"Then as far as the outlying districts are concerned all you have to do is to run the wires along the poles down the streets from the outside of the city and have the current delivered at the doors of all the people just as cheaply as they do in Gravenhurst, Orillia and Bracebridge. And these lines can be extended as fast as the people require them. The next ques-tion asked us is, "What prices will the consumer have to pay?" The government guarantee that under this system the cost to consumers of 200 horse-power will not exceed \$19.50 a horse-power, and to other consumers at rates proportionately low. Goldwin Smith Condemns Local Option

WRITING to the Toronto Globe, Professor Goldwin Smith thus expresses his views on Local Option

"I do not think it possible to enforce total abstinence. The taste for fermented liquors is common to all races of mankind, and it antedates the beginning of history. This taste the extreme prohibitionist hopes to eradicate by a single stroke of prohibitive legislation. Unless he can eradicate the taste, experience shows he cannot put down the habit. In the attempt radically and suddenly to change the habits of mankind by law, I have no faith whatever, and I appeal to multiplied and decisive experience as a warrant for my unbelief."
