CHATHAM, Feb. 28.—A curious case is reported from the shiretown, given under the authority of a relative of one of the parties interested, and which sounds like a reproduction of Dickens in his "Dotheyboy Hall" definition. In the high school, or "Hartley Academy," there are several teachers and it would seem that one at least is not "persona grata" with the pupils. In an attempt by the teacher in question to enforce the discipline of the school, he had a most unusual experience for a twentieth century pedagogue. "He appeared," he came in collision with one of the boys, by whom he was thrown down, while several others took a hand, using a rope, with which they bound the unfortunate young man, and then with hand him out of the room to the landing, where they were fortunately prevented by some of the older pupils of another department from dropping their helpless victim over the banister to the floor below. It is said that the teacher has handed in his resignation.

Why a Cold "Hangs On."

Stop and think a minute. The tickling in the throat, the tight feeling in the chest and that racking cough are only the results of the cold, not the cold itself. To apply a soothing medicine to the irritated membrane does not cure the cold. The lungs, throat and nose are nature's exits for the poison, but the cold is in the system.

Shiloh's Consumption Cure will Cure a Cold.

It will cure a cold when it has developed so far as to be Consumption. "Shiloh's" supplies the blood with the vitality necessary to kill the germs and drive the dread disease out of the system.

Why keep on treating the results of the disease. Take "Shiloh" and you will cure the disease itself, and leave the system strong to resist future attacks. "Shiloh" is guaranteed to cure. If you are dissatisfied after using two thirds of the bottle take the remainder back to your druggist, and he will refund the whole of the purchase money.

James South of Vancouver, writes:

"S. J. Wells & Co., Toronto—I suffered for years from a cough and tried scores of remedies. Occasionally it would disappear for a few days, but would inevitably return—worse than before—till I tried Shiloh's Consumption Cure and from the first day my cough was relieved and finally it left me. For over ten months I have been quite well and I never tire of praising your grand medicine." Sold in Canada and United States by S. J. Wells & Co., Toronto.

tion, and an investigation of the matter is being held. It is well that nothing worse of a physical effect to the teacher was a result of the mad prank, and it is likely that the exuberant youths will receive the punishment they so well deserve.

As the editor might have been seeing, fleeing toward St. John the following day, the presumption is that he was endeavoring to avoid having his scanty locks lifted by an indignant bridegroom.—St. Andrews Beacon.
