BOURASSA SCORES IN A LIBERAL STRONGHOLD

Makes Explicit Charges
Against Quebec Min-
isters—Letter From
Sir Wilfrid Read by
Beauparlant, M.P.

MONTREAL, Aug. 18.—(Special).—The Quebec Bourassa was pelted with stones and rotten eggs by a salaried gang of rowdies for the Gouin government. The affair has advertised the Bourassa campaign better than anything else could have done.

The member for Labelle spoke Saturday afternoon at St. Hyacinthe before six to seven thousand people from the city and the neighborhood, with a tremendous success. It was thought at first that the meeting would end in somewhat the same manner as the one in Quebec. Beauparlant, the local M.P., had been in Ottawa during the week to secure a letter from Sir Wilfrid Laurier, which, it was said, would set at rest all talk of friendship between Bourassa and the federal premier, and thereby arouse the feelings of the Liberals against the intruder to the point of breaking up the meeting. The prediction fell short of fulfillment. Beauparlant and his friends, in two hours of verbal spouting, vainly tried to stir up trouble by the use of Laurier's name.

The premier's letter was merely to the effect that he had authorized no one to couple his name with the Bourassa campaign or to assert that the man from Labelle is Sir Wilfrid's best friend.

Never Claimed It.
Bourassa denied that he or his friends had ever done anything of the kind. Sir Wilfrid's statement, he said, had been secured on false pretences by men of ill-faith desirous to kill him by all means and too cowardly to take a share of responsibility in the misdeeds of the Gouin cabinet. Bourassa dwelt at length on his St. Martin program and particularly on those of its articles referring to the management of the public lands, forests, mines and water powers. The policy of the Ontario Government on the same subjects was commended in several places, but the speaker, who was strongly endorsed, did not specifically.

The Gouin government were denounced for their bartering away the people's property at so-called public auctions where only men with inside tips could afford to bid. As for education, Bourassa declared against the putting of the department under the direct control of a minister, as that, he said, would place the Protestant English-speaking minority at the mercy of a man of unproven race and creed. He had been accused of narrow-mindedness for defending the rights of the French-speaking minority at Ottawa, but, thank God, he was broad enough to see that the treatment that his compatriots had been given in the west was not meted out to the minority in Quebec.

However, if elected to the Quebec house, he would work for a reform of the council of public education in the sense of greater efficiency. He would also do his utmost to promote the education of learning among all classes of the people. The member for Labelle literally captured the meeting and swayed it to his liking. It is now predicted that should he be a candidate in St. Hyacinthe he would carry the seat against the government by a huge majority. He was given the greatest ovation ever made to a public man in that city, which is the hottest of Liberal hotbeds in the district of Montreal. The only hisses were for his opponents.

Another Victory.
The Nationalist party, including the autonomy of provincial affairs from both a constitutional and a party standpoint, won another victory this afternoon at Rigaud, on the boundary line, County of Val d'Aud. Four thousand people had gathered here, and, far as the remotest corners of the neighboring Counties of Prescott, Ontario, and Soulanges and Deux Montagnes, Que. Vaudreuil has elected Liberal candidates for twenty years. The local Liberals were carried away by the eloquence of Papineau's grandson, who is proving himself in this campaign a most prodigious wizard in verbal dexterity.

Three-fourths of the meeting were evidently with Bourassa. The local M.P., Gustav Boyer, prudently abstained in his speech from saying a good word for the Gouin Government. L. J. Gauthier, regarded as the best stump speaker in provincial politics, had his arguments smashed to smithereens to the evident delight of the crowd.

W. P. Maclean, M.P., was present with a journalist friend from Ontario. It is now thought that Premier Gouin will be frightened into postponing the elections for one year. The result of the two last meetings is thought to point out to a political upheaval in Quebec shortly. It is said that Bourassa, when he has demonstrated beyond all doubt his strength throughout, will return to Quebec to hold such a meeting as was never held in the province and in which the ministers will be invited.

Drowning at Midland.
Word was received in the city yesterday afternoon of the drowning of Germondo Trepadoro, yesterday at Midland. He was the brother of the deceased his relatives in the city on Elm and Teraulay-streets, and had been employed at Midland as a laborer for the past two months.

MOTHER ACCEPTS BODY AS THAT OF HER SON GRIEF TURNED TO JOY

COHOES, N.Y., Aug. 18.—Altho the relatives and friends of James Gaffney attended the funeral of a man they thought was he, they made a mistake, and the real Gaffney, a weaver 44 years of age, employed in this city, is very much alive.

The body of a man supposed to be Gaffney was taken from the Erie Canal a week ago. It was identified as that of Gaffney and sent to Fall River, Mass., where Gaffney's mother accepted it as that of her son. This morning the real Gaffney walked into police headquarters and convinced Chief Adams that he was not dead. His mother at Fall River was notified and her grief changed to joy.

KABYLES TRIBESMEN HAVE BEEN VICTORIOUS

People at Fez State That Govern-
ment Encourages This Belief
to Control Bandits.

PARIS, Aug. 18.—Special despatches from Tangier say the inhabitants of Fez believe that the Kabyles tribesmen have been victorious at Casablanca, and that the government is encouraging this belief in order to control the bandits. The tribesmen in the more remote regions seemed better informed as to the true situation, and are giving anxiety because of their restlessness. One tribe has thrown off the sultan's authority and driven out the district governor. Two French postal couriers have been killed between Rabat and Fez, and their letters destroyed. The French consul at Casablanca considers that all serious danger is over.

BRITISH GUIANA FORCES MARCHES IN VENEZUELA

Captain Calder, With Small Fron-
tier Party, Seizes Goods
From That Country.

GEORGETOWN, British Guiana, Aug. 17.—Much excitement has been caused here by the invasion of Venezuelan territory by Capt. Calder, in command of a small frontier force from British Guiana, and the seizure of a quantity of balata (the gum of the bullet tree, used for insulating wires, etc., which, it is alleged, had been collected on British territory). One tribe's force went down the Barima and crossed the boundary into Venezuelan territory, where Capt. Calder, at the point of a revolver, demanded that the Venezuelan commissioner surrender to him 4000 pounds of balata. The commissioner was unable to resist and gave up the gum. He had made a protest to President Castro and the British consul here against the seizure of the balata and the invasion of Venezuelan territory. Fears are entertained of the retaliation at Morawhanna, the British frontier headquarters. There has been much trouble over the balata trade for some time, and the British officials have made strong attempts to prevent illicit trading in the gum.

SAY MESSAGES REFUSED REDRESS AT LATER STAGE

Great Northwestern May Go After
C.P.R.—No Change in Local
Attitude of Strike.

The allegation that the C.P.R. were refusing Great Northwestern messages was denied by Superintendent A. W. Barber. "As far as I know we are refusing no business at all," he said, "and if we have it has not as yet been reported to me."

The feature of the allegation was the fact that as common carriers either company should accept messages, whether from a rival company or not. Both managers and the local companies stated to "The World" that such refusal was illegal. Manager McMichael stated positively, however, that certain G.N.W. messages had been refused, and claimed that the legality test would be taken up at a later stage. There is no change in the local situation. The operators held another meeting at the Labor Temple today, which was well attended. Several committees were appointed and Edward Hartford was elected president of the union in place of T. T. Taylor, who resigned the position on being transferred to the Northwest. Several of the striking men secured positions and left the city on Saturday, and two more are leaving today. In order to augment their funds the operators are organizing a moonlight excursion on the Turbina for Thursday evening next.

FIRE AT DASHWOOD.

Brick Building and Entire Block
Destroyed.
EXETER, Aug. 18.—A bad \$20,000 fire at Dashwood broke out about 11 o'clock last night. Fire was discovered in the Hartwell brick block of three streets, occupied by the general store of William Schrumms, and in a short time the whole block, a frame store and stable were in ruins. Some persons barely escaped in their night clothes. The cause of the fire is unknown. The loss is partly covered by insurance. No fire engine of the town was sent to their relief, causing the fire to under control when it arrived. There is no water supply at Dashwood.

Fire Spoils Game.

BRIDGEPORT, Conn., Aug. 18.—Fire swept the amusement grounds at Steeplechase island today, causing \$20,000 damage and creating something of a panic upon the 20,000 visitors. No one was seriously injured. Six structures were burned, including the grandstand and bleachers on the base of the amusement grounds, whose manager, George C. Tilyou, proprietor of the amusement grounds, whose steeplechase park at Coney Island was burned a few weeks ago.

Mill at Dundalk Burns.

DUNDALK, Aug. 18.—About 12 o'clock this morning Dundalk citizens were awakened by the alarm of fire, when it was discovered the planing mill owned and operated by George Wood & Son was on fire. The flames had made such headway that none of the valuable machinery or other contents could be saved, and the efforts of the fire brigade were directed towards saving adjoining buildings. In this they were successful. Wood & Son's loss on building, machinery and lumber will be about \$8000. Insurance \$10,000.

Death of Dr. G. S. McGhie.

BROCKVILLE, Aug. 18.—(Special).—The death occurred at Elgin yesterday of Dr. G. S. McGhie, a widely known and distinctly popular medical practitioner of Brockville. He has been complaining for a few days with Bright's disease.

Stole Shovels.
Tony Jacobs was arrested Saturday night for stealing two shovels and a pick from Joseph Morella. Jacobs was going to New York and sold the stolen goods for 35 cents.

Head Keeper: "This is one of our most interesting cases. He has a wonderful delusion. You remember I showed you one fellow who thought he was Catherine the Great; another fellow thinks he is the Siamese twins, and we've had lots who thought they were Napoleon. But this case beats them all. He thinks he is the United States. Whenever he has a pain in the pocket he thinks we ought to put a policeman on the middle west. He never wants to take the medicine we think he needs, but wants to prescribe for himself."—Chicago Tribune

CAPITAL TURNS TO CANADA FRIGHTENED FROM THE U.S.

English and French Money Men to Establish Trust Company Here With
\$5,000,000.—Montreal Financier Believes Story Well Founded.

MONTREAL, Aug. 18.—(Special).—The story is that English and French capitalists are about to establish a trust company here with a capital of \$5,000,000, altho details are being withheld for the time being. A Montreal financier said today that a large amount of capital would soon be brought to this country, altho he could not yet say what turn the affair would take. He said that capitalists were getting apprehensive of affairs in the United States, and as the political situation was by no means certain in South America, he now believed we would see very large investments made in the Dominion. In a word, he considered the trust story well founded.

FLEETWING AND CREW MAY HAVE GONE DOWN

Belleville Schooner Caught in
Storm and Has Not Been
Heard of Since.

BELLEVILLE, Aug. 18.—It is believed here that the schooner Fleetwing, which is owned in this city, has met with some mishap on Lake Ontario. Three of her crew are Belleville men, namely, Captain Clark Taylor, William Babcock and John Gibson. The Fleetwing left Charlotte Aug. 6, laden with coal for South Bay, and has not been heard of since, tho it is rumored that on Aug. 13 she was seen in the lower part of the lake under full canvas. There was a very heavy blow that night, and it is feared that during the storm, the schooner either went ashore or foundered. The Fleetwing is an old boat. Mrs. Clark Taylor, wife of the captain, is making every effort to find the whereabouts of the vessel, but so far without success.

CANADIANS WIN.

Unique Rifle Contest Lost by States
Marksmen.
OTTAWA, Aug. 18.—(Special).—A unique shooting contest has just closed in a victory for the Canadian team. Twenty-five men of Company 8, 43rd Duke of Cornwall's Own Rifles, shot at Brockville ranges here Saturday afternoon at 200, 300 and 600 yards, aggregating 203 points, and at the close wired their scores to Woburn, Mass. A team of the Massachusetts Veterans, also twenty-five men, and also at the same distance, shot at the same time at Woburn ranges, and their score was 195. They at once telegraphed the result here. Thus the Canadian team wins in the rather unique contest, the first of its kind.

TELEGRAPHERS QUIT.

NEW YORK, Aug. 18.—As tho by mutual agreement, the parties to the strike of telegraphers took things easy today and the usual claims and counterclaims of the day's developments were not made public. There was little doing at strike headquarters and nearly all the higher officials of the union spent the day quietly.

SURPLUS FROM TRAMS.

Profit of \$24,000 From Municipal
Operation of Nottingham Cars.
NOTTINGHAM, Eng., Aug. 18.—Last year the municipal tramways carried 31,590,000 passengers, an increase of 2,252,385 over the previous year. The undertaking shows for the year a profit of over \$24,000, and of this sum \$11,000 has gone to the relief of the rates. There has been no accident of a serious or fatal nature throughout the year.

LOGICAL REASONS FOR SLUMP LACKING

Former U. S. Secretary
of Treasury Says Real
Sources of Wealth
Have Not Been
Affected.

NEW YORK, Aug. 18.—Leslie M. Shaw, formerly secretary of the treasury, now president of the Carnegie Trust Company, authorized the following interview on the present financial and individual conditions to-day: "Our farms produce more than \$8,500,000,000 per annum, and the prospect is good for an average crop. Our mines yield more than \$1,500,000,000, and our forests more than \$1,000,000,000, and neither of these sources of wealth has been exhausted. The output of our factories, in other than food products, is approximately \$12,000,000,000 and no fires have been extinguished. The railways earn more than \$2,000,000,000 and they are all in successful operation. The payrolls of our factories and railways aggregate approximately \$3,500,000,000, and the scale of wages has not been reduced."

"In other words, the real sources of the people's wealth have not yet been affected, and the ability of industrial concerns to pay dividends is not measured by the market price of their stocks. Logical reasons for serious conditions are therefore wanting. Psychologically, reasons are never wanting. If I judge correctly, the people will have exactly what they expect. If those who have money in the banks withdraw it, and lock it up if the banks refuse to grant accommodations, and if the consuming public decline to place orders, then we will very soon witness the effects."

"Let those who think that times of disaster follow each other at regular intervals bear in mind that this country has never yet experienced a period of severe depression that was not traceable to financial or economic agitation or legislation, and usually to both."

"In 1893 the redemption of greenbacks in silver instead of gold was openly advocated; the party in power was under promise to remove the protective tariff from our industries, and the free coinage of silver at the ratio of 16 to 1 was championed by prominent members of both parties. The country might have survived any one of these sources of alarm, but it could not survive all three."

"At this time no one questions our financial system and the tariff will not be touched for at least eighteen months. Some check in the speed at which we are going is most desirable and the checking process has probably begun. It will now require a fair measure of confidence and courage to prevent undue retardation in our industrial progress. Capital cannot be forced into activity, but it can be forced out of activity. I have never seen more essential to our well-being."
