FAST RACING MARKS GRAND CIRCUIT NOW

**Dominion of Canada Stake
for 2.12 Trotters Run in
Good Time Yesterday —
Tennessee Reinsman a
Winner.**

Buffalo, July 22.—Straight heat racing marked the opening of the Grand Circuit this afternoon at the Fort Erie, Ont., track. The only contest of the day occurred in the Dominion of Canada stake for 2.12 trotters. Tommy Horn carried away the first two heats but in the final Peter McCormick, equal favorite with Tommy, crossed the wire with a scant lead. The track was a trifle slow, the best time for the mile being 2:05.

The surprise of the afternoon came in the opening event for 2.20 trotters, best 3 in 6. Ed Goers, the Tennessee reinsman, dropped in with his black mare Bertha Cary, and won the race in straight heats. Summary:

2.20 Trot, Best 3 in 6, Purse \$4,000.
Bertha Cary, bl m, by Ampro, (Goers) 1 1 1
Creosote, bg, (Ray) 2 2 2
Dublin Lady, bl m, (Gerrity) 4 5 2
Major Russell, bg, (J. Benyon) 3 3 3
Ella Todd, brn m, (Dean) 5 4 4
Grace Flagler, brn m, (Rodney) 6 5 4
Time—2:13 1/4; 2:12 1/4; 2:14 1/2.

2.13 Pace, Best 3 in 5, Purse \$1,000.
Stratford, bm, (Murphy) 1 1 1
O'Brien Boy, brg, (McDonald) 2 2 2
Holly Brand, bg, (Childs) 3 3 3
Empire Direct, blk h, (Dean) 4 4 4
Tillie Tipton, bm, (Rodney) 5 4 4
Bay Sure, bg, (Rodney) 5 5 5
John H. bh, (Cox) 6 6 6
Time—2:11 1/2; 2:12; 2:10 1/2.

2.12 Trot, Three Heats, Dominion of Canada, Purse, \$5,000.
Tommy Horn, bg, by Otto 1 1 1
Wilkes (McDonald) 2 2 2

FINANCIAL OUTLOOK IS PROMISING IN CANADA

Continued From Page One.
"You tell me that in some quarters gloomy prophecies are being made to the effect that there is likely to be serious financial trouble in Canada this autumn, but for my part, I have no fear of any trouble this autumn and I cannot see any reason why there should be any."

"People who are talking about Canada's reckless expenditure, asserting that she is unwarrantably plodding her future and that a crisis is imminent, do not, I think, realize just what has been occurring here during the past few years."

"Let me quote the case of a town in the west where the assessed taxable value has jumped from \$275,000 in 1902 to \$350,000 in 1913. In the ten years covered by that stupendous increase, major miles of excellent roadway have been constructed, sidewalks, sewers, electric light, an electric car system, water supply and many other public utilities have been provided, and many hundreds of factories, warehouses and large residences have been put up."

Municipal Securities Excellent.

"To meet conditions such as that there must necessarily be large expenditures on the part of the municipal corporations, but there is no slightest doubt that the people who have loaned money for these purposes, possess excellent security. In my opinion the municipal securities in Canada have been and are now glittering."

Sir Thomas made it clear that there is no need to anticipate anything in the nature of an economic crisis in Canada.

That the banks and other interests concerned had the situation well in hand, and expressed the belief that the fact that his company had recently decided to spend one hundred million dollars on extensions and new construction work, during next and ensuing years, was calculated to increase confidence and have a steady effect.

Fine Class of Immigrants.

"The tide of immigration is greater this year than ever," said Sir Thomas, "and this is another encouraging feature. We are fortunate in getting a better class of immigrants than the United States got in their early days. The United States had to look to the United Kingdom and the continent of Europe for their new population, whereas we, in addition to that field, have the United States as well, and the people we are getting are of a much higher class than those of the United States are among the best coming to us, especially for farming purposes."

"All those who come to Canada from over the border are most welcome, whether they be farmers or manufacturers, and I do not think that those who have come to us in the past, have had cause to regret their coming. Canada, in short, is still a comparatively new field, a field which promises to be highly productive in the future, and the general situation is quite healthy."

TWO CHILD MURDER CASES CONSIDERED.

Special to The Standard.

Ottawa, July 22.—Evidence in two capital cases, both of them convictions for child murder, is under consideration of the Department of Justice. One is the case of Charles Watts of Amherst, N. S., under sentence of death on August 28th. Watts killed the child of his sister.

Victor Pope, of Winnipeg, is sentenced to be hanged on Sept. 25 for the murder of an infant. He has confessed the crime.

Enjoyable Picnic at Westfield.

With a most enjoyable day for the attending a large number yesterday attended the picnic of the Carleton Place, held at the Carleton Place, held at Westfield. Special attractions were provided on the grounds and all those who left the city with the intention of having a most delightful day's outing returned home satisfied that their anticipations had been realized. Games, sports and amusement of every description were provided, and as the day was an ideal one the picnic was a most decided success.

SEEKS TO SHINE IN OPERATIC WORLD.

MISS EVELYN HAYNES PINDAR

If Evelyn Haynes Pindar ever becomes a Tetrazzini or a Patti she will owe her greatness to her stubborn ambition as well as her novel methods of finding the wherewithal to pursue her musical studies. To achieve her ambition to shine in the operatic world the young woman is to become a peddler. Miss Pindar's idea was to be a peddler de luxe, and so she hired an automobile and went down to the financial district in New York, where she opened an auction sale of her photographs from the tonneau of the automobile. Miss Pindar says she was trying to raise money so she can continue her musical education and some day become a great operatic star, for such a career, she declares, has been predicted for her by critics on both sides of the Atlantic. Miss Pindar is the daughter of a Methodist minister who lives in California and who is opposed to the stage in all its forms. Miss Pindar says she is a niece of the late President Rutherford B. Hayes.

CITIZENS CAN HELP PREVENT ACCIDENTS

Drivers Complain Citizens Waiting for Cars Congregate in Middle of Road and Mishaps often Follow.

At the present time considerable care is being taken by the police officers and public officials to see that the laws regulating traffic on the public streets are adhered to. The action of the authorities in this direction has called for much commendation but complaints are being received from pedestrians themselves, whether transgressing the law or not, frequently interfere with traffic and no action in protection of drivers of different vehicles is forthcoming from the officials.

The laws are rigid as regards auto drivers, but it is claimed that no complaint is made when pedestrians while waiting for cars persistently block traffic on the roads, and the drivers of vehicles find it extremely difficult to prevent accidents if they are to adhere to the traffic laws.

A driver of a motor cycle said that on Monday evening he barely escaped running down a man near the city end of the Suspension Bridge simply because the people instead of remaining on the sidewalk were crowded out on the road, waiting for a car, while a team coming in the opposite direction was taking up the remainder of the road. This, he claimed, often occurs at the Douglas Avenue corner where the people wait for a car stand in the middle of the road and block the passage of vehicles.

Various labor and socialist organizations have taken up the matter, as it is claimed the police authorities at Sweetburs have been making a practice of arresting workmen when they might get the fees. Young Belyea and four other men have made affidavits that the high constable of Sweetburs offered to let them go if they paid him five dollars apiece, and that in consequence of their refusal to plead guilty to the charge of vagrancy they were sentenced to sixty days.

UPPER CANADA COLLEGE TORONTO

Premier Boys' School of Canada
Founded 1889 by SIR JOHN COLBORN,
GOVERNOR OF UPPER CANADA.

Senior and Preparatory Schools in separate modern buildings. 50 acres playing and athletic fields, with rink, gymnasium and full equipment. Specially constructed detached infirmary, with resident nurse. Summer Camp Lake Temagami, conducted by the Physical Instructor of the College, trains boys to take care of themselves in the open. SUCCESSIONS 1912—Scholarship 2, Honour (Matriculation) 22, Pass Matriculation 12, Royal Military College Passes 5. All particulars and historical sketch on application. Autumn term begins September 11th, 1913, 10 a. m. Boarders return on the 10th. Annual Report, Bureau.

Had A Terrible Attack OF DIARRHOEA BUT DR. FOWLER'S EXTRACT OF WILD STRAWBERRY CURED HER.

Mrs. JACOB SMITH, Manor, Sask., writes: "I am pleased to express my gratitude for your remedy in my case. I had a terrible attack of Diarrhoea, just about every three minutes. I would have a passage, and it would keep this up for a week at a time, causing the passage of bloody water. I was so pained and weak, I could not do anything. Seeing your Dr. Fowler's Extract of Wild Strawberry recommended, I tried it, and it thoroughly cured me. It is the only medicine I will now have for this complaint."

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY has been on the market for over 65 years, and is known from one end of Canada to the other as a certain cure for all Bowel and Summer Complaints. When you ask for "Dr. Fowler's" be sure and get it, as there are many imitations. The genuine is manufactured by The T. Millburn Co., Limited, Toronto, Ont. Price, 35 cents.

BORDEN GOVERNMENT TO LOOK INTO OCEAN RATES

Continued From Page One.
The Board of Railway Commissioners exercises jurisdiction over all matters relating to railways, except as to their incorporation and also controls telegraph, telephone and express companies. While that tribunal has exercised this jurisdiction with great success, it is now realized that the land journey accounts for only one-third of the distance between Liverpool and Winnipeg, and that over two-thirds of that distance no public control exists. A consideration, which has some force, is the large sums of public money which have been spent in works designed to facilitate and cheapen sea-board traffic, while an additional consideration is the prospective opening of the Panama Canal and the increased ease of water transportation in forwarding the products of the west to the Mother Country which may be expected to ensue.

Liberals Neglected It.

A singular feature of the situation is the fact that the Laurier government as early as February, 1910, initiated a movement of this nature, and then, on the British government meeting the proposals in a most cordial manner, suddenly dropped the subject. On February 25, 1910, a minute was passed by council suggesting that the matter be brought to the attention of the British government with a view to the establishment of a joint tribunal for the regulation and control of ocean rates.

In August, 1910, a despatch was received from the Secretary of State for the Colonies enclosing a memorandum from the marine department of the Board of Trade in which it was observed that there seemed no reason why the Imperial government should not discuss with the Canadian government the question of holding a joint inquiry into the rates charged and facilities afforded by shipping companies engaged in the trade between the United Kingdom and Canadian ports.

Thereupon, strange to say, the Canadian government took no action on the suggestion. The British authorities, however, a pungent and self-explanatory odor became perceptible and even the laymen present were able to recognize the true nature of the "bomb." The cheese was returned to the Carnegie corporation tonight resembling more the Swiss product than the Scotch.

Four more bullets were fired into the "bomb" and still silence reigned. Soon, however, a pungent and self-explanatory odor became perceptible and even the laymen present were able to recognize the true nature of the "bomb." The cheese was returned to the Carnegie corporation tonight resembling more the Swiss product than the Scotch.

CARNEGIE'S BOMB WAS A BIG CHEESE

Mystery Explained by Experts and Laugh is on New York Police — A Scotch One.

New York, July 22.—The mystery of the "bomb" which somebody sent to Andrew Carnegie, in care of the secretary of the Carnegie Corporation, who promptly turned it over to the police, who promptly turned it over to the bureau of combustibles, was solved today. It was a juicy cheese, every way—in health, strength, spirits and in looks—women find themselves better after timely use of

After deliberating most of the day as to what method should be used to determine the contents of the bomb without causing an explosion that would injure anybody, the officials of the bureau of combustibles took the "infernal machine" this afternoon to a vacant lot. There, from a safe distance, while an immense crowd waited with their fingers in their ears expecting an awful report, one of the officials levelled a rifle at the bomb and perforated it with a bullet. A thick yellow substance oozed from the hole and that was all that happened.

Four more bullets were fired into the "bomb" and still silence reigned. Soon, however, a pungent and self-explanatory odor became perceptible and even the laymen present were able to recognize the true nature of the "bomb." The cheese was returned to the Carnegie corporation tonight resembling more the Swiss product than the Scotch.
