

THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, SEPTEMBER 13, 1920

WANTS TO BUILD UP EXPORT TRADE

Rancher from British Guiana
Says Colony Will Develop
Cattle Raising — Looking
for Tourists.

(Montreal Gazette.)

J. H. Haly, a cattle rancher, of Berhampur, British Guiana, born in the colony, his forebears having gone there many years ago as sugar planters, is making his first visit to Canada, accompanied by his wife. Haly came up by way of the Panama Canal, stopping at San Francisco and Vancouver en route, and travelling through to Montreal over the Canadian Pacific Railway.

The Savanna, of British Guiana, lying along the coast and rivers, are something like the prairies of Canada, on a comparatively diminutive scale. Up to the present, Mr. Haly says stock-raising has been developed only far enough to supply or contribute to their local markets. There is, however, a wide latitude for extension of the industry, and a large company has just recently been formed for the purpose of developing the cattle raising business, with a view to building up an export trade.

A progressive movement is also being evidenced, Mr. Haly says, in other lines. A project, involving the expenditure of several million dollars, is about to be organized, to improve the harbor facilities, by deepening the channels and constructing piers, etc., along the water front of Georgetown, which is the port of export and entry for the colony. This big work is being undertaken under the auspices of the harbor board.

In the capital of Georgetown itself, a city of some sixty thousand people, some considerable strides have been made in municipal improvement. They have very good streets and water, and an electric car service operated by a Canadian company. The introduction of a modern sewerage system is about to be undertaken, and Mr. Haly suggested that it would be begun in the near future.

Trade With Canada.
The most of the sugar produced in British Guiana is marketed in Canada, which supplies, in exchange, the most of the flour required by that country. British Guiana also produces very considerable quantities of rice, the rice and sugar being the principal exports of the country.

Mr. Haly says that an effort of recent inauguration, is being made to get a share of the world's tourist travel to go to British Guiana. He claims that an unfair impression has been created, by their competitors for tourist business, that his country was situated in an unhealthy climate. He suggested that if such an idea ever had justification, with respect to British Guiana, it had now ceased to operate owing to the advances which had been made in civilization, in recent times. "We are developing quite a tourist trade down there now," said he, "and we are always glad to see Canadians coming along."

Mr. and Mrs. Haly will return to Berhampur by the way of England.

PREPARING FOR
HUNTING SEASON
The game season opens on Wednesday, September 15. Game licenses probably will be in the hands of vendors today. The chief game warden in the past has found it advisable not to issue the game licenses to the vendors until just before the game season opened, though this made it inconvenient for those who go hunting any considerable distance from home and who would like to have a shot at moose and deer before they are gun shy. The vendors of game licenses in this vicinity are: G. W. Morell, Haymarket square; A. E. Baxter, 821 Main street; E. P. Watson, King square; Charles Baillie, King street; R. L. Adams, West St. John; R. D. Harrington, 263 Union street.

LOST BEAUTY, TAKES LIFE.
Tottenham, Eng., Sept. 14.—Worried because an illness had played havoc with her good looks, and dreading that she would never be able to paint as she did at one time, Mrs. Beatrice Bevan, 57, committed suicide by throwing herself from a window.

GERMAN SHIPS AS TARGETS
London, Eng., Sept. 14.—Surrendered German warships are to be used as targets in gunnery experiments by the British navy. Among the craft selected for this purpose are armored vessels and destroyers.

Favorite Prescription of Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump. Druggists sell it in tablets or liquid. It is a medicine that's made especially to build up women's strength and for women's peculiar ailments—an invigorating, restorative tonic, soothing cordial and bracing nerve; purely vegetable, non-alcoholic, and perfectly harmless.

Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., 10c for trial package.

33

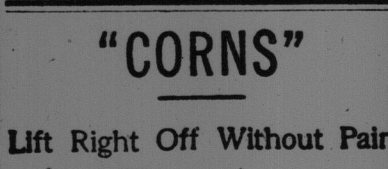

years ago an ulcer appeared on my ankle," writes Mrs. Jeffrey, of Methuen, Mass. "In spite of all the remedies I used, it spread to my knee, and developed into an open sore. I had medical treatment for twenty-five years, but only got temporary relief. The pain I suffered was terrible, and for years I was unable to leave the house. "One day I saw in a newspaper an account of a bad ulcer having been cured by Zam-Buk. Although I was skeptical, now, of anything curing me—having tried so many remedies in vain—I decided to give Zam-Buk a trial. I applied the balm freely every day and to my delight the sore soon showed some improvement. Gradually the inflammation was drawn out, the pain was ended, and after thirty years of suffering, I realized I was on the road to recovery. With perseverance, the awful sore was finally completely healed, and, although that was three years ago, there has not been the slightest trace of the ulcer returning."

Zam-Buk is the best remedy, also, for eczema, boils, pimples, blood-poisoning, piles, burns, scalds and cuts. All dealers, or Zam-Buk Co., Toronto, 50c. box, 3 for \$1.25.

Zam-Buk

MADE HIS GRAVE YEARS AGO.
Bedworth, Eng., Sept. 14.—Dying at 81, William Suffolk, parish clerk and sexton, was buried in a grave which he dug and bricked himself years ago.

"CORN"
Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

"DANDERINE"
Stops Hair Coming Out;
Doubles Its Beauty.

A few cents buys "Danderine." After application of "Danderine" you can find no fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

Nature's Mirror
When a woman is well and healthy—there's a sparkle in her eyes, a rose tint in her cheeks, and she has rich red blood. There's elasticity in every movement and a spring in her step. Love comes to every woman who has bounding health, but when she is pallid, dull eyed, languid, she has no magnetism nor does she appeal to any man.

Such a change in feelings and looks! After suffering pain, feeling nervous, dizzy, weak and dragged down by weaknesses of her sex—with eyes sunken, black circles and pale cheeks—such a woman is quickly restored to health by the

MARINE NOTES.

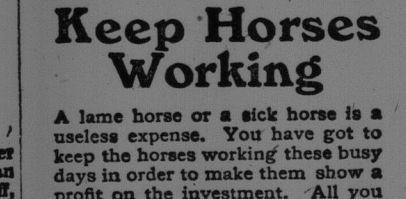

A cablegram from Queenstown, Ireland, to Nagle & Wigmore yesterday afternoon, told of the arrival of the four-masted American schooner Lisde M. Parsons at that port with her entire cargo on fire and five feet of water in her hold.

She was bound from Cape Breton for Rotterdam with a cargo of coal, when she took fire in mid ocean and it was necessary to flood her holds in order to save the vessel. No report of damage to the hull is received.

The C. P. O. S. liner Metagama, after being imbedded in the clay bank of the St. Lawrence river for forty hours, was pulled clear yesterday and proceeded to Montreal under her own steam.

30,708 BLIND IN ENGLAND.
London, Eng., Sept. 14.—Statistics show that the number of blind persons in England and Wales to be 30,708. Of these 2,614 are children. Of the total number of blind 4,882 are suffering from other physical defects, and 1,246 are mentally defective.

RAT PLAGUE IN PARIS
Paris, France, Sept. 14.—Medical men in Paris are alarmed at the menace of infection from rats, eight millions of which, it is calculated, infest the capital. The press is supporting their appeal and urges the need of action by authorities.

Keep Horses Working
A lame horse or a sick horse is a useless expense. You have got to keep the horses working these busy days in order to make them show a profit on the investment. All you need to keep your stock in prime condition is

Dr. J. WOODBURY'S
Horse Liniment and
Condition Powders

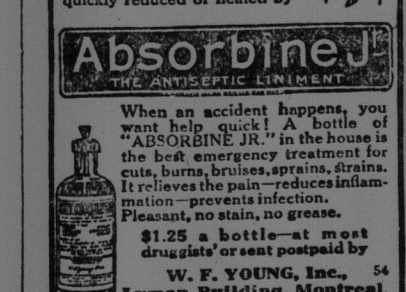

They are standard specifics, used regularly by hundreds of farmers and horsemen for such common ailments as Coughs, Colds, Colic, Distemper, Pink Eye, Glanders, Founders, Spavin, Splint, Curb, Cracked Hoof, Enlargements, Kidney Trouble, Fever, Cuts, Sores and Bunches.

There is no telling when a horse will fall sick or meet with an accident. Keep Dr. Woodbury's Liniment and Powders on hand so you will have the right remedy to relieve your horse and put him back at work again.

come down, just as soreness and lameness come out, when "ABSORBINE JR." is rubbed in.

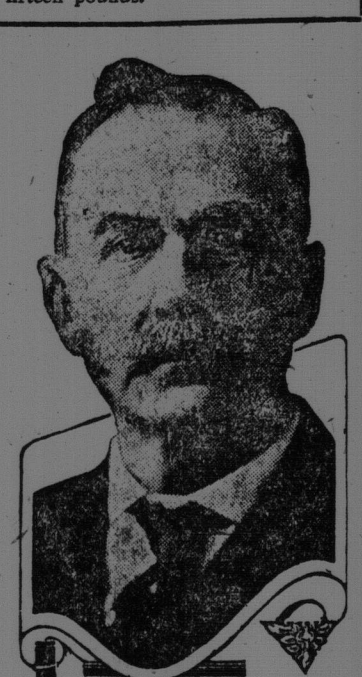

Enlarged glands, varicose veins, warts, cysts, soft bunches, boils, and other inflammations quickly reduced or healed by

When an accident happens, you want help quick! A bottle of ABSORBINE JR. in the house is the best emergency treatment for cuts, burns, bruises, sprains, strains. It relieves the pain—reduces inflammation—prevents infection. Pleasant, no stings, no grease.

\$1.25 a bottle—at most druggists or sent postpaid by W. F. YOUNG, Inc., 14 Lyman Building, Montreal.

W. H. JOHNSON, of Portland, Ore., who says no one could have done him any greater kindness than the friend who advised him to try Tanlac. Gains fifteen pounds.

"Not in a long time have I enjoyed such good health or felt so well generally as I do since taking Tanlac," said W. H. Johnson, 319 East 43rd St., Portland (Ore.), who holds a responsible position with the Northwest Transfer Company.

"About a year ago I began suffering from lack of appetite and stomach trouble and since that time—that is, until Tanlac set me right—I have felt so poorly that I could hardly do my work. My food seemed to do me little good, if any, as my digestion was bad, and I lost both weight and strength continually."

"After every meal there was a dull, nagging pain in the pit of my stomach that kept me feeling miserable for hours."

"The gas from my sour, undigested food would blow me up terribly and my nerves were so upset that I would lie awake half the night unable to sleep. I was constantly having blinding dizzy spells and could not bend over and straighten up quickly but what everything seemed as dark as night to me."

"I was telling a friend one day how bad I felt and he advised me to try Tanlac. I just want to say he couldn't have done me a greater kindness."

"I had picked up all of fifteen pounds in weight, my appetite is fine, and although I am eating just anything I want my stomach never gives me a particle of trouble. My sleep is sound and restful and my strength and energy have been so renewed that my work is no longer a burden to me."

"Tanalac is sold in St. John by the Ross Drug Company and F. W. Murray, by E. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, Highland; John F. Meigher, Debec; O. D. Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Station, and by the leading druggists in every town.—(Advt.)"

AUTHORITY FOR
PURCHASE OF
SCHOOL SITE
At the regular meeting of the school board last night authority was given to buy a school site in West St. John with frontage on Duke and Guilford streets, for the sum of \$16,000. Another site in the North End was also discussed and a motion passed to lease the Simmons property, which the owner will not sell.

The date for the opening of the night school was fixed for October 4. Leave of absence with salary was granted to Miss Kate A. Kerr, who has taught for forty-eight years without missing a day. The resignation of Sister Estelle was accepted and a letter expressing regret at the loss of her valuable services was also ordered written. Mr. Day reported that repairs on the Dufferin school had cost \$889. Mr. Coll reported for the committee appointed to meet the St. John Musical Society in the matter of a rebate for the wiring of King George school, which that society had intended using but did not. He said that the committee had agreed to return half the money expended, the total of which amounted to \$166. Mr. Green presented the report of F. Neil Brodie on the heating of Centennial school. The discussion on the school sites then followed.

In the absence of Dr. A. F. Emery, the chair was occupied by George E. Day. Other trustees present were: Mrs. E. R. Taylor, Mrs. R. O'Brien, H. C. Smith, J. D. P. Lewis, G. H. Green, M. Coll, E. R. W. Ingraham, Allan A. McIntyre and Dr. H. S. Bridges.

KILLED HIMSELF WHILE
DESPONDENT IS VERDICT
Coroner H. A. Porter conducted the inquest into the death of Ambrose John, who committed suicide at the Salvation Army Hostel, St. James street, last Wednesday, and the jury brought in a verdict that the unfortunate man killed himself while despondent. Dr. A. E. Logie, John T. Richards, Alfred Digby and Dr. J. G. Mahoney, Commandant Arthur Sheard and Policeman Donahue gave evidence. The evidence was similar to the report given of the man's death with the exception of that given by Robert Johnston, who came to Canada with John to work in the mines in Cape Breton, and he said that the conditions were not as represented by the Dominion Iron and Steel Company's agent in Liverpool, England, and that it was impossible for the miners to earn sufficient money to pay their debts. The following composed the jury: E. J. Todd, foreman; Thos. S. Hill, W. V. Hatfield, Isaac D. Sparks, Charles Hanson, Hugh Milley and John Magee. Con-

stable Thomas X. Gibbons was in attendance.

POLITICAL MEETINGS.
Meetings of those in favor of the election of Hon. R. W. Wignam were held last evening. The electors of Fairville and Milford met in the Temperance hall, Fairville. Councillor William Golding was chosen chairman, Dr. Barton vice-chairman and Edward Cunningham secretary.

The Beausfield electors met in Neve's hall, Dufferin Row, and elected George Maxwell president and F. H. Johnson secretary. The residence of S. Herbert Mayes at the corner of Wainlow and Champlain streets will be the headquarters of the women voters.

The chairman of the Musquash district are as follows: No. 1, South Mus-

quash, George A. Anderson; No. 2, Chance Harbor, Robert C. Thompson; No. 3, Dipper Harbor, James K. Corraden.

MRS. ELIZABETH WELLS.
Many will regret the death of Mrs. Elizabeth Wells, widow of William Wells, which occurred at the home of her son, George Trafton in Vancouver, B. C., on September 8. Mrs. Wells was twice married. Her first husband was Capt. Isaiah Trafton. She also leaves two daughters, Mrs. James Trimble and Mrs. Fred Wood of Lynn, Mass., seven grandchildren and two great grandchildren.

She was a daughter of the late Andrew and Sarah Bissett. She also leaves one sister, Mrs. Fred Thorne of Dorchester, Mass., four brothers, Andrew Bissett of Lynn, Mass., Stephen Bissett of Maiden-

New Haven, Conn., Sept. 14.—The oldest twins in Connecticut, Philo and Milo Cleveland, celebrated their eighty-second birthday the other day by working in a garden. Milo lives in Plymouth and has the finest looking garden in the town. Philo lives in Fallville. She was married three years ago.

SAW HIS SON DROWN
London, Eng., Sept. 14.—While fishing with his father, Thomas Preston, 14 years old, fell into a deep pool. His father was unable to rescue him before he drowned.

Why You Should Buy Shoes Now!

WE Shoe Manufacturers of Canada—and there are 158 of us in all—feel that there are certain features relating to our industry that you should know.

One of the principal things is this—

There is little likelihood that shoe prices will be very much lower than at present, for some months to come, at least.

IN any event, any reduction that the manufacturer may be able to make to the retailer will be slight; on the other hand, there is a possibility that prices on some styles may be higher.

Your shoe retailer bases his prices to you on what he pays the manufacturer. We, in turn, are dependent on the cost of leather and other things, as well as of labor.

We buy our materials months before our shoes are on your feet, and the price of these shoes is naturally regulated by the cost of the materials of which they are made, and of the handwork expended on them.

Therefore, our advice to you—and we give it in all sincerity—is to BUY NOW any shoes you need for your self or your family. Don't buy extravagantly or recklessly, but do so carefully and judiciously.

Your retailer will give you this same advice too, if you ask him. He knows, as we do, that if the public demand for footwear suddenly started up abnormally, scarcity of shoes and higher prices would probably result.

This is a situation that should be mutually avoided, and will be if you buy what shoes you need, as you need them.

Canada produces footwear of every desirable type, and of standard quality in all grades. When you buy Made in Canada Footwear you are assured, at fair prices, of the utmost that modern skill can produce in Comfort, Service and Style.

Now Brush Teeth

In the new way—Remove the film

All statements approved by authorities

Try this new way of teeth cleaning. The test is free. It has brought to millions whiter, safer teeth. Leading dentists everywhere advise it. See the results, then learn what they mean to you.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Brushed in the usual way, much of that film is left. And very few people have escaped the troubles that it causes.

What ruins teeth

Teeth are ruined by a film. You can feel it—that viscous coat. It clings to teeth, gets between the teeth and stays. And most tooth troubles are now traced to it.

It is this film-coat that discolors—not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Now we combat it

Dental science has in late years found a way to fight film, day by day. High authorities have proved it by many careful tests.

Millions of people have adopted it, largely by dental advice. To careful people it is bringing a new era in teeth cleaning.

These new methods are all embodied in a dentifrice called Pepsodent. And you are urged to prove it by a pleasant ten-day test.

Five important effects

Pepsodent has five effects, all of them essential to cleaner, safer teeth. One ingredient is pepsin. One multiplies the starch digestant in the saliva to combat starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids.

In two ways it attacks the films directly. Then it keeps the teeth so highly polished that film cannot easily cling.

It differs vastly from the old-time tooth pastes, which dentists now know were wrong.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

Within a week you will know that your teeth are protected as they never were before. And you will always want your teeth to look and feel like that. Cut out the coupon now.
