Instantly! Corns Stop Hurting! Corns Loosen and Lift Out

No pain! Few drops loosen corns and calluses so they fall off—Never let corns ache twice—No humbug!

For a few cents you can get a small bottle of the magic drug freezone recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freezone. Apply a few drops upon a tender, aching corn or callus and instantly all soreness disappears and shortly you will find the corn or callus so loose that you lift it off with the fingers.

Just think! Not one bit of pain before applying freezone or afterwards.

It doesn't even irritate the surrounding skin.

Hard corns, soft corns, or corns between the toes, also hardened calluses on bottom of feet shrivel up and fall off without hurting a particle. It is almost magical. Freezone is a scientific compound made from ether, says a well-known druggist here, and the genuine is always sold in these little bottles packed in a round, wood case. Don't accept it unless in a round, wood case.

He elected to be tried under the Speedy Trials Act, and pleaded guilty; John LeBlanc, of the same address was arrested in connection with the theft of a hat from the hold of a steamer in which he was working; Hector Robichaud was charged with the theft of china from the C. P. R. sheds on West side. As the accused paid the C. P. R. the cost of the goods taken they were allowed out on suspended sentence.

The Overland Big Four—again improved and refined—is the car that built Overland.

This car for nine years has undergone steady development and refinement with the help and advice of an army of owners which now totals over three hundred thousand.

It should be, and we believe is, especially notable for its balanced greatness.

The unprecedented accumulated experience in building this type of car has taught us true balance as nothing else could—the value of right weight—the right ratio of power to weight—the true tire, gasoline and oil economy—the utmost attainable riding comfort—the lines that truly express refinement and beauty.

It is produced under conditions which permit remarkable economies of administration, manufacture and distribution.

It should be, and we believe is, better value than any car of similar specifications.

The price is \$1190 until May 1st—thereafter \$1250.

The Light Six is the same model with changes conforming to approved six-cylinder construction and is likewise an excess value car at the price, \$1380 until May 1st—thereafter \$1435.

These cars represent a safe purchase at a very considerable saving on a basis of comparative values.

Our April deliveries are limited.

I wonder if all the boys know this man, whose name was Kit Carson. Another name he had is "Kit." He died in 1868, so you have to look back in history as far as that to find out about him. He had a lot to do with the west and he would be interesting to about now. I wonder if you
