

WHARFAGE BILL IN HOUSE AROUSSES SPIRITED DISCUSSION

Progress Finally Reported; Large Budget of Other Matters

Fredericton, April 10.—The St. John wharfage bill occupied the attention of the legislature for more than an hour this evening, and finally the committee reported progress without completing consideration of the measure but with the opposition to it lessened. After explanations had been given by St. John members, some of the more prominent opponents of the bill withdrew their opposition, but the required unanimous consent was not given to the withdrawal of an amendment to fix a maximum rate.

As the hour was getting late Premier Foster moved that the committee report progress. The St. John members, with the exception of Dr. Roberts, pressed for an immediate vote and demanded a division on the premier's motion. This was carried by a straight party vote and the bill was allowed to stand over.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble, Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating that distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas wind and blot right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Weyth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Weyth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and lustrant.

Women Should Take

special care to keep free from headache, backache, constipation, weakness and depression. For these recurring ailments and other conditions peculiar to women, Beecham's Pills are a tested and effectual remedy. They act gently and promptly on the stomach, liver and bowels, and exert a tonic, strengthening effect on the bodily functions. These famous pills are purely vegetable, contain no habit-forming drug, and produce no disagreeable after-effects. Women the world over, find needed help and strength in

schools. This bill also fixes St. John's school assessment at \$275,000, but fixes this year's assessment of \$225,000. The amendments to the vocational education act also passed. A group of seven private bills were taken up, and several were passed when the smooth progress of the business was interrupted by the appearance of the St. John wharfage bill. The house adjourned at 11.35 after disposing of several Campbellton bills.

The committee next took up further consideration of the bill which changes the electoral franchise to women, and to amend the New Brunswick elections act. Hon. Mr. Byrne, in reply to a question by Mr. Menzies, said the act provided for the preparation of a special female voters' list. It was proposed to have that done in the month of June and the revisors would make up the regular list in the autumn as was now the custom.

Mr. Baxter said the revisors should have more time in which to prepare the lists. A fortnight would be insufficient for this size of the voters list which will be at least doubled. The time should extend from May 9 to June 13. It must be remembered that there would be no assessment lists to which revisors could refer and lists of women's names used in the last dominion election were incomplete.

Hon. Mr. Byrne considered the suggestion a good one, and said he would let the section stand for the present.

Mr. Potts said some of the revisors were very dilatory in attending meetings. The act should specify certain hours between which revisors would be ready to receive names.

Hon. Mr. Byrne said he was willing to accept a suggestion.

Mr. Baxter pointed out that the election act should be amended in the same particular.

Progress on the bill was reported. The bill to amend the act relating to mussel mud as fertilizer was agreed to as read.

The bill to amend the motor vehicles act was taken up and was amended in regard to the definition of "dealers."

Hon. Mr. Veniot drew attention to the fact that it was desirable that the heading of a driver of a car used for public transportation should be good for but one year.

Mr. Smith (Charleston) asked if the honorable minister of public works could make any announcement concerning a change in the rule of the road. At the last session the legislature had passed on the matter deciding in favor of changing from left to right, and it was left to be brought in again.

Hon. Mr. Veniot said he was not in a position to announce when a change would be made. It was only by a majority of two that the house had decided in favor of a change to be brought in by order-in-council. Protest against any change from left to right had been heavy.

The committee took up consideration of the bill containing an agreement between the honorable minister of public works and the St. John Railway Company.

Hon. Mr. Veniot explained that this bill merely concerned the annual rental to be paid by the company for using rights over the bridge at the Reversing Falls, St. John. Other matters which had been included in a previous agreement which the company had desired to enter into were eliminated. The rental was to be \$5,000 per year for five years, with an increase of one per cent.

The bill was reported as agreed to.

Mr. Potts, referring to the homecoming of the 26th Battalion, said that the government should make an official part in the reception of this unit.

Hon. Mr. Foster said that the city of St. John was already making arrangements for the reception of the 26th. He had already referred to the necessity of a reception by the province.

Under that term of a bill to reform a grant of land from the crown to John Vickers.

The bill was agreed to.

The committee next took up consideration of a bill to amend the act respecting the crown timber lands of the province, or sufficient to keep up to the capacity of their mills, the minister of lands and mines shall be authorized to take over a portion of such lands not exceeding twenty-five per cent. of the total. The act provides that decision shall be made by August, 1922.

The bill was agreed to.

The bill to amend the schools act was agreed to with an amendment legalizing the assessment made in the city of St. John for the present year.

The maximum amount to be assessed in St. John in any one year was fixed at \$275,000, and that of the city of Fredericton at \$600.

The committee next went into consideration of the bill to amend the act respecting the board of education of a vocational education board, consisting of the chief superintendent of the principal of the Normal school, the secretary for agriculture, the director of elementary agricultural education and five others, one of whom will represent each one of, one manufacturing, and one commerce.

One of the latter shall be chairman of the board and the chief superintendent shall be vice-chairman. The terms of office of the five appointed members shall expire in 1921.

Mr. Menzies thought that the lieutenant-governor-in-council should appoint the members of the committee.

Hon. Mr. Robinson said that it was an educational matter and he thought it should be dealt with by the board of education.

Mr. Murray (Kings) concurred in that view.

Mr. Smith (Charlotte) thought it might be a mistake to compel the retirement of members of the board in 1921.

Mr. Magee said the idea of the committee was to always have blue blood on the board and that was their reason for proposing the amendment to the act.

The bill was agreed to with an amendment stipulating that a majority of the members of the committee shall constitute a quorum.

Hon. Mr. Veniot said he believed there were only twenty-eight of the originals now with the 26th. He thought the premier might probably welcome the 26th in the name of all battalions raised in the province. Hon. Mr. Murray concurred.

Fredericton, April 10.—Ever since the elections act was amended many years ago to fix the day of the week on which elections should be held in Gloucester county, for the benefit of the fishermen who were away nearly all week, governments have been accused of taking advantage of the opportunity thus afforded to fix the date of the general elections and in Gloucester so that they should reap the benefit. It was undoubtedly an advantage to be able to hold the election in this county either before or after the others, but the circumstances might warrant and as the advantage lay with the government, the arrangement was not entirely a fair one. In the legislature today the attorney-general announced that the government had decided to

GET SLOAN'S FOR YOUR PAIN RELIEF

You don't have to rub it in to get quick, comforting relief

Once you've tried it on that stiff joint, sore muscle, sciatic pain, rheumatic twinge, lame back, you'll find a warm, soothing relief you never thought a liniment could produce. Won't stain the skin, leaves no muss, wastes no time in applying, sure to give quick results. A large bottle means economy. Your own or any other druggist has it. Made in Canada. Get it today.

Yes, Cold All Gone—Not A Bit of Cough Left

Fed great this morning. As soon as I felt it coming on yesterday I used Gray's Syrup and nipped it in the bud. Just couldn't miss an hour at the office, as we are so busy and short-handed. Gray's Syrup is a habit in our family, the folks have used it for sixty years.

MILLIONS IN HIS IDEA

Frank W. Woolworth, Five and Ten Cent Store Millionaire Who Died the Other Day

The Times on Wednesday reported the death of Frank W. Woolworth, five and ten cent store millionaire king. He was born on a farm at Rodman, Jefferson County, N. Y., on April 18, 1852. Until

he was twenty-one years old he worked on his father's farm, obtaining a meagre education in the district school and later at a business college. His first position was an errand boy in a dry goods store, and he advanced until he became a clerk. Then he got married and developed a cold on the trip and gradually became weaker. His doctors gave nervous exhaustion and septic poisoning as the cause of his death.

His idea, when broached to his employers, was termed visionary and he was advised to stick to the "old-fashioned" plan of conducting a store. Nevertheless, he was determined to test his plan and his first venture was at Utica in 1879. He had but \$50 in cash and gave his note for the goods. In a year he had paid his debt and saved some money. Closing out his store, he located at Lancaster, Pa., and established not only a store but the foundation of his fortune.

His rapid rise from a "pigeon-hole" store to the palatial Woolworth building in New York—with more than 800 branch stores in the United States, more than sixty in Canada and England—forms one of the great business romances of the world. The business was incorporated several years ago for \$65,000,000. In addition to being president of the firm of F. W. Woolworth & Co., he was the director of several banks and business enterprises. He maintained a residence on 5th avenue, noted for its rare paintings, and a country home at Glen Cove.

Mr. Woolworth suffered a nervous breakdown about six years ago, and had been in falling health since that time, al-

though he managed to take an active interest in his business affairs until a few days ago, when he went to his country home on the advice of his physicians. He developed a cold on the trip and gradually became weaker. His doctors gave nervous exhaustion and septic poisoning as the cause of his death.

forego that advantage, and the special Gloucester elections would be abolished by an amendment before the house. It was suggested that in future all elections should be held on Mondays in order to accommodate the large number of people who are away from their homes except for the week-end.

The soldiers' and sailors' sing-song and social at St. David's church, last evening, was most heartily enjoyed. A. R. Cruikshank was the chairman for the evening and the much applauded programme contained songs by J. J. Harzty, Miss DeLaney and Miss Ermine Climo and readings by Miss Ross and Norman Magnusson. After the refreshments had been served the guests and hosts took part in a sing-song. Mrs. A. M. Barnes and Miss Aird presiding at the piano.

While A. Walbans and Joseph Malley, longshoremen, boating at 25 German street, were assisting in loading the steamer Dunbridge at No. 14 shed, Sand Point, yesterday, a large number of sacks of flour fell on them, stunning and injuring them. They were taken to the Emergency Hospital.

CUT THIS OUT

OLD ENGLISH REMEDY FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment. Sprays, inhalants and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your Druggist 1 ounce of Parmit (Double strength). Take this home and add to it 1-4 pint of hot water and a ounce of granulated sugar, stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Glogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parmit used in this way acts directly upon the blood and mucous surfaces of the system and has a slight tonic action that facilitates obtaining the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh should give this treatment a trial.

MRS. LEWIS OF BROOKLYN

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

Brooklyn, N. Y.—"For one year I was miserable from a displacement, which caused a general run-down condition with headaches and pains in my side. My sister induced me to try Lydia E. Pinkham's Vegetable Compound and I found it helped me very much and such a splendid tonic that I am recommending it to any woman who has a similar trouble."—Mrs. EMILY C. LEWIS, 30 Vernon Ave., Brooklyn, N. Y.

Such conditions as Mrs. Lewis suffered from may be caused by a fall or a general weakened run-down condition of the system, and the most successful remedy to restore strength to muscles and tissue and bring about a normal healthy condition—has proved to be this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound.

If you have disturbing symptoms you do not understand write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.
