

(Mr MacGregor's
rejoinder to
Dr. Arnold's reply)

OR-12

surgeon (orthopaedic). He does extensive work at the Sick Children's Hospital; which requires much of his time.

5

(5) Dr. W.E. Ogden, is another medical official of the D.S.C.R. who was placed on half-time and is too well-known, as a Chest specialist, to require any mention of his preminence. Dr. Ogden is also in charge of the Chest Clinic at Western Hospital -- in addition to which he has a lucrative private practice.

10

I note that Dr. Arnold, in said opening statement, refers to only five doctors who were reduced from full-time to half-time. As there are, however, eight D.S.C.R. medical officials who were dealt with in this way:

15

(6) Including, also, Dr. F. Ridsen, the eminent plastic surgeon who obviously is employed in more lucrative outside work than with the D.S.C.R.

20

(7) And including, also, Dr. Horace MacIntyre chest specialist who has also a large and growing practice.

(8) And Dr. Norman MacLaurin, the capable general practitioner.

25

It occurs to me that the five medical officials, whom Dr. Arnold had in mind when he made this reference were those five he changed to part-time without any hardship even to their own advantage, namely, Drs. Gilchrist, Harris, Ridsen, Ogden
