KOHN BROTHERS
NEW YORK AND CHICAGO

Gough Bros. are the exclusive sellers of their line in Toronto. No other clothiers in this city will show you Lord Lovat. Your tailor may, but it will cost you twice over price. The vital points in Men's Clothing are the **shoulders and neck.** Ⓢ The K. B. shoulder solves the problem: gives the broad perfect shoulder, the close-fitting garment on the neck. Ⓢ Your tailor couldn't do more. When we tell you that with our ready-to-wear clothing we can equal the work of your favorite tailor you may wonder how and if we really can. The reason is every part of the suit is made by an expert on that particular garment; the coat, the vest, the trousers, and thus a suit is made perfect in every seam and fold. Ⓢ Your tailor may be an expert coatmaker and poor on trousers, or the reverse. Ⓢ So perfect is the system employed by Kohn Brothers that they employ men for every part of the work—expert cutters, expert tailors for coats, for vests, for trousers. Only those who excel on the particular garment they work exclusively on. Ⓢ This is reasonable, isn't it? Now come and see. Ⓢ We are the exclusive sellers of this Clothing in Toronto.

Opening of Pure Food Show at Massey Hall—Visitor Can Live on Samples for a Day.

The Pure Food Show, which will continue at Massey Hall for two weeks under the auspices of the grocers' section of the Retail Merchants' Association, was formally opened yesterday afternoon in the presence of an encouraging crowd. Some forty booths have been constructed on the main floor, and while the decorations have not been completed in all cases, the effect is pleasing. Great pains have been taken to present the goods attractively, and the seductive samples given by pretty girls are well worthy of a close inspection.

On the platform yesterday were: George Gledhill, Mayor; Hugh Blair, Hugh Blair, Ald. Hays, McBride, Church, Costaworth, and Vaughan, S. Corrigan, P. C. Higgins, M. Moyer and E. M. Trueman, secretary.

The chairman spoke of the objects of the similar section, to safeguard the public from fraud and deception arising from impurities in foods, and to promote legislation to prevent the manufacture and sale of adulterated goods. The contents of the show were not to be made plain. There were now too many imported foods, and this was not to be made plain. There were now too many imported foods, and this was not to be made plain.

After the opening, a concert was given by Harry Bennett and the "Ladies' Lyceum" of Detroit, which includes a number of soloists, vocal and instrumental.

A similar program will be given every afternoon and evening during this and next week.

FOUR YEARS FOR CLARK

Other Prisoners Get Their Deserts From Magistrate Denison.

John Clarke, who had a number of convictions for housebreaking and stealing, was sent to the penitentiary for four years by Magistrate Denison. His pal, Edward Wardhouse, got off with six months in the Central Jail. "Jim" Daly, of York-street, was sent to jail for four months for dispensing liquor without a license. Altho James swore he had sold out his "diver" to a "perfect lady" a short time ago, the magistrate would not believe him. Dan Sharpe, the mayor of "Corktown" was charged with stabbing Thomas Finn. He was remanded until the 10th.

Thirty days and forty nights for Joseph Frankel, who pleaded guilty to keeping a house of ill-fame.

Four Small Estates.

John Wegg, Markham Township, left an estate valued at \$15,717. Of this \$12,000 is in land. The son, Philip Wegg, gets everything excepting the house and garden, which goes to the widow. Administration has been applied for in the estate of Mary Robb, Markham Township, valued at \$120.

William P. Sutton, Toronto, died intestate. His estate is valued at \$572.

He left a widow and infant child. Robert H. Smith is applying for administration on their behalf.

The estate of Leonard George, Toronto, is valued at \$284. Alexander street Baptist Church will receive \$100 for burials; \$100; British and Foreign Bible Society and Grand Ligne Missions Society, \$50 each. The remainder will be divided between three heirs.

The Merchants' Mangle Mfg. Co.

The sale of the assets of this company, consisting of the manufactured goods, such as coats, waists, the woollens, linings, plant, furniture, etc., amounting to about \$25,000, ordered by the high court of justice to be sold in detail by Suckling & Co., by auction to the trade, commences this morning at 10 o'clock at 88 East Wellington street, Toronto.

Temagami.

The new region for the tourist and pleasure seekers here and about, by the high court of justice to be sold in detail by Suckling & Co., by auction to the trade, commences this morning at 10 o'clock at 88 East Wellington street, Toronto.

Will Ranch Near Tipton, Nov.

The license of the Groverhouse Nov. has been transferred to Albert E. Campbell, a well-known C.P.R. conductor.

CANADA GETS FREE TRADE
UNCLE SAM GETS NOTHINGThat's the Way Senator Hansbrough
Sizes Up Wheat Drawback—We
Don't Need Reciprocity Now.

Washington, April 3.—"Tariff readjustment is dead," according to a state ment by Senator Hansbrough to a representative of The New York Tribune Bureau to-day. Senator Hansbrough, despite the fact that he is an ardent protectionist, believes that the time has arrived when certain tariff schedules should be revised, but he is convinced that the drawback policy of Secretary Shaw will so far revolutionize the administration of the existing tariff law as to prevent the success of the protectionist policy of securing some modification of the Dingley law by the next congress.

Speaking of Secretary Shaw's drawback order extending the drawback privilege to wheat millers the senator said:

"Secretary Shaw's wheat order was based on an erroneous assumption of the error of which should have been known to the secretary, who is a western man. Outrightly the secretary assumed that domestic millers are obliged to go to Canada for hard wheat to be used in export flour, and that, of course, the specious pretext on which the millers claimed the drawback privilege. The fact is that the Canadian wheat is sold at 25 to 20 cents a bushel cheaper. The disparity in price is greater now than for several seasons past, due to the short crop in the United States last year. The total production of wheat last year amounted to 552,000,000 bushels, which is \$5,000,000 bushels less than in 1903 and 190,000,000 bushels less than in 1901. Because of this shortage there was little surplus wheat for sale abroad, and American grain growers, thus relieved from competition with the grain of the world, were receiving the full benefit of the protective tariff of 25 cents a bushel until Secretary Shaw, by his peculiar method of tariff revision, granted permission to the millers to bring in foreign wheat to be ground into flour for export. Since then American wheat has fallen in price from four to six cents a bushel, all for the grain of the manufacturer.

Thinly Disguised Subterfuge.

The millers assert that they must have Canadian hard wheat to blend with domestic soft wheat for the manufacture of flour for export, but this is a thinly disguised subterfuge. The hard wheats are always higher in price than soft wheat, and the higher priced wheat is never paid in export flour, which must be sold in the world's markets in competition with the cheap flour of the world. Yet, under the treasury department's remarkable policy, it is sufficient if the miller swears he has used a high priced wheat to make a low priced flour. The department will go through the form of supervising the operation, but it will never be able to follow a given quantity of wheat through miles of elevator shafts and spouts or to locate it, even by chemical analysis, in the completed article.

No Reciprocity.

"Is there, in your estimation, any demand for or likelihood of reciprocity in Canada?"

"There will be no reciprocity treaty with Canada and, so far as Canada is concerned, none is necessary. Canada is now receiving greater benefits under Secretary Shaw's tariff policy than would be possible under any reciprocity treaty. Last year exported six million million barrels of flour. If the secretary's order had been in force last year nothing would have prevented the millers of the country from claiming that all this flour contained imported wheat. About four bushels of wheat are required to make a barrel of flour. Suppose they could have claimed that there were used two bushels of imported

wheat to the barrel. This would have meant a rebate of duty amounting to \$3,000,000. Could there be devised any scheme of reciprocity of greater advantage to Canada? Under the drawback law, as now interpreted, Canada gets the advantage of free trade for her greatest product. We get nothing in return from Canada, but we have the glorious privilege of making cheap flour for foreign consumers, at the expense of the American grain grower. It is not surprising, therefore, that Canada, about the time that Secretary Shaw announced his tariff revision policy, rejected the invitation of Senator, now Vice-President, Fairbanks, to reassemble the high joint commission, Sir Wilfrid Laurier, the Canadian minister, knows a good thing when he sees it."

WALKER'S TO ENLARGE.

Walkerville, April 3.—Hiram Walker & Son contemplate erecting a monster distillery, which will be the largest in Canada. Plans for the erection of a capacity warehouse to hold 400,000 barrels have been completed, and one to hold 25,000 barrels will shortly be built. The expenditure will be about \$300,000.

Ill-Cooked Breakfast; Fatal Result.

Little Valley, N.Y., April 3.—Lester Henry, aged 24 years, shot and killed Levi Peters, aged 50 years, and seriously wounded Amos Obidiah and Lafayette Thompson to-day at a wood chopping camp near here. Henry was a boss and trouble arose about the cooking of the breakfast.

All were from the Tuscarora Indian reservation, near Lewiston.

George Month of the Month House.

Lake Rousseau, is in the city arranging business for the coming summer.

SPRAINED SPINE AND DIES.

Attempt to Prevent Wheelbarrow Upsetting Kills Boy.

Walkerville, April 3.—Nine-year-old Alfred Robinson died to-day as the result of a peculiar accident.

A month ago, while trying to keep a loaded wheelbarrow from tipping he sprained his spine so severely that his brain became affected.

Nothing could be done to save his life.

ASSIGNED FORTUNE CIRCULATING.

Pittsburg, Pa., April 3.—Secret service men are after Baltimore & Ohio Railroad employees supposed to have \$150,000 in United States bank notes. These are not signed, and it was supposed they had been burned in a Baltimore & Ohio wreck about a month ago, in a mail car fire.

The bank notes have been traced thru Connellsville, Hyndman and Meyersdale, Pa., and crisp, new, unsigned bills have been traced in Cumberland, Md. Those who have accepted the money have mostly been boarding-housekeepers.

The bills are identified by being slightly burned on the ends.

Temporarily Repeated.

St. Petersburg, April 3.—An imperial manifesto was published in the Finland Gazette to-day, directing that, in compliance with the request of the Finnish estates, the military service law for Finland, issued July 1901, be temporarily repealed pending legislative settlement of the question.

Canal Openings.

Ottawa, April 3.—The department of railways and canals has arranged for the opening of the Welland Canal on the 24th inst. The St. Lawrence and Quebec canals will be opened May 1.

UNIFORM FISHING LAWS.

Minnesota Will Bring Matter to Attention of Canada.

St. Paul, April 3.—Two appeals, one from Gov. Frank M. Higgins of New York, the other from Gov. C. J. Bell of Vermont, have been addressed to Gov. Johnson asking him to appoint a committee from Minnesota to confer with representatives from all the states which have bodies of water in common with Canada in order to secure uniform laws relative to fishing in those waters.

During the last few years the friction between the Canadian fishermen and the New York and Vermont fishermen has been very great. This has been especially true in the waters of Lake Champlain because of the laws in New York and Vermont which prohibit any form of net fishing. There are practically no laws in Quebec for the protection of fish.

The Canadian fishermen descend on the fishing fields during spawning seasons, and it is claimed that the lake is well stocked with fish.

All the governors of the states bordering on the northern boundary of the United States have been asked to appoint committees to confer as to the best manner to bring the matter to the attention of the Canadian government.

The matter has already been referred to President Roosevelt to the secretary of state.

Burned Himself to Death.

Portland, Ore., April 3.—After building a bonfire of magazines and papers in a cabbage patch near his home, Mrs. Charles Hommers saturated her clothing with kerosene, and, lighting them from the fire, deliberately burned herself to death.

Blood of Iron, Nerves of Steel.

Iron is the Element From Which Rich Blood is Made—Everybody Can Take Iron as it is Combined in Dr. Chase's Nerve Food.

Put iron in the blood. This is the only means by which weak, watery blood can be made rich and nourishing.

And the only way by which new vigor can be put into wasted and depleted nerves. "Blood of iron and nerves of steel" are words which are true literally as well as figuratively.

The medical profession found out the value of iron as a blood-builder and nerve restorative many years ago.

Science to-day has nothing to take its place. But science has succeeded in combining iron with other ingredients of restorative value, so that its action on the system is gentle and natural, such as not to disturb the most delicate stomach.

This is exactly what has been done in the preparation of Dr. Chase's Nerve Food.

As a result, there is no medicine before the public to-day which so thoroughly restores and builds up the system when wasted by disease, overwork or the debilitating effects of spring.

Put iron in the blood by the use of Dr. Chase's Nerve Food, and you will instill into the system the vigor and vitality which over-

Symptoms:

Paleness of Face.
Languid Feelings.
Brain Fog.
Headache.
Neuralgic Pains.
Shortness of Breath.
Muscular Weakness.
Wakefulness at Night.
Inability to Concentrate the Mind.
Lack of Energy, Ambition and Strength.
Irritability of Temper.
Discouragement and Despondency.

come weakness and disease and replace discouragement and despondency with new hope and confidence.

Spring has no terrors to one whose blood is made pure and rich and life-sustaining by the use of Dr. Chase's Nerve Food.

Iron in the blood means a healthful glow to the complexion, a building up of new muscle and new vigor to the action of every organ of the body.

Dr. Chase's Nerve Food is not offered to you as a means of temporary relief, but by its exceptional restorative power it brings about results which are lasting and beneficial.

It cures by the building-up process—the only natural and satisfactory method of curing chronic ailments.

By noting your increase in weight while using Dr. Chase's Nerve Food you can prove that new flesh and tissue is being added to the body.

This is the most severe test to which any restorative medicine can be put, and you are invited to make this test because we know that Dr. Chase's Nerve Food will "make good." That it has made good in many thousands of cases is evidenced by the strong letters of testimony on file in these offices.

Dr. Chase's Nerve Food

The great blood-builder and nerve restorative. 50 cents a box, 6 boxes for \$2.50, at all dealers or EMMANUEL, BATES & CO., Toronto. Dr. Chase's Kidney Live Pills act directly on the liver, positively curing biliousness and constipation.

A FATAL ERROR

A man steps into your office, draws up his chair, and talks right into your face. His breath is offensive. Your only thought is how to get rid of him and his business. You cut him short with, "I am not interested."

SOZODONT

is essential to one whose breath is not pure and sweet. Penetrating the little crevices, it deodorizes, sweetens and purifies them, and makes you feel gentle and clean-out.

3 FORMS: LIQUID, POWDER, PASTE.

MEMBERS MARKING TIME

WAITING FOR ESTIMATES

Very Little Business for Legislature to Transact, Pending the Estimates.

Very little business of importance was transacted during the brief session of the legislature yesterday afternoon.

The session was a slim house and until the estimates are brought down, which may not be till Tuesday of next week, the members will be idle. Meanwhile the cabinet is working overtime, revising the demands of the various departments, and to say the least, Mr. Torrance (North Port) seeks an amendment to the Municipal Act. At the present time the bill is a compulsory exemption of property assessed for sidewalk as a local improvement from general rates at the rate of 60 per cent, and the object of the bill is to make it optional with the council to exempt the property for any purpose, except as to work at street intersections and other work which in any way must be paid for by the municipality at large. The object of the bill is to make this optional as well.

Dr. Jesse Lincoln has an amendment to the act respecting conveyances to trustees for burial grounds, whereby the trustees can beautify the grounds whether the owners of lots agree or not.

Hon. Mr. Hanna laid on the table correspondence between Sheriff Dawson of Lincoln and the government with regard to the appointment of a jailer to succeed the late T. P. Blain. From the correspondence it appears that Mr. Blain died on Dec. 20 last, and that Sheriff Dawson wrote the attorney-general's department on Jan. 22 that he had appointed George Busch. The inspector of jails and prisons, Dr. Smith, wrote Sheriff Dawson, informing him that the appointment had been made irregularly, as he should have been notified, and the sheriff's reply was that the strictures of the inspector were "unjust and unwarranted."

The report of J. W. Mallon, inspector of legal offices, for the past year, was laid on the table. There are 316 offices and the report shows that they are well conducted. The remuneration of the clerks is \$100 a year, which is not paid wholly or in part by salary is less than \$100 a year.

The premier informed Mr. Munro (North Oxford) that James Cochrane, a member of the county court of the County of Grey, had been removed from an active part during the election.

In reply to Mr. Preston (East Durham) the premier said the report of the railway taxation committee had not been received, but would be laid on the table as soon as it was received. The secretary of the committee, W. J. Wilkinson, stated after the session that the report was not yet ready.

Local Option in Taxation.

Local option for municipalities in the matter of municipal taxation was the subject of a large report received by Premier Whitney yesterday afternoon. The deputation was headed by W. A. Douglas, Allan Thompson, Ald. Noble. The question of single tax was discussed for some time, and a measure was introduced for providing that the council of any municipality whose electorate by a majority vote should so decide, should be empowered to frame a bylaw providing reforms in taxation.

Mr. Thompson claimed that the question was an open one, as shown by the lack of uniformity throughout the province and the existing amendments made to the Municipal Act. The house in Toronto and other places was to be a system of taxation. He referred to the local exemption by the city of Toronto. Mr. Whitney remarked that a vote could not be taken as a criterion, as the small houses would not have enough interest in it to give the matter due consideration.

The object is to benefit the tenant, replied Mr. Thompson.

Messrs. Douglas, Noble and others spoke.

The premier in his reply said he did not see much objection to the proposal. He suggested a private members' bill. He assured the deputation that his pleasure in coming into contact with public opinion.

Fella Too High.

Aubrey White, deputy commissioner of crown lands, and Dr. Kennedy, law clerk of the department, were waited upon by a deputation yesterday complaining against the tolls charged by the Pickering River Improvement Company, who have been building dams along the river and charging lumbermen tolls for allowing logs to pass. They were authorized by the government to do so, but it is thought charges are too high.

Payroll and White and A. Beck Co. lumber dealers, who are making the complaint, were represented by Mr. McMurich and the Pickering River Improvement Company by Mr. Lawrence. The hearing was adjourned until Wednesday.

Inspected the Road.

Hon. Mr. Hanna, Hon. Dr. Regime and Hon. A. Beck returned yesterday from a flying trip of inspection over the Temiskaming Railway. They were accompanied by Mr. Cecil Smith, chairman of the Temiskaming Commission.

Notices of Motion.

The following notices of motion have been given:

Mr. Fisher (Welland): Order of the house for copies of all correspondence between the late government and J. P. Wilson and Col. Coboc, respecting the appointment of Col. Coboc to the position of high court registrar.

Mr. Harcourt: Is the government in a position to announce its policy as to that part of the Temiskaming Railway now being operated and carrying passengers and freight? Is it the intention to lease the road, or any part of it, or will the government operate it?

Vegetable Men Organize.

The recently formed Ontario Vegetable Growers' Association have started their first branch at Sarnia with a membership of twenty-six names, which were received by H. B. Cowan. On Thursday next, Hon. Nelson Monteith will receive a deputation asking for a provincial fruit, flower and honey show to be held in the city of Sarnia. The show is to include vegetables, and the Quebec Agricultural College conduct investigations with a view to the prevention of pests and blights in vegetables.

Spring Stallion Show.

A number of agricultural societies are assisting H. B. Cowan, superintendent of agricultural societies, to appoint a judge to point out the best type of stallions. The number of spring stallion shows at the fairs is increasing more.
