Ingersoll Steam

It was the opinion of Sir Morell Mackenzie that those who should speak English most manfully were the inhabitants of Badenoch, Inverness-shire, Scotland. They had the reputation for centuries of being perfect speakers of English; but the writer says, he must now go to the glens branching northward from the Caledonian canal to find the language spoken in its purity.

"In the beautiful glen of Moriston in particular one has noted the most exquisite speech it seems possible to imagine. There is an almost total absence of dialect and vocal disfigurements, though a quaint, delicately marked rise and fall of the voice are very faintly noticeable. The language used is extraordinarily pure and free from alien words, which is attributable to the fact that the people acquire their English direct from books and that so far distant contamination has not penetrated the glen."

The writer has a good word to say of Celtic pronunciation of English generally: "The charm of Irish English is undeniable. It has a softness that appeals irresistibly to the ear, but unfortunately it is linked with a certain element of dialect which just places it below perfection."

The readers of this paper will be pleased to learn that there is at least one devoted disease that science has been able to cure in all its stages, and that is Chikara. Bile's Chikara Cure is the only positive cure known to the medical fraternity. Chikara, being a constitutional treatment, cures a constitutional disease, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and giving him a new life.

IMPRESSIONS OF THE NORTH-WEST

Continued from Page 1.

for \$2.50 to \$3.50 per ton and wood at \$1.50 per load. Aside from these, which is about four times as high as in Ingersoll, the cost of the principal goods of housekeeping is about the same as here. Real estate is absurdly high.

As for the trip through the North-west country, I shall not attempt to describe it. It would only be a repetition of what others have done. I can only say that every Canadian should make it, and should go through to the coast and return by water from Fort William to Owen Sound.

I had almost omitted mentioning the Peace River country, about which I took particular pains to gather as much reliable information as possible. From personal conversation with men who had been there and who were quite unbiased, I am convinced it is a good country, where the summers are fine and warm and much longer than those three hundred miles south.

SAFEGUARDING CHILDREN

Notwithstanding all that is done by boards of health and charitably minded persons, the death rate among small children is very high during the hot weather of the summer months in the large cities. There is one probably one cause of bowel complaint in a hundred, however, that could not be cured by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Mr. Frank Rogers, of Franklinville, N. Y., in speaking of this remedy, said: "I have found it expedient to have a supply of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand. It has been a family safeguard and while especially beneficial to children, it is equally good in adult cases. I recommend it cheerfully and without reservation."

ENGLISH AS SPOKEN.

It is in Scotland, says a critic, that it is heard at its best.

The query "Where is the prettiest English spoken?" is answered by a writer in the London News, and, strange to say, it is not in England, but in the Scotch Highlands, where the writer he accepted as an authoritative critic.

It was the opinion of Sir Morell Mackenzie that those who should speak English most manfully were the inhabitants of Badenoch, Inverness-shire, Scotland. They had the reputation for centuries of being perfect speakers of English; but the writer says, he must now go to the glens branching northward from the Caledonian canal to find the language spoken in its purity.
