First Class Premiums were taken last summer at each of the above Fairs after severe tests of these Scales.

It may not be out of place here to state, that it has been our aim to place ourselves in competition with other scales as much as possible. We spent last summer in visiting a few of the Fairs, which are known to be the best authority, in different States, thus to test the superiority of our Scales. It is very gratifying here to state, that in every instance where we have exhibited, we have received the First Class Premiums.
