WORK GOING ON IN SUBURBS
Arch McEnerney Struck by Engine at Black Creek and Sustains Fractured Skull.

WAKEFIELD WINS GUN CLUB CUP
Sudden Death of William Hall—East and North Toronto Happenings of a Day.

Arch McEnerney of Willowby-avenue was with a serious accident on C.P.R. this morning. He was working the steam shovel near Black Creek, where the company is taking out ballast for the new track between here and Parkdale when he was suddenly struck by the engine. The base of his skull is fractured and the injury is considered dangerous. He was taken to the Western Hospital.

At the Orange district meeting, to be held at Weston on Saturday, the brethren will consider whether they should celebrate in Toronto instead of Woodbridge. It is likely, however, that the decision will go to Woodbridge.

At the gun club shoot this afternoon, Thompson shot 24 out of 25. They shot off the tie, and Wakefield won by 23 to 20.

Rev. J. H. Oliver of Listowel has refused the call to Yonge-street Methodist Church, but is still considering the call to the vital statistics for May registered Annetta-street, 1106; St. George's, 1106; St. George's, 1106; St. George's, 1106.

Dr. Sheard spoke strongly in favor of the public baths at the meeting of the board of health yesterday. Dr. Harrison brought up the matter, and it was decided that the medical health officer should bring the matter into concrete form by preparing an official report.

Dr. Sheard wrote the school board some time ago advocating baths in connection with the public schools. In the schools, said the doctor, there were hundreds of children to whom a bath was entirely foreign.

Mayor Urquhart said it would be a good thing to have a public bath, but he didn't know where they would get the money. He suggested that one of the public health officers be used. Dr. Sheard said that if a bath could be obtained for five years the question would be solved as he believed there were sufficient public health officers in Toronto to see the matter thru.

Dr. Sheard also raised the question of locating abattoirs. He favored the reservation of sites on Ashbridge's Bay for proper drainage could be secured and other conditions obtained, which would render the location sufficiently accessible to them abattoirs.

WHAT WILD WAVES WERE DOING.
Yesterday's storm worst remembered by Balmly Beach folk.

The storm of yesterday was regarded by residents along the lake front as one of the most severe in the history of Kew and Balmly Beach. In some places, notably in front of the cottage of Jas. Gunn, superintendent of the Toronto Street Railway, the work of the waves was especially noticeable. Mr. Gunn, the beach suffered more yesterday than any other corresponding time of recollection. Where an excellent dyke formerly existed the waves yesterday were breaking over the dyke and threatening the lives of the children of the law. A platform was erected, which undermined the fence and threatened the lives of the children of the law. THE HOUSE OF QUALITY

HUMAN SKIN FOR GRAFTING.
It may not be generally known that the present time a regular traffic in the selling and buying of human skin, said a surgeon in one of the big hospitals to a writer in 'The Week'.

We have on our books the names and addresses of many men and women whom we can rely for several square inches of cuticle when the necessity arises. These patients, if one may call them so, are by no means among the poor and destitute, as might, perhaps, be supposed, but are people occupying the highest high niches in society, young and, of course, absolutely healthy.

There is one young lady from whom we have bought from time to time over 200 worth of cuticle, and who manages to make a very respectable income by disposing of her fair skin, for she supplies other surgeons besides ourselves.

Only the other day we had to perform an operation on the thumb of a young, and beautiful leader of society, which was bound to leave an ugly scar unless we could obtain three square inches of absolutely fair skin, for she supplies other surgeons besides ourselves.
