

Presenting The New Modes for Spring

THE somber tones of war fashions are relegated to a dim past; women's realm in matters of dress comes in for more attractive and distinctive treatment than ever before. Thus the new Spring Fashions will be found refreshing—beautiful—altogether "wearable" and pleasing. And, needless to say to those to know the Raphael-Mack Store, they are shown here in a wealth of variety and tasteful selection, which covers every need in women's ready-to-wear apparel.

Millinery

A new department which will delight you with the moderate reasonableness of its prices on smart hats of real "class" and quality.

Suits

Possessing the three attributes that the thoughtful woman demands: Style, Character, Service. She gets them all in these new Raphael-Mack creations.

Coats

A collection which includes models for every occasion; for street wear, motoring and general-purpose wear. All colors, of course.

Dresses

Charming Spring styles that are as new-looking as they are good-looking; at popular Raphael-Mack prices.

Waists

Superb effects of dainty Georgette, embellished with lace, beads and embroidery; unusual and original Russian blouses and collarless models.

Skirts

"Chic" styles which are comfortable as well as becoming—in tailored and trimmed effects.

of the Canadian Government to interest all sections of the Dominion in order to continue industrial development at the peak load.

"I would urge upon the Federal Government that it is not now too late to take up a great shipbuilding program," he said. "We must soon build vessels with Canadian steel and with Canadian labor."

Canada would then soon be sending Canadian goods throughout the world in Canadian bottoms, he added, amidst applause from both sides of the House.

Referring to the expenditures of the Tomlinson & Northern Ontario Railway Mr. McGarry pointed out that the total revenue amounted to \$2,312,310, while the total expenditures reached \$2,390,302. Net earnings amounted to \$429,000.

Voice in Control
The new extensions that are contemplated and the steps taken to provide for in connection with the hydro developments will total \$8,454,910. Mr. McGarry said, "of which some \$5,187,000 will be expended in connection with the Chipewyan scheme. The remainder will be spent for improvements at Fort William, St. Lawrence, Severn and other systems. It is now estimated that the whole scheme of improvements will call for \$11,000,000 so that an additional \$1,000,000 will have to be raised to carry on the work and improvements."

It is estimated during the next year that the present expenses to be provided for in connection with the hydro developments will total \$8,454,910. Mr. McGarry said, "of which some \$5,187,000 will be expended in connection with the Chipewyan scheme. The remainder will be spent for improvements at Fort William, St. Lawrence, Severn and other systems. It is now estimated that the whole scheme of improvements will call for \$11,000,000 so that an additional \$1,000,000 will have to be raised to carry on the work and improvements."

COCONUT OIL MAKES A SPLENDID SHAMPOO

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos of anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain purified coconut oil (which is pure and entirely greaseless) is much better than anything else you can use for shampooing as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two spoonfuls will make an abundance of rich, creamy lather and cleanses the hair and scalp thoroughly. The latter rinses out easily and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, fluffy and easy to manage.

You can get purified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family six months.

A Philadelphia Pastor is in City

Rev. Paul Schneider brother of Rev. J. Schneider of this city arrived last evening from Philadelphia. He was a pastor for over 15 years in Lancaster, Pa., from where the first settlers of Kitchener came.

Save Something Every Week

No matter how little you can save, you can save it. And your business will be saved something every week. Regularly pays.

Open accounts count with the Bank. Add to a regular saving plan, and you will find you are saving something every week. Worth while last on.

A. J. CUNDICK
Manager Kitchener Branch

He is very favorably impressed with the similarity of Kitchener and Lancaster. He will remain in the city for several days and will occupy the pulpit at St. Matthews Lutheran Church on Sunday.

Uric Acid in Meat Brings Rheumatism

Says a Little Salts in Water May Save You From Dread Attacks

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia salt. In use with excellent results by thousands of folks who are subject to rheumatism.

Canadian Press Dispatch
Toronto, March 6.—Ontario is faced with the problem of providing during 1915, \$17,000,000 to meet maturing

loans and to provide for special requirements of the construction period. The estimated revenue of the province for the year is \$18,408,000, and the estimated expenditure \$20,000,000 which sum includes \$11,000,000 to be expended for hydro-electric development and extension throughout the province.

The above facts, together with the announcement that the war tax of one mill imposed on municipalities of Ontario since 1915 has been collected for the last time, were the features comprised in the budget which Hon. T. W. McGarry, provincial treasurer, presented to the Ontario Legislature, this afternoon.

The minister delivered a comprehensive address which gave evidence of careful preparation and forethought and which covered almost every point in the budget, to the apparent satisfaction of the majority of the members of both sides of the House.

A Record Surplus
Mr. McGarry announced that Ontario this year has the highest surplus in its history, \$1,800,000, which is an increase of \$58,000 over the 1914 surplus, which had set a record in its turn. The total revenue of the province in 1914 was \$15,270,123, an increase of \$1,000,526 over that for the previous year.

Abolition of the war tax on municipalities, while advocated by many and demanded for by some, came rather as a surprise to the majority and the treasurer's announcement was greeted with applause from both sides of the House.

Dealing with charges made during the recent by-election that the province had a total liability of \$75,000,000, the minister admitted that this was correct, but claimed that critics of the Government did not touch

Extra Special Reductions for Saturday

You can save money by choosing from the following articles which are very specially priced for Saturday:

\$7.00 ALL WOOL SERGE SKIRTS AT \$4.50

These are of all wool serge in navy blue and black, smartly tailored with belt and slashed pockets, trimmed with buttons. These skirts were an extra good purchase for us and at the price we are offering it for Saturday (only) it is absolutely an extraordinary bargain. Reg. \$7.00, at **\$4.50**

Beaten by the sweater we have a large stock of Men's Sweaters; you can positively save money by buying a sweater on Saturday. These are wool and cotton mixtures in grey, maroon and navy blue. Reg. \$4.25, on Saturday **\$3.25**

HIMELSTEIN'S 142 W. King Kitchener.

When Teacher asked what becomes of all the corn we raise I said Post Toasties

the other side of the question at all. The total liquid assets of the Government were \$75,000,000. Mr. McGarry declared himself proud of the debt for it represented advancement on the part of the people of Ontario.

The Tomlinson & Northern Ontario Railroad, for instance, was every year making a deficit of nearly \$600,000. Nevertheless Mr. McGarry approved the road, which he argued had been built for accommodation and not as a money maker. At the same time he expressed confidence that it would not be long before the line became a paying investment.

Reference to hydro-electric matters was received with applause from both sides of the House. Mr. McGarry asked the Opposition whether they approved the \$4,000,000 spent on hydro and the \$22,000,000 on the Tomlinson & Northern Ontario.

He announced that the hydro last year had paid to the last cent its interest to the Government, \$1,400,000.

In addition to \$75,000,000 of liquid assets, Mr. McGarry continued the Government had \$22,000,000 invested in public buildings throughout the province and \$503,000,000 of other assets, which it could resolve into cash at any time, having thus total assets of approximately \$600,000,000, against its liabilities of \$75,000,000.

The Province of Ontario, he declared stood preeminent in the financial world, both of America and of Europe. It had never gone into an undertaking requiring large expenditures unless assured of returns, either immediate or remote. Last year the Province had never paid higher than 6 1/2 per cent, interest on money borrowed, and since the close of the war had done even better.

Good Financing
Mr. McGarry stated that he had recently borrowed \$1,000,000 in New York at 5 1/2 per cent, and had concluded negotiations by which the net cost to the Government for six months would be only 1.82 per cent.

He declared that no Government should enter long-period obligations at present rates of interest, for within three years the British market would be open once more and would become once more the world's financial center.

Mr. McGarry lauded the co-operation which had prevailed in the old land both during and since the war and favored an endeavor on the part

CANADA FOOD BOARD LICENSES 11-003, 14-166.

HAVE you tasted McCormick's Jersey Cream Sodas?

They are delightful—crisp and full of flavor—All the ingredients used are of the highest quality.

A wholesome and economical food.
