having their petitions referred back for a report."
More Work for Ratepayers.
"This plan would have the added feature of placing every alderman on the same basis as the controllers as far as prestige in the city is concerned," said Controller O'Neill, "and would make them proper aspirants for the board of control for the same reason." The controller thinks that under his plan the influence of the citizens' committees and ratepayers' associations throughout the city would be greatly increased. They would deal with matters affecting their own sections of the city and would present their case to council. The aldermen would be able to judge each proposition on its merits as it affected the city on the whole and vote accordingly.

The controller had thought of bringing his plan before the city council this year, but owing to the war he will leave the matter in abeyance for a while. He also has another reform which he intends to work for, and that is the abolition of election cards, posters, doggers, etc. "Newspaper advertising is the only kind that is worth while during an election," said Controller O'Neill. "If every candidate were on an equal basis all would be only too glad to dispense with the unsightly posters plastered up all over the city."

To clean silver-topped bottles and dressing table accessories mix a little and rub the silver tops smartly. They will soon look brighter than ever.

LEGISLATURE TO OPEN WITHOUT ELABORATION

Money Usually Expended in Festivities Will Be Devoted to Other Purposes.

There will be no frills or festivities in connection with the opening of the Ontario Legislature on Feb. 5, and the money which has gone in years previous to the war, will be devoted to sending comforts to the soldiers from Grey County, according to Hon. Dr. Jamieson, Speaker of the Legislature.
Simplicity is to mark the entire proceedings, it is said, and there will be no display. A military escort will be provided for Lieut.-Governor Sir John Hendrie, which will in all probability, be chosen from among the units now at Exhibition Park Camp. "The women have decided not to indulge in new fashions and are not ordering new dresses this year," said Hon. Dr. Jamieson yesterday. "This will set a good example throughout the province in these days of conservation and saving."
It is understood that in every way the ceremonies will be conducted much after the same method which prevailed last year. There will, of course, be the state dinner at Government House.

RIFLE WAS DISCHARGED

Flyer at Mohawk Camp Accidentally Killed by Comrade.

Special to The Toronto World. Belleville, Jan. 17.—Cadet Vernon Stoddard died this morning in the General Hospital here as the result of a wound received on Wednesday afternoon at Mohawk Aviation Camp near Deseronto. Details seem to be that a member of the flying corps was handling a loaded rifle in a room at the camp when it was discharged. The bullet passed thru a thin partition and struck Cadet Stoddard in the back. He was 24 years of age and came here from eastern Canada.

GARBAGE FOR SWINE

In nearly all our towns and cities a portion of the refuse from kitchen is being used as feed for swine. In these days of stress and food shortage closer attention should be paid to the utilization of garbage for this purpose. To those interested in this matter, particulars regarding garbage feeding at Worcester, Mass., and Grand Rapids, Mich., where it has been conducted for several years, will be sent upon application to the commission of conservation, Ottawa.

RESIGNATION IS FINAL

Rev. R. J. M. Glasford Withdraws Services as Director of Religious Education at Knox Church.

Rev. R. J. M. Glasford has tendered his resignation after six years' service as director of religious education at Knox Presbyterian Church. A large majority vote declined to accept the resignation, but on a report from a committee which had been appointed to wait on Mr. Glasford, the resignation was found to be final. A three months' honorarium was agreed upon and the resignation will take effect Feb. 30.
In his explanation, Rev. Mr. Glasford stated to the committee that he wished to make way for the engagement of a co-associate to the minister, Rev. A. B. Winchester, and regarded his own task with the Sunday school and kindred organizations as completed.

COMPANY AWARDED DAMAGES.

In the county court yesterday afternoon Judge Denton awarded the West Toronto Metal Company \$152 in the claim for \$202 against J. Kroenow for balance due on some second-hand soda bags supplied by the defendant. The defence was that all the bags had not been supplied.

POTATOES, TWO DOLLARS

Erin Farmer Offers Hundred Bags at That Price to Anyone Going After Them.

Under the heading of "Potatoes," The Milton Reformer publishes the following article:
"Dear Sir: Some complaints in your paper about farmers holding their potatoes. Send a man and team to Lot 1, Con. 10, Erin, and you can have from fifty to one hundred bags any fine day at \$2 a bag. We offered these potatoes at digging time at \$1.10, but could not sell them, so we put them in the cellar."
G. T. Rogers.
R. R. No. 1, Glenwilliams.

TORONTO EISTEDDFOD.

National Institution of Wales Becomes Annual Event in City.

Lovers of music, literature and art will be interested to know that the Toronto Eisteddfod, which has become an annual event, will be held Saturday of this week in the assembly hall of the Central Technical School. At the afternoon gathering the Rev. Trevor Davies will preside, and in the evening the premier, Sir William Hearst, the influence in the national institution of Wales, symbolizing the traits and aspirations of the Welsh people.
A local Eisteddfod has been held in Toronto for several years. From a small gathering of Welsh people it has grown into an institution which is spreading its influence in the endeavour of the things which uplift and enrich life. The number of entries for the various competitions this year is most satisfactory. Thirteen choirs have entered the lists in the children's choir competition. The time-honored custom of chairing the winning bard was observed last year for the first time in Toronto. The competition for the chair is this year most keen, and the chairing promises to be an event of great interest.

JOLIFFE COMMITTED ON MURDER CHARGE

Held Responsible for Death of Marion Stone—Dr. Turner Will Also Be Charged.

Without a word of evidence being taken Norman Joliffe was committed for trial in the police court yesterday morning on a charge of murder in connection with the death of Marion Stone who died recently in the General Hospital. Magistrate Denison was opposed to a committal without hearing some of the evidence, but Crown Attorney Corley assured him that it would be all right, while R. T. Harding, counsel for Joliffe, was eager for the committal, as then he would be able to make application thru the high courts for bail for his client. The magistrate finally consented to allow the committal.
The charge had been changed from manslaughter to murder.
Dr. Turner will also be charged with the same offence when he leaves the hospital.

A SMALL GRAND PIANO.

The grand piano is the usual choice of musicians and music lovers. The only objection is that owing to its size it is hard to accommodate it in the average drawing room. The Old Firm of Heintzman & Co. Ltd., Heintzman Hall, 193-195-197 Yonge street, have overcome this objection in their miniature grand. A demonstration may be had at any time at the firm's beautiful showrooms.

BRADSHAW DIFFERS.

A few days ago the mayor made the statement that the cost of administering the city's business had been cut down from 9 mills on the dollar of the assessed value of the city to about 6 1/2 mills. Yesterday, however, Finance Commissioner Bradshaw expressed the opinion that the amount would be about 9 mills. "I do not see how it could be much lower," he stated.

CHINAMEN DO MAKE GOOD ON THE FARM

Statement of General Superintendent Massey-Harris Co. Concerning Coolie Labor.

The general superintendent of the Massey-Harris Co., King street, in the course of an interview yesterday stated that Chinese did make excellent farmers as has been well proven both in British Columbia and California. The question before the farmers today was one both of economics and standard of living, and if the Chinaman was not wanted by the farmer it was due to the difference in racial standards and not to the Chinaman's lack of qualifications as a farmer.
Touching upon the projected importation of Chinese into the country Mr. Verity felt unable to give an opinion except that perhaps the Canadian Government was more conversant with the situation than he himself, and many others. The Massey-Harris firm did employ Chinese, it was true, but not more than 200 at the outside.
John Vick, business manager of the Bricklayers' Union, vigorously opposed the employment of other Chinese or aliens, conscripted or otherwise, and felt that the farmer could use his energies best in a census of the farmers' sons and boys (the farm laborers now engaged in Toronto and other centres of industry). "If they did, and the government followed their suggestions," said Mr. Vick, "the big plants in the city might lose a few score men and the farmers might produce more wheat and corn."

The Red Cross Society not only bandages the mutilated soldier, but since the Germans, when retreating, cut down or mutilated many of the fruit trees in France, it has bandaged and saved many of these trees.
